NOTE 1 – DESCRIPTION OF PLAN

The following description of the Dorfman Pacific Co., Inc. Voluntary Investment Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a defined contribution plan covering substantially all employees of Dorfman-Pacific Co. and its subsidiary Milano Hat Co., Inc., and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Dorfman-Pacific Co. (the Company) is the Plan's sponsor and serves as plan administrator.

All investments of the Plan are held in a custodial fund by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company. As custodian and trustee, Principal Trust Company holds the Plan's investments, executes all of the investment transactions, maintains the financial records relating to the trust, and makes all benefit payments as directed by the plan administrator.

Eligibility – Employees of the Company are eligible to participate in the Plan upon completing two months of service. Participants must complete at least 1,000 hours of service during the plan year, and be employed as of the last day of the plan year, to be eligible to receive any employer profit sharing contributions. Participants who reach their normal retirement date, become disabled or die in a plan year are also eligible to receive any employer profit sharing contributions. Effective January 1, 2015, an employee will be eligible for profit sharing if they were a Plan participant at any time during the year.

Contributions – Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Prior to June 28, 2013, the Company matched 100% of employee contributions, up to 4% of eligible compensation deferred to the Plan. From June 28, 2013 through August 31, 2014, the Company discontinued employer matching contributions. On September 1, 2014, the Company reinstated the employer matching contributions. The Company matches 100% of employee contributions, up to 3% of eligible compensation, and 50% of eligible compensation of the next 2% of eligible compensation deferred to the Plan. The Company may elect to make discretionary profit sharing contributions to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation, with social security integration as defined in the Plan. The Company made profit sharing contributions of $50,000 and $0 in the years ended December 31, 2014 and 2013, respectively.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants direct the investment of their contributions into various investment options offered by the Plan.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Vesting – Participants are vested immediately in their contributions, as well as in the Company's contribution portion of their accounts, plus actual earnings thereon.

Notes receivable from participants – Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or the greater of (a) 50% of their account balance or (b) $10,000, adjusted as defined in the Plan. Participants are limited to one loan outstanding and one loan approved in any 12 month period. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan agreement, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. As of December 31, 2014, the rates of interest on outstanding loans ranged from 4.25-9.25% with various maturities through September 2022.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, or installments over a period of not more than the assumed life expectancy of the participant or his or her beneficiary. For termination of service for other reasons, a participant may receive the value of the interest in his or her account as a lump-sum distribution, or if the value of the account is more than $5,000, can continue to participate in the plan investments to provide benefits when the participant retires or dies.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncement – In April 2015, the Financial Accounting Standards board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient (NAV).

The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted. Once adopted, the Plan will apply the amendments retrospectively to all periods presented. Plan management is determining the specific impact on Plan reporting.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent accounting pronouncement (continued) – In July 2015, FASB issued ASU 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962) I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient. The amendments remove the requirement to:

- report fully benefit-responsive guaranteed investment contracts at fair value.
- disclose individual investments held which exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.
- disclose investment strategy for investments for which fair value is measured using the NAV practical expedient, if they are Form 5500 Direct Filing Entities.

The ASU is effective for fiscal years beginning after December 15, 2015, with earlier application permitted. Once adopted, the Plan will apply the amendments retrospectively to all periods presented. Plan management is determining the specific impact on Plan reporting.

Investment valuation – The investments are stated at fair value. The Plan's trustee, Principal Trust Company, certifies the contract value of the guaranteed investment contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payment of benefits – Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other participant requested services are charged directly to the participant's account and are included in administrative expenses. Prior to June 1, 2013, certain recordkeeping fees were allocated to participant accounts and included in administration expenses. Effective June 1, 2013, those fees are now paid directly by the Company. Investment related expenses, including certain revenue sharing paid to the recordkeeper, are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued. Note 13 provides disclosure of certain subsequent events that did not result in recognition in the financial statements.

The Plan has evaluated subsequent events through August 28, 2015, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

Registered investment companies	$ (226,985)	$ 820,512
Collective trusts	312,458	768,777
Net appreciation in fair value of investments	$ 85,473	$ 1,589,289

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies (mutual funds) – Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded (level 1).

Collective trusts – Units held in collective trusts (CT) are valued using the NAV of the CT as reported by the CT managers. The NAV is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV of a CT is calculated based on a compilation of primarily observable market information. The CT's are redeemable at NAV (level 2). The Plan invests in various Principal Trust Company target date collective trust funds, which seek total return consisting of long-term growth of capital and current income, consistent with the investment strategy of an investor who expects to retire at the particular retirement date. The Income Fund investment objective is current income. Withdrawals are generally permitted on any business day, subject to a limitation of one "round trip" in a fund in any rolling 30-day period, as defined. There are no redemption notice periods or unfunded commitments.

Guaranteed investment contract – The guaranteed investment contract (GIC) is valued at fair value based upon the contract value less surrender charges (level 3). See Note 5.

NOTE 4 – FAIR VALUE MEASUREMENTS (CONTINUED)

The plan administrator determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose by level, the fair value hierarchy, of the Plan's assets at fair value:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

Name	Fair Value	Valuation Technique	Unobservable Inputs	Range of Input Values
Principal Fixed Income Guaranteed Option	$ 855,597	Discontinuation Value	Composite Crediting Rate	2.00%
			Surrender Charge	5%

NOTE 5 – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value and contract values were as follows:

Guaranteed investment contract	Fair Value	Contract Value	Adjustment to Contract Value
December 31, 2014	$ 855,597	$ 900,628	$ (45,031)
December 31, 2013	$ 768,125	$ 808,553	$ (40,428)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is set by the issuer, based on a "vintage" mechanism that is used to set and track rates guaranteed under the contract based on when the contract is issued, with options to migrate to a new "vintage" schedule subject to a migration charge. The guaranteed rate may not be less than 1%. Such interest rates are reset on June 1 and December 1 of every year. The crediting interest rates were 2.00% from January 1, 2014 through December 31, 2014. The crediting interest rates were 2.10% from January 1, 2013 through May 31, 2013 and 2.00% from June 1, 2013 through December 31, 2013. The average yield earned by the Plan is equal to the credited interest rates.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date, although it has the right to no longer receive deposits upon 60 day notice. The contract provides for surrender charges upon termination by the plan sponsor as defined in the contract.

NOTE 6 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 8, 1998, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 8 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, excluding the adjustment from fair value to contract value.

- Net appreciation in fair value of investments, dividends, interest, and interest income from notes receivable from participants reflected on the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.
