AMERICAN INCORPORATED 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Summary of Plan Description

The following description of the American Incorporated 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering employees of the Company who have six months of service and are age eighteen or older. However, with respect to contributions made pursuant to the Davis-Bacon Act, any eligible employee shall be eligible to participate who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to a maximum percentage allowed, of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has an option to match participant contributions. If the Company elects to do so, the matching contributions are invested at the same ratio as the participants select. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are also invested at the same ratio as the participants select. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) Company's contribution, (b) Plan earnings, (c) forfeitures, and charged with an allocation of administration expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings, basic matching contributions thereon and contributions made pursuant to the Davis-Bacon Act. Vesting in the Company's profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after one year of credited service.

Notes Receivable from Participants
Participants may borrow from their fund accounts up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest payments are made through either payroll deductions or payments directly to the Plan administrator and made not less frequently than quarterly over a period not to exceed five years.

Summary of Plan Description (Continued)

Forfeited Accounts
At December 31, 2014 and 2013 there were no forfeited nonvested accounts. Forfeitures may be used to pay contributions due to the erroneous omission of an eligible employee or used to pay any administrative expenses of the Plan.

Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of assets available for benefits of a defined-benefit contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value except for its investments contract with an insurance company, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Summary of Significant Accounting Policies (Continued)

Operating Expenses
The majority of the expenses of maintaining the plan are paid by the company.

Notes Receivable from Participants
Notes receivable from participants are measured at their un paid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Income Taxes
The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Based on the normal statutes, tax years ending December 31, 2011 and thereafter are open for audit for federal income tax purposes.

Management's Review
In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 12, 2015 and the date the financial statements were available to be issued.

Information Prepared and Certified By Trustees

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustees, Prudential Bank and Trust and Prudential Retirement Insurance and Annuity Company as of December 31:

3. Information Prepared and Certified By Trustees (Continued)

The following presents investments quoted at market prices at December 31, 2014 and 2013, that represent 5% or more of the plan's net assets:

Victory Dividend Cl A	372,000	344,432

4. Group Annuity Contract

In 2002, the Plan entered into a group annuity contract with Connecticut General Life Insurance Company (CIGNA). On April 1, 2004, Prudential Insurance Company purchased the CIGNA Retirement and Investment Division. No new contracts were issued, rather, Certificates of Assumption were issued indicative of the fact that Prudential Retirement Insurance and Annuity Company (PRIAC) has assumed liability of their plan assets.

PRIAC has established relationships (or alliances) with other investment companies, such as American Century, Fidelity Investments and INVESCO. Funds offered through this arrangement are considered PRIAC Pooled Separate Accounts. These accounts are credited with actual earnings on the underlying investments and charged for plan expenses and withdrawals.

With the exception of the Guaranteed Income Fund, all funds are presented at the value of the underlying investments held within each fund net of PRIAC's annual management fee, asset charge, any taxes or charges. The Guaranteed Income Fund is presented at contract value.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the ERISA Act of 1974, the auditors have not applied auditing procedures to the accounting transactions and information with respect to the aforementioned group annuity contract.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts which wrap a single mutual fund as the underlying investment: The fair value of the mutual fund is a publicly quoted pricing input (level 1) and is used in determining the net asset value of the pooled separate account, which is not publicly quoted. Assigned input level 2.

Guaranteed interest accounts: Fair value is the amount that the plan participants or plan sponsor would receive currently if they were to withdraw or transfer funds with the Plan prior to their maturity. Assigned input level 3.

5. Fair Value Measurements (Continued)

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

In the event of Plan termination, participants would become 100% vested in their employer contributions.

). Tax Status

The Plan obtained its latest determination letter on May 26, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

AMERICAN INCORPORATED 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements. These reclassifications had no effect on reported net increase in assets available for benefits.

3. Reconciliation of Financial Statements to Schedule H for Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Schedule H of Form 5500:

AMERICAN INCORPORATED 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Summary of Plan Description

The following description of the American Incorporated 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering employees of the Company who have six months of service and are age eighteen or older. However, with respect to contributions made pursuant to the Davis-Bacon Act, any eligible employee shall be eligible to participate who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to a maximum percentage allowed, of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has an option to match participant contributions. If the Company elects to do so, the matching contributions are invested at the same ratio as the participants select. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are also invested at the same ratio as the participants select. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) Company's contribution, (b) Plan earnings, (c) forfeitures, and charged with an allocation of administration expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings, basic matching contributions thereon and contributions made pursuant to the Davis-Bacon Act. Vesting in the Company's profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after one year of credited service.

Notes Receivable from Participants
Participants may borrow from their fund accounts up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest payments are made through either payroll deductions or payments directly to the Plan administrator and made not less frequently than quarterly over a period not to exceed five years.

Summary of Plan Description (Continued)

Forfeited Accounts
At December 31, 2014 and 2013 there were no forfeited nonvested accounts. Forfeitures may be used to pay contributions due to the erroneous omission of an eligible employee or used to pay any administrative expenses of the Plan.

Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of assets available for benefits of a defined-benefit contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value except for its investments contract with an insurance company, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Summary of Significant Accounting Policies (Continued)

Operating Expenses
The majority of the expenses of maintaining the plan are paid by the company.

Notes Receivable from Participants
Notes receivable from participants are measured at their un paid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Income Taxes
The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Based on the normal statutes, tax years ending December 31, 2011 and thereafter are open for audit for federal income tax purposes.

Management's Review
In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 12, 2015 and the date the financial statements were available to be issued.

