Advanced Solutions International, Inc.
401(k) Retirement Plan

Summary of Significant Accounting Policies

Description of Plan

The following brief description of the Advanced Solutions International, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan available to qualifying employees of Advanced Solutions International, Inc. (the "Company"). Employees who have attained the age of 21 are eligible to participate in the Plan and are eligible to commence salary reductions the first day of the month coinciding with the date the eligibility requirements are satisfied. Each participant who is subject to the automatic deferral provisions will have compensation deferred by 3% for each payroll period, unless otherwise elected by the participant. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Investments and Investment Options

The Company selects and makes available as investment options various mutual funds. The contributions related to these accounts are invested in accordance with directives from the individual participants in shares in registered investment companies available through the administrator as approved by the trustee. These investments are reported at the quoted market price for such funds on the last business day of the year.

The Plan provides for investments in numerous mutual funds, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain mutual funds, it is reasonably possible that changes in the values of mutual funds will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Contributions

Participants may contribute a percentage of their annual compensation, up to the maximum allowable under the Internal Revenue Code, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make a discretionary employer matching contribution to each participant's account equal to a uniform percentage of the participant's salary deferrals, as determined each year by the Company. Participants not employed at the end of the plan year will not share in the allocation, regardless of service. Total employer matching contributions were $97,228 and $97,901 for the years ended December 31, 2013 and 2012, respectively.

The Plan also allows for an additional discretionary profit-sharing contribution as determined by the Company. Participants must be employed on the last day of the Plan year, or be termed and have had worked more than 500 hours in order to be eligible to receive a profit-sharing contribution (unless employment was terminated due to death, normal or early retirement or total and permanent disability in which the employee is automatically eligible). The Company did not declare any profit-sharing contributions during the years ended December 31, 2013 and 2012.

Participant Accounts
Each participant's account is credited with the participant's contributions and allocation of the Company's contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan. Currently, the Plan offers thirty one mutual funds and one money market fund as investment options for participants.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions portion of their accounts is based on continuous years of service. Participants vest 20% each year and are fully vested after five years.

Notes Receivable from Plan Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local borrowing rates. Current interest rates range from 4.25% to 9.25%. Loan repayments are made ratably through payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence in which case the loan terms may exceed five years.

Advanced Solutions International, Inc.
401(k) Retirement Plan

Summary of Significant Accounting Policies

Payment of Benefits
Upon separation of service, due to death, disability, or retirement, a participant will receive their benefits as a lump-sum amount equal to the value of the participant's vested interest. Participants can request a distribution from the Plan of their vested interest in the Plan before termination if they satisfy financial hardship criteria. Participants will receive their benefits as a lump-sum amount equal to the value of the participant's vested interest.

Forfeitures
Forfeitures are first used to restore returning participants' (within one year after separation) employer account balance in accordance with the terms of the Plan. Remaining forfeitures are used to pay administrative expenses and to reduce future employer contributions. As of December 31, 2013 and 2012, net forfeitures totaled $50,888 and $45,901, respectively, which are included in investments in the Statements of Net Assets Available for Benefits. For the years ended December 31, 2013 and 2012, no forfeitures were used to offset employer contributions.

Administrative Expenses
Generally, the Company pays the expenses associated with the administration of the Plan, except for certain investment management fees, and loan fees which are deducted directly from the participant's account. For the years ended December 31, 2013 and 2012, no forfeitures were used to pay administrative expenses of the plan.

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Management Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

5. Fair Value Measurements

The Plan follows the provisions of Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC 820") *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market fund and Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013	**Level 1**	**Level 2**	**Level 3**	**Total**

6. Tax Status

The Internal Revenue Service ruled on December 21, 2001 that the Prototype Standardized Profit Sharing Plan with CODA of Boston Financial Data Services (the prototype plan of Trust Company upon which the Plan is based) qualifies under section 401(a) of the Internal Revenue Code ("IRC") and the related trust is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Subsequent Events

Plan management has evaluated subsequent events occurring after December 31, 2013, the date of the most recent statement of net assets available for benefits date, through October 10, 2014, the date the financial statements were issued. The Plan does not believe any subsequent events have occurred that would require further disclosure or adjustment to the financial statements.
