Participants should refer to the plan agreement or summary plan description for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan available to eligible employees of the Company. To be eligible to participate in the Plan, an employee must have attained the age of 21 and completed one year of service with more than 1,000 hours. Employees may begin participation as of January 1, April 1, July 1 or October 1 of the year in which they meet the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Participants may also contribute amounts representing distributions from other qualified plans. For 2014 and 2013, the Company matched 50% of the first 6% of base compensation that each participant contributed to the Plan. The Company may also make a discretionary profit sharing contribution to be determined annually by the Board of Directors. The profit sharing contribution is allocated to participants based upon the percentage of their compensation to total compensation for all eligible participants. Participants must complete 1,000 hours of service and be employed on the last day of the plan year in order to receive Company contributions. There was no discretionary profit sharing contribution in 2014 or 2013.

Loans can be requested from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Terms are up to five years and only one note may be outstanding at a time. The notes are secured by the vested account balance in the participant’s account and bear interest at the prime rate plus 1% at the date of the application. Principal and interest are paid through payroll deductions.

Administrative Expenses – The Company absorbs certain expenses incidental to the administration of the Plan, including internal administrative costs. Distribution and loan fees are paid from participant accounts. Other fees, including trustee, recordkeeping and asset fees, are paid by the Plan.
- 2. Summary of Significant Accounting Policies**

Basis of Accounting – The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – Investments are primarily stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust fund. Therefore, the statements of net assets available for benefits presents the fair value of the investment in the common collective trust fund, as well as the adjustment from fair value to contract value for these investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (Concluded)

Recent Accounting Pronouncement – In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (“ASU 2015-12”). ASU 2015-12 is intended to reduce complexity in employee benefit plan accounting and financial statement disclosures and is effective for reporting periods beginning after December 15, 2015 though early adoption is allowed. The adoption of ASU 2015-12 is not expected to have a material impact on the Plan’s statements of net assets available for benefits or statements of changes in net assets available for benefits, though certain investment-related disclosures will be eliminated or reduced as provided for in the guidance.

Subsequent Events – Management has evaluated events occurring subsequent to the date of the statements of net assets available for benefits through August 14, 2015, the date the financial statements were available to be issued, and has determined that no events have occurred that require adjustments to or additional disclosure in the financial statements.

3. Investments (Concluded)

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

<i>Year ended December 31,</i>	2014	2013
Mutual funds	\$ 97,833	\$ 467,285

4. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

<i>December 31,</i>	2014	2013
Investments	\$ 3,272,192	\$ 3,363,549
Notes receivable from participants	23,544	8,597

<i>Year ended December 31,</i>	2014	2013
Interest and dividends	\$ 130,310	\$ 108,875
Net appreciation in value of investments	97,833	467,285
Interest income on notes receivable from participants	741	561

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

See accompanying independent auditor's report.

Notes to Financial Statements

- 6. Income Tax Status** The Plan has adopted a non-standardized plan document sponsored by BB&T. The IRS has determined and informed BB&T by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC and is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits relative to the Plan for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

- 7. Plan Termination** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and nonforfeitable.

See accompanying independent auditor's report.

Notes to Financial Statements

- 8. Party-In-Interest Transactions** Administrative fees paid by the Plan to BB&T for trustee and recordkeeping services amounted to \$24,581 and \$22,704 for 2014 and 2013. BB&T is the trustee and recordkeeper of the Plan. As such, these transactions qualify as party-in-interest.

Administrative fees paid to ProNvest for investment advisory services were \$6,707 in 2014.

- 9. Fair Value Measurements** The Plan has adopted Accounting Standards Codification 820, “Fair Value Measurements and Disclosures” (“ASC 820”) which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under ASC 820 are as follows:

Basis of Fair Value Measurements

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

See accompanying independent auditor’s report.

9. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the Plan at year-end. The NAV for these investments is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Common collective trust funds: Valued at NAV as determined by the issuer using the estimated fair value of the underlying assets, minus liabilities, which are valued primarily through the use of directly and indirectly observable inputs. These investments are classified within Level 2 of the valuation hierarchy. The Reliance Trust Company Stable Value Fund is fully invested in the MetLife Group Annuity Contract 25053, which consists of separately managed investment portfolios directed by Reliance Trust Company. The primary investment objective of this fund is to provide safety and preservation of principal and accumulated interest for participant-directed transactions. The interest credited to balances in the fund will reflect both current market conditions and performance of the underlying investments in the fund. There are no reserves for credit risk of the issuer. Certain events could limit the ability of the Plan to transact at contract value with the issuer. However, the plan administrator does not believe the occurrence of such events is probable.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See accompanying independent auditor’s report.