Information Prepared and Certified By Trustees

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustees, Prudential Bank and Trust and Prudential Retirement Insurance and Annuity Company as of December 31:

3. Information Prepared and Certified By Trustees (Continued)

Oppenheimer Global Fund	391,223	372,224
Victory Dividend Cl A	372,000	344,432

4. Group Annuity Contract

In 2002, the Plan entered into a group annuity contract with Connecticut General Life Insurance Company (CIGNA). On April 1, 2004, Prudential Insurance Company purchased the CIGNA Retirement and Investment Division. No new contracts were issued, rather, Certificates of Assumption were issued indicative of the fact that Prudential Retirement Insurance and Annuity Company (PRIAC) has assumed liability of their plan assets.

PRIAC has established relationships (or alliances) with other investment companies, such as American Century, Fidelity Investments and INVESCO. Funds offered through this arrangement are considered PRIAC Pooled Separate Accounts. These accounts are credited with actual earnings on the underlying investments and charged for plan expenses and withdrawals.

With the exception of the Guaranteed Income Fund, all funds are presented at the value of the underlying investments held within each fund net of PRIAC's annual management fee, asset charge, any taxes or charges. The Guaranteed Income Fund is presented at contract value.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the ERISA Act of 1974, the auditors have not applied auditing procedures to the accounting transactions and information with respect to the aforementioned group annuity contract.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts which wrap a single mutual fund as the underlying investment: The fair value of the mutual fund is a publicly quoted pricing input (level 1) and is used in determining the net asset value of the pooled separate account, which is not publicly quoted. Assigned input level 2.

Guaranteed interest accounts: Fair value is the amount that the plan participants or plan sponsor would receive currently if they were to withdraw or transfer funds with the Plan prior to their maturity. Assigned input level 3.

5. Fair Value Measurements (Continued)

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

In the event of Plan termination, participants would become 100% vested in their employer contributions.

). Tax Status

The Plan obtained its latest determination letter on May 26, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

AMERICAN INCORPORATED 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements. These reclassifications had no effect on reported net increase in assets available for benefits.

3. Reconciliation of Financial Statements to Schedule H for Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Schedule H of Form 5500:

AMERICAN INCORPORATED 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Summary of Plan Description

The following description of the American Incorporated 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering employees of the Company who have six months of service and are age eighteen or older. However, with respect to contributions made pursuant to the Davis-Bacon Act, any eligible employee shall be eligible to participate who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to a maximum percentage allowed, of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company has an option to match participant contributions. If the Company elects to do so, the matching contributions are invested at the same ratio as the participants select. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are also invested at the same ratio as the participants select. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) Company's contribution, (b) Plan earnings, (c) forfeitures, and charged with an allocation of administration expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting
Participants are immediately vested in their contributions plus actual earnings, basic matching contributions thereon and contributions made pursuant to the Davis-Bacon Act. Vesting in the Company's profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after one year of credited service.

Notes Receivable from Participants
Participants may borrow from their fund accounts up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest payments are made through either payroll deductions or payments directly to the Plan administrator and made not less frequently than quarterly over a period not to exceed five years.

Summary of Plan Description (Continued)

Forfeited Accounts
At December 31, 2014 and 2013 there were no forfeited nonvested accounts. Forfeitures may be used to pay contributions due to the erroneous omission of an eligible employee or used to pay any administrative expenses of the Plan.

Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of assets available for benefits of a defined-benefit contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits
Benefits are recorded when paid.

Use of Estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value except for its investments contract with an insurance company, which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Summary of Significant Accounting Policies (Continued)

Operating Expenses
The majority of the expenses of maintaining the plan are paid by the company.

Notes Receivable from Participants
Notes receivable from participants are measured at their un paid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Income Taxes
The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Based on the normal statutes, tax years ending December 31, 2011 and thereafter are open for audit for federal income tax purposes.

Management's Review
In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 12, 2015 and the date the financial statements were available to be issued.

Information Prepared and Certified By Trustees

4. Group Annuity Contract

In 2002, the Plan entered into a group annuity contract with Connecticut General Life Insurance Company (CIGNA). On April 1, 2004, Prudential Insurance Company purchased the CIGNA Retirement and Investment Division. No new contracts were issued, rather, Certificates of Assumption were issued indicative of the fact that Prudential Retirement Insurance and Annuity Company (PRIAC) has assumed liability of their plan assets.

PRIAC has established relationships (or alliances) with other investment companies, such as American Century, Fidelity Investments and INVESCO. Funds offered through this arrangement are considered PRIAC Pooled Separate Accounts. These accounts are credited with actual earnings on the underlying investments and charged for plan expenses and withdrawals.

With the exception of the Guaranteed Income Fund, all funds are presented at the value of the underlying investments held within each fund net of PRIAC's annual management fee, asset charge, any taxes or charges. The Guaranteed Income Fund is presented at contract value.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the ERISA Act of 1974, the auditors have not applied auditing procedures to the accounting transactions and information with respect to the aforementioned group annuity contract.

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts which wrap a single mutual fund as the underlying investment: The fair value of the mutual fund is a publicly quoted pricing input (level 1) and is used in determining the net asset value of the pooled separate account, which is not publicly quoted. Assigned input level 2.

Guaranteed interest accounts: Fair value is the amount that the plan participants or plan sponsor would receive currently if they were to withdraw or transfer funds with the Plan prior to their maturity. Assigned input level 3.

5. Fair Value Measurements (Continued)

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

). Tax Status

The Plan obtained its latest determination letter on May 26, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

AMERICAN INCORPORATED 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

2. Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements. These reclassifications had no effect on reported net increase in assets available for benefits.

3. Reconciliation of Financial Statements to Schedule H for Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Schedule H of Form 5500:
