Aquion, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of the Aquion, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan became effective May 1, 2006, and is a defined contribution plan covering eligible employees of Aquion, Inc. and its subsidiary, Clearwater Technology (collectively, the Company), who are age 21 or older and have completed one year of service as defined by the Plan. Effective December 4, 2013, the Company was acquired by Mason Wells. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as subsequently amended.

Contributions

The Plan provides for employee salary 401(k) contributions from 1% to 80% of the employee's pre-tax compensation. Eligible compensation for any plan year shall not exceed the maximum provided by the Internal Revenue Code. Contributions can be made on a pre-tax basis only and cannot exceed \$17,500 in 2014 and 2013. Age 50 and over participants can contribute an additional \$5,500 in 2014 and 2013. A participant's account may include after-tax contributions made to another plan and transferred to the Plan as part of a rollover contribution.

The employer can contribute a discretionary match in the amount of 25% of the first 6% of an employee's contributions or a profit sharing contribution, determined annually. The employer made a 401(k) discretionary contribution in the amount of \$46,106 and \$44,082 for 2014 and 2013, respectively. Effective January 1, 2015, the employer discretionary match will be 50% of the first 6% of an employee's contributions.

Investment Options

Participants must direct their salary deferral contributions and the employer's contributions into a variety of investment funds. Participants may change their investment options at any time.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, Company discretionary contributions and related plan earnings, and charged with withdrawals and an allocation of the Plan losses and certain administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Aquion, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Vesting

Participants' contributions, the employer discretionary match contribution, the employer discretionary profit sharing contributions and related earnings are fully vested at all times and are not subject to forfeiture for any reason.

Payment of Benefits

Upon termination of employment or attainment of normal retirement age, the participant, or in the case of death, the surviving spouse, can elect to receive the participant's account balance in a single lump sum or in various installment annuities. Account balances less than \$1,000 are paid in a single lump sum upon termination. Additionally, participants may elect to withdraw all or a portion of his/her elective or employer contribution accounts in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Participants Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 7.50% which are commensurate with local prevailing rates as determined periodically by the plan administrator. The loan period cannot exceed five years, unless the proceeds of the loan are used to purchase a primary residence for which the loan period shall be determined at the time the loan is made. Principal and interest is paid ratably through payroll deductions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract basis. The fair value of the Plan's interest in the fund is based on information reported by the issuer of the collective trust at year end. The contract value of the fund represents contributions plus earnings, less participant withdrawals and administrative expenses. The average yield of the underlying investment contracts was 1.37% and 1.16% in 2014 and 2013, respectively. The average yield credited to participants in 2014 and 2013 was 1.65% and 1.27%, respectively.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. See Note 5 for fair value measurements of the Plan's investments.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain administrative expenses are paid by the Company on behalf of the Plan. Administrative expenses paid by the Plan totaled \$2,085 and \$3,420 for the years ended December 31, 2014 and 2013, respectively. Additionally, certain employees of the Company provide administrative services to the Plan and are not reimbursed by the Plan for such services. Certain investment management fees are presented in the net appreciation in fair value of investments.

Note 4: Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*. Accordingly, Ascensus, as agent for Ascensus Trust Company (formerly Frontier Trust Company), the trustee of the Plan, has certified to the completeness and accuracy of all investments, at fair value, with the exception of the Stable Value Retirement Fund, which was certified at contract value of \$1,044,666 and \$878,500 at December 31, 2014 and 2013, respectively, and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, and the supplemental schedule of assets (held at end of year) as of December 31, 2014, and the components of investment income, and interest income from participant notes receivable reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Fair Value of Plan Assets and Liabilities

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires the plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Aquion, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The interest-bearing cash account is carried at amortized cost, which approximates fair value (Level 1 inputs).

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The net asset value of the common or collective trust (Stable Value Retirement Fund) is based on the market value of its underlying investments. The trust contains synthetic guaranteed investment contracts (synthetic GICs). Synthetic GICs are portfolios of securities owned by the trust. Investments in units of affiliated and unaffiliated collective trusts are valued at the respective net asset values as reported by such trusts, are typically categorized as Level 1 in the fair value hierarchy. Investment contracts have elements of risk due to lack of a secondary market and resale restrictions resulting in the inability of the trust to sell a contract. In addition, investment contracts may be subject to credit risk based on the ability of the providers to meet their obligations under the terms of the contract. Thus, this is determined to be categorized as Level 2 pricing inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) The net unit values of the tiers of the Stable Value Retirement Fund are determined as of the close of each business day. In accordance with the terms of the Stable Value Retirement Fund agreement, participant units are issued and redeemed only at the end of each day and at the net unit value at contract value, provided that redeeming participant plans comply with a required one-year notice provision. When the market value of units is less than their contract value, participant plans may also elect to withdraw units at their market value upon ten days' notice.

Note 6: Income Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype 401(k)/profit sharing plan and trust sponsored by Ascensus, Inc. The prototype plan document has been filed with the appropriate agency and the Plan had obtained an opinion letter, dated March 31, 2008, from the Internal Revenue Service (IRS) stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code (IRC) and that the related trust was tax exempt as of the financial statement date. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 7: Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8: Party-In-Interest Transactions

Plan investments are managed by Ascensus Trust Company (formerly Frontier Trust Company). Ascensus Trust Company is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Expenses paid during 2014 and 2013 for legal, accounting and other professional services were rendered by parties-in-interest.

Note 9: Subsequent Events

Plan management has evaluated subsequent events through the date of the independent auditor's report, which is the date the financial statements were available to be issued.
