Independent Auditor's Report

To the Administrator of the Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems:

We have audited the accompanying financial statements of Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2014 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014 and changes therein for the year then ended and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

RETIREMENT PLAN FOR SALARIED EMPLOYEES OF
L-3 COMMUNICATIONS COMBAT PROPULSION SYSTEMS
NOTES TO FINANCIAL STATEMENTS
(Dollars in thousands)

1. Plan Description

The following brief description of the Retirement Plan for Salaried Employees of L-3 Communications Combat Propulsion Systems (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan was established effective February 25, 2005 in connection with the acquisition of the Propulsion Systems business unit of General Dynamics by L-3 Communications Corporation (the "Company"), a wholly owned subsidiary of L-3 Communications Holdings, Inc. On that date, certain salaried participants in the General Dynamics Corporation Retirement Plan (Government) (the "Prior Plan") became participants in the Plan. The provisions of the Plan apply only to employees who terminate active employment on or after February 25, 2005.

The Plan is a non-contributory defined benefit plan. Participation in the Plan commenced on the first day of the following month after completion of one year of continuous service. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan is frozen with respect to new participants hired on or after January 1, 2007. As such, any employees hired on or after January 1, 2007 are not eligible to participate in the Plan.

The Plan was amended effective January 1, 2014. The Plan amendment states, if a Plan participant is transferred to any business unit within the Company on or after January 1, 2014, any service and compensation earned by the participant of the Plan from the date of transfer until the date of the participant's termination of employment with the Company will be treated as though earned by the participant at the business unit of the Plan. The Plan amendment does not affect the benefits of a Plan participant who continues to be employed by the Company but becomes or ceases to be a represented employee covered by a collective bargaining agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Interest in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the "Master Trust") administered by The Bank of New York Mellon ("BNY"), as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the "L-3 Participating Plans"). The only investment of the Plan is its undivided interest in the net assets of the Master Trust. The fair value of the Plan's interest in the Master Trust is determined based on the beginning of year value of the

Plan's undivided interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, and corporate bonds. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Income from Master Trust

The net investment income from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each Plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the

estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the investments and related allocation reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Recently Issued Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, which eliminates the requirement for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation by general type. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. ASU 2015-12 also removes the requirement to disaggregate investments of employee benefit plans by nature, characteristics and risks and will require that these investments be grouped only by general type. This update is effective for the interim and fiscal periods beginning after December 15, 2015. The adoption of this standard will not impact the Plan's statements of net assets available for benefits, statements of changes in net assets available for benefits or statements of accumulated plan benefits and changes in accumulated plan benefits.

In May 2015, the FASB issued ASU 2015-7, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-7 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for interim and fiscal periods beginning after December 15, 2016. The adoption of this standard will not impact the Plan's statements of net assets available for benefits, statements of changes in net assets available for benefits or statements of accumulated plan benefits and changes in accumulated plan benefits.

Subsequent Events

The Plan continued to evaluate events after the Statement of Net Assets Available for Benefits date through August 31, 2015, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company's funding policy is to contribute amounts in accordance with the Internal Revenue Code ("IRC") that are at least equal to the minimum funding requirements under ERISA. There was no minimum funding requirement in 2014. Contributions from the Company required in 2013 under the minimum funding requirements of ERISA were $457. The Company's contributions met or exceeded the minimum funding requirements of ERISA in 2014 and 2013. Minimum contributions are calculated using the Unit Credit Actuarial Cost Method, as prescribed by law. Under this method, the liability is measured on an accrued-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Assuming all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the minimum required contribution is generally designed to achieve the following: (1) if the plan is underfunded, funding at the minimum level would achieve 100% funding within seven years, and then contributions would equal the target normal cost, or (2) if the plan is overfunded, there will be no required contributions unless the target normal cost exceeds the overfunding.

4. Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (*a*) retired or terminated employees or their beneficiaries, (*b*) beneficiaries of employees who have died, and (*c*) present employees or their beneficiaries.

Participants are entitled to receive monthly pension benefits beginning at the normal retirement age of 65. The monthly normal retirement benefit is equal to the greater of an amount equal to 1⅓% of final average monthly salary multiplied by that period, in years and completed months, of includible Plan membership or an amount equal to twenty six dollars multiplied by that period, in years and completed months, of Plan membership. An employee accrues one month of Plan membership for each calendar month in which he or she is an active member and receives base compensation as a salaried employee. Final Average Monthly salary is the average of the salary rates in effect on the first day of each of the 60 consecutive months of Plan membership for which an active member's salary rate was the highest out of the 120 months of Plan membership immediately preceding the date of retirement.

