SOFTWARE MANAGEMENT CONSULTANTS, INCORPORATED RETIREMENT TRUST

NOTES TO FINANCIAL STATEMENTS December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Software Management Consultants, Incorporated Retirement Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan, established on July 31, 1987, covering substantially all employees of Software Management Consultants, Inc. (the Sponsor). Eligible employees are those employed by the Sponsor during a three consecutive month period and who have reached the age of 18. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan also allows for catch-up contributions for participants over 50 years of age. The Plan does not provide for any employer matching contributions or non-elective contributions.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Sponsor had no excess contributions from the year ended December 31, 2014.

Participant Accounts

Each participant's account is credited with his or her contributions and Plan earnings thereon. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from his or her vested account. Participants may invest their accounts in any increments among the funds and may change their investment options daily.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

SOFTWARE MANAGEMENT CONSULTANTS, INCORPORATED RETIREMENT TRUST

NOTES TO FINANCIAL STATEMENTS December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN (continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$500 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's accounts and bear interest at the prime rate, as published in the Wall Street Journal on the 14th day of each month, plus 1%. The interest rate on the notes outstanding as of December 31, 2014 is 4.25%. Principal and interest are paid ratably through recurring payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, participants or beneficiaries may elect to receive either a lump-sum amount equal to the value of the vested interest in their accounts, annual installments over a period of not more than their, or their beneficiaries, assumed life expectancy, or partial withdrawals. For termination of service due to other reasons, participants may receive the value of the vested interest in their accounts as a lump-sum distribution.

Hardship Withdrawals

Distributions are available if immediate and heavy financial need is determined to exist based upon reasons deemed acceptable under the IRC. These withdrawals are included with benefits paid and are restricted to a maximum of \$50,000 or 50% of their vested account balance, whichever is less.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the plan are prepared under the accrual method of accounting using accounting principles generally accepted in the United States of America (US GAAP). As required by financial accounting standards, investments held by the Plan are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

See independent auditor's report.

**SOFTWARE MANAGEMENT CONSULTANTS, INCORPORATED
RETIREMENT TRUST**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013**

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan's investment committee determines the plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 8 for a description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year. Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

Certain expenses of the plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in the fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through September 2, 2015, the date the financial statements were available to be issued.

NOTE 3 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the plan to terminate the plan subject to the provisions of ERISA. In the event of plan termination all accounts will be distributed to participants.

**SOFTWARE MANAGEMENT CONSULTANTS, INCORPORATED
RETIREMENT TRUST**

**NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013**

NOTE 4 - TAX STATUS

The plan adopted a volume submitter plan under IRC Section 401(a). The plan administrator received a letter from the Internal Revenue Service (IRS) dated March 31, 2008 that indicated the volume submitter plan used by the Sponsor qualifies as a 401(k) plan under IRC Section 401(a) and is exempt from federal income tax under IRC Section 501(a). No individual determination letter has been received, and the Plan has since been amended. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed, including plan amendments, and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The statute of limitations for federal purposes is generally three years.

NOTE 8 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 8 - FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued using the market approach at quoted market prices in an exchange and active market.

Common/Collective Trusts: Valued using the market approach by utilizing market prices from exchanges or other relevant information generated by market transactions involving identical or comparable assets or liabilities. Quoted market prices are used to value investments in the collective trust, when available

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014

2014				
	<u>Fair Value</u>	<u>(Level 1)</u>	<u>(Level 2)</u>	<u>(Level 3)</u>

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