The Plan permits participants to retire at an early retirement date, which is the first day of any month specified by the participant following the attainment of age 55 and completion of 10 or more years of continuous service, and before reaching the age of 65 provided retirement has occurred. A participant who elects to retire on an early retirement date is entitled to a retirement benefit commencing on his or her normal retirement date in an amount equal to the accrued regular benefit determined at the early retirement date. If the participant attains the age of 62 at the date of commencement of benefits, the accrued benefit will be payable without reduction. If benefits commence prior to age 62, the accrued benefit determined at the early retirement date will be reduced by 2½% of the normal retirement benefit for each year, with months counting as twelfths, between the first day of the month following the date of

commencement of benefits and attainment of age 62. Retirees may elect to receive pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant generally receives benefits equal to 50% of the amount which would have been payable to the retiree under the applicable joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2014 and 2013 were:

Mortality basis	2014: Total Collar RP-2014 Mortality Table (adjusted back to 2006), projected generationally with the 2014 SSA Intermediate – Cost Projections Scale. 2013: RP-2000 combined (sex distinct) Tables with static projection through the valuation date plus another 7 years for annuitants and 15 years for non-annuitants.
Retirement	Retirement at ages 55 through 70, at varying rates, with 100% by age 70
Interest rate for the determination of the present value of accumulated plan benefits	8.25%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2014.

5. Master Trust Investments

The fair value of the assets and liabilities of the Master Trust at December 31, 2014 and 2013 is presented in the table below. The Plan's percentage interest in the Master Trust was 1.6% at December 31, 2014 and 2013.

	2014	2013
Equity securities	$ 1,438,681	$ 1,360,074
Fixed income securities	317,286	291,544
Mutual fund	204,037	192,642

Payable for unsettled trades	(22,403)	(21,257)
	$ 2,300,529	$ 2,133,143

The following presents the investment income of the Master Trust for the years ended December 31, 2014 and 2013.

	2014	2013
Net appreciation of investments	$ 139,515	$ 320,057
Interest	13,533	9,875
Dividends	37,835	35,802
Other	55	409
	$ 190,938	$ 366,143

The following presents the net appreciation (depreciation) in fair value of the Master Trust's investments, including realized gains and losses, and the unrealized appreciation and depreciation of investments for the years ended December 31, 2014 and 2013.

	2014	2013
Equity securities	$ 141,101	$ 305,758
Fixed income securities	1,521	1,583
Mutual fund	6,230	(9,053)

Forward contracts	298	104
Other	60	234
	$ 139,515	$ 320,057

The Plan, through the Master Trust, may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a foreign currency forward contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchange rates at the dates of entry in the contracts and the forward foreign exchange rates at the reporting date is included in Plan's statement of net assets available for benefits. Realized and unrealized gains and losses are included in the Plan's statement of changes in net assets available for benefits. These instruments involve market and/or credit risks. The Plan, through the Master Trust, manages exposure to credit risk by entering into foreign currency forward exchange contracts only with major institutions that are expected to fully perform under the terms of such contracts. The average notional amounts for the years ended December 31, 2014 and 2013 were $6,246 and $4,047, respectively.

At December 31, 2014 and 2013, the Plan had the following foreign currency forward exchange contracts.

	2014			2013		
	Asset	Liability	U.S. Dollar Notional	Asset	Liability	U.S. Dollar Notional
Foreign currency forward exchange contracts	$ 23	$ —	$ 3,298	$ —	$ 103	$ 4,020

6. Fair Value Measurements

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, a mutual fund classified under Fixed Income – Investment Grade and Real Estate Investment Trusts ("REITs"), all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets primarily include money market accounts, a commingled trust fund and both investment grade and high-yield fixed income securities.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2014 and 2013, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2014 and 2013. There were no transfers between Levels 1, 2 or 3 during the years ended December 31, 2014 and 2013.

Asset Category	Fair Value Measured at December 31, 2014				Fair Value Measured at December 31, 2013			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

U.S. Equity	$ 1,189,565	$ —	$ —	$ 1,189,565	$ 1,160,574	$ —	$ —	$ 1,160,574
International Equity	87,911	142,471	—	230,382	79,779	147,572	—	227,351
Fixed Income — Investment Grade[2]	240,731	158,797	—	399,528	219,901	151,595	—	371,496
Fixed Income — High Yield[3]	—	121,795	—	121,795	—	112,690	—	112,690
REITs[4]	161,205	—	—	161,205	119,721	—	—	119,721
Other[5]	—	211,230	—	211,230	—	152,258	—	152,258
Total assets at fair value	$ 1,679,412	$ 634,293	$ —	$ 2,313,705	$ 1,579,975	$ 564,115	$ —	$ 2,144,090
Accrued income, cash and net unsettled trades				(13,176)				(10,947)
Total Master Trust Investments				$ 2,300,529				$ 2,133,143

(1) Equity securities consist of investments in common stock of U.S. and international companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various international exchanges. The Level 2 investment balance is derived from a regulated commingled equity trust fund, which fair value is based on the net asset value (NAV) at the end of each month. The NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Withdrawals are permitted monthly, with notice by the 20th day of each month, based on NAV.

(2) Approximately 60% at December 31, 2014 and 59% at December 31, 2013 of plan assets that are invested in the Fixed Income — Investment Grade asset category consist of a mutual fund offered by a registered investment company (the "Fund") and fixed income securities. The Fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. The fund is classified by the Company as a Level 1 measurement within the fair value hierarchy, as the mutual fund trades on an active market and daily, quoted prices are available. The remaining 40% at December 31, 2014 and 41% at December 31, 2013 of plan assets are fixed income securities, primarily investment grade corporate bonds from various industries held directly by the plan. The fair value of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs and are classified as level 2.

(3) Fixed Income — High Yield consists of investments in corporate high-yield bonds from various industries. The fair value of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

(4) REITs consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

(5) Other is classified as level 2 consists primarily of money market accounts, which invest primarily in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2011.

The Plan recognizes accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.

8. Related Party Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan (through the Master Trust) paid certain expenses related to plan operations and investment activity to various related party service providers. These transactions are exempt party in interest transactions under ERISA.

9. Termination Priorities

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

a. Benefits attributable to employee contributions, taking into account those paid out before termination.

b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.

c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.

d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Interest:

The interest rates used for the 2014 plan year are the 24-month average corporate bond segment rates for September 2013 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average of corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2014, the stabilization corridor is 10%. It will remain at 10% through 2017, then increase by 5% per year until it reaches 30% for 2021. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization (under HATFA)	4.99%	6.32%	6.99%	6.48%
Current Year, without stabilization	1.37%	4.05%	5.06%	4.35%
Prior Year, reflecting stabilization (under MAP-21)	4.94%	6.15%	6.76%	6.31%
Prior Year, without stabilization	1.75%	4.62%	5.72%	4.92%

The segment rates used to determine the PBGC variable rate premium are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
Current Year	1.25%	4.57%	5.60%
Prior Year	1.75%	4.62%	5.72%

Mortality rates:	RP2000 combined annuitant and non-annuitant healthy mortality tables (sex-specific) with static projection using Scale AA and no collar-adjustment. Mortality is projected from 2000 through the valuation date plus another 7 years for annuitants, and through the valuation date plus another 15 years for non-annuitants. This assumption is one of the choices allowed by the regulations.
Salary increases:	3.50%.

Description of Weighted Average Retirement Age:	Age 62, determined as follows: The weighted-average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements.
Retirement from inactive status:	Age 65, or immediately if over 65
Percent married:	70% of male plan members and 55% of female plan members.
Age difference:	Male spouses are assumed to be three years older than female spouses.
Form of payment:	Life annuity for unmarried participants. 50% joint and survivor for married participants.
Social Security Benefits:	It is assumed that the Social Security taxable wage base will increase at the average rate of 3.00% per annum compound.
Administrative expenses:	An expense assumption is required under the funding rules. Plan-related expenses of $225,000 are expected to be paid by the plan during the year.
Asset method:	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rate of 7.52% for 2012 and 6.76% for 2013.
Funding method:	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.
Assumption Changes since Last Valuation:	None

Summary of Plan Provisions

This subsection summarizes the major provisions of the Plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

PLAN STATUS: CLOSED TO NEW HIRES EFFECTIVE 1/1/2007	
Effective Date: February 25, 2005	
Normal retirement:	
Age requirement:	65
Service requirement:	None
Amount:	A monthly pension is the sum of (i) to (iv), but not less than the Minimum Benefit: (i) Service Prior to 1/1/1964: $18.00 per year of Credited Service. (ii) Service 1/1/1964 to 12/31/1980: 1-1/4% of final average pay per year of Credited Service. (iii) Service 1/1/1981 to 3/31/1997: 1% of final average pay up to Covered Compensation, plus 1.65% of the excess per year of Credited Service. (iv) Service After 3/31/1997: 1-1/3% of final average pay per year of plan membership service. Plan membership service after March 31, 1997 is limited to 40 years. Final average pay equals the average of the highest consecutive 60 monthly salary rate received during last 120 months of plan membership. Covered Compensation equals the average of the Social Security taxable wage bases in effect for each calendar year during the 35 year period ending in the year of termination.
Minimum Benefit:	
Amount:	(i) Service Prior to 1/1/1964: $18.00 per year of Credited Service. (ii) Service 1/1/1964 to 3/31/1997: $20.00 per year of Credited Service. (iii) Service after 3/31/1997: $26.00 per year of plan membership service including that additional period during which the member would have accrued benefits but for the age and/or service requirements for eligibility to enter the Plan.

Pension Enhancement:	
Amount:	Members employed prior to January 1, 1999 and retiring from active service will be entitled to a pension enhancement benefit of $94 per month, prorated for less than ten years of continuous service measured from April 1, 1997 to retirement, commencing at age 65. An additional benefit, in the same amount, will be payable when an eligible spouse attains age 65. If a member was employed prior to January 1, 1999 and terminates with a deferred vested benefit, the pension enhancement benefit will be multiplied by the ratio of the member's years of service measured from April 1, 1997 to termination to the years of service measured from April 1, 1997 he would have had at age 65.
Early retirement:	
Age requirement:	55
Service requirement:	5 years of continuous benefit service if service accrued prior to April 1, 1997 10 years of continuous benefit service if service accrued after March 31, 1997
Amount:	The benefit accrued to date of early retirement based on service accrued prior to April 1, 1997, reduced by 3% for each year between age 65 and the date of commencement of benefits. The benefit accrued to date of early retirement based on service accrued after March 31, 1997, either (i) with no reduction, if benefits commence at or after age 62, or (ii) reduced by 2-1/2% for each year between age 62 and the date of commencement of benefits, if benefits commence prior to age 62.
Vesting:	
Age requirement:	None
Service requirement:	5 years of service
Amount:	The benefit may commence prior to age 65 with a reduction of 3% for each year prior to age 65 applicable to the benefit based on service accrued prior to April 1, 1997 and on an actuarial equivalent basis applicable to the benefit based on service accrued after March 31, 1997.
Participation:	
Amount:	Salaried employees of L-3 Combat Propulsions who have completed one year of service. Salaried employees covered by a collective bargaining agreement may only be covered if specifically provided in such agreement. A transferred employee who was an active participant in the prior plan (General Dynamics Corporation Salaried Retirement Plan) on February 24, 2005 should automatically become an active participant.

Pre-retirement death benefits:	
Amount:	If a member dies while eligible for early retirement or while eligible for a vested benefits and leaves a surviving spouse to whom he/she has been married for at least one year, the surviving spouse will be entitled to the benefit that would have been payable had the member terminated employment on the date of death with payment of benefits to commence on the earliest date permitted thereafter and elected the 50% contingent annuitant option.
Post-retirement death benefits:	
Amount:	Depends on the form of pension elected; in any event, the excess, if any, of the death benefit payable just prior to retirement over actual pension payments is paid to the beneficiary.
Forms of Benefit:	
Normal Form:	Life annuity
Optional Forms:	(a) 50% Contingent Annuitant Option (b) 75% Contingent Annuitant Option (c) 100% Contingent Annuitant Option (d) Level Income Option at Age 62 (e) Ten Years Certain and Life Option (f) Lump Sum Option (maximum $20,000) The automatic payment option for Married Members or Married Vested Members is the 50% Contingent Annuitant Option with the spouse designated as Contingent Annuitant.
Lump sum benefit:	Benefits with present value less than or equal to $1,000 are automatically cashed out. If the present value of the benefit is over $1,000 but less than or equal to $5,000, a lump sum is offered to the participant. If the present value of the benefit is over$5,000 but less than or equal to $20,000, the participant can elect the lump sum, an immediate annuity, or a deferred annuity.
Actuarial Equivalence:	Optional forms (other than the lump sum) are of actuarial equivalent value computed as follows: Accrued benefits as of June 30, 2005 will be based on the greater of the 1984 unisex pension mortality table (UP 1984 table, set back as per the plan document) with seven percent (7%) per annual compound interest or the mortality table specified in RR2001-62 set forward as per the plan document and with six percent (6%) per annual compound interest. All other benefits will be based on the RR2001-62 with 6% interest.
