COSTA DEL MAR, INC. 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(1) Description of Plan:

The following description of the Costa del Mar, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

(a) **General**—The Plan is a defined contribution plan covering all eligible employees of Costa del Mar, Inc. (the Company). Employees become eligible once they have attained the age of 21 and completed three months of service and may enter the Plan at the earlier of January 1st or beginning of the next fiscal quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) **Contributions**—Each year, participants may contribute up to 100 percent of eligible pre-tax annual compensation, as defined by the Plan. Additional “catch-up” contributions can be made to the Plan if the participant is at least age 50 by the end of the plan year up to the amount allowed by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 50 percent of the first 8 percent of eligible compensation that the participant contributes to the Plan. The Company, at its discretion, may make additional profit sharing contributions. No such contributions were made during 2014. Participants direct the investment of their contributions, as well as Company contributions to their participant account, into various investment options offered by the Plan. Contributions are subject to certain limitations allowed by law.

(c) **Participant accounts**—Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. Participants may change their investment options on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) **Vesting**—Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest based on the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 1 year	0%
After 1 year but less than 2	25%
After 2 years but less than 3	50%
After 3 years but less than 4	75%
After 4 years	100%

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(1) **Description of Plan:** (Continued)

(e) **Notes receivable from participants**—Participants may borrow from their fund a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate charged by persons in the business of lending money for loans that would be made under similar circumstances (current rates on loans range from 4.25 – 6.00%). Principal and interest is paid ratably at least as frequently as quarterly over a reasonable amount of time not to exceed five years (thirty years for personal residence).

(f) **Payment of benefits**—Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Absent the participant's election to roll distributions into another qualified plan or receive a lump sum payment, vested balances that are \$1,000 or less for terminated participants are rolled over to an individual retirement plan designated by the Plan Administrator. The participant's contributions and vested portion of employer contributions may also be withdrawn for certain hardship situations.

(g) **Administrative plan expenses and participant fees**—The Plan permits payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of account balances or as an equal dollar amount based on the number of participants in the Plan. However, certain operating expense of the Plan, such as audit fees, are paid by the Company. Plan administration and investment management fees reduce participant's account balances. Expenses relating to specific participant transactions (i.e. loan setup, distribution request, etc.) are charged directly against the appropriate participant's account.

(h) **Forfeited accounts**— These accounts may be used to reduce future employer contributions or pay plan expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$3,809 and \$11,843, respectively. In 2014, \$2,675 was allocated directly to current participants as a reduction of the employer contribution.

(2) **Summary of Significant Accounting Policies:**

(a) **Basis of presentation**—The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts. There is no adjustment from fair value to contract value as fair value approximates contract value at December 31, 2014 and 2013, and therefore, net assets available for benefits is measured at fair value.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(2) **Summary of Significant Accounting Policies:** (Continued)

(b) **Investment valuation and income recognition**—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Interest and dividend income is recognized when paid, primarily monthly. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) **Notes receivable from participants**—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

(d) **Payment of benefits**—Benefits are recorded when paid.

(e) **Use of estimates**—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(f) **Subsequent events**—The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through August 20, 2015, the date the financial statements were available to be issued.

(g) **Recently issued accounting pronouncements**—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." The ASU is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted.

(3) **Summary of Information Certified by Plan Trustee:**

All investment information disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2014 and 2013, and the net appreciation (depreciation) in fair value of investments and interest and dividend income for the year ended December 31, 2014, was obtained or derived from information supplied by the Plan administrator and certified as complete and accurate by The Guardian Insurance & Annuity Company, the custodian of the Plan except for participant loans which are excluded from the certification.

(4) **Investments and Fair Value Measurements:**

The fair value measurement accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

COSTA DEL MAR, INC. 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(4) **Investments and Fair Value Measurements:** (Continued)

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted market prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts (PSA) and Money Market Funds – The plan owns group variable and fixed annuity contracts that maintains the interest of participants in units. Such contracts are non-registered separate accounts that in turn, invest in mutual funds. The net asset value therefore represents the value of the mutual fund at the daily closing price as reported by the fund. Mutual funds held by the separate accounts are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price, and as such, are typically Level 1 assets. The mutual funds held by the separate accounts are deemed to be actively traded. Certain PSA's invest in index funds where the net asset value is determined based on the underlying investments held in the index funds, and as such, are typically Level 2 assets.

Fixed Rate Option –Valued at fair value based on the contract value and adjusted for the difference between the applicable interest rates for contracts of the same class versus the applicable interest rate in the contract with the Plan.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(5) Investment Contracts With Insurance Companies:

The Plan's investments in the Fixed Rate Option are fully benefit-responsive contracts with The Guardian Insurance & Annuity Company, Inc. (Guardian). Guardian maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Guardian represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield earned by the Fixed Account during the year ended December 31 was as follows:

	<u>2014</u>	<u>2013</u>
Average yields:		
Based on actual earnings	2.71 %	2.48 %
Based on interest rate credited to participants	3.00 %	3.00 %

COSTA DEL MAR, INC. 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

(6) Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to permanently discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(7) Tax Status:

The Plan adopted a DATAIR mass-submitter document effective January 1, 2006. The Internal Revenue Service has determined and informed DATAIR Employee Benefit Systems, Inc. by a letter dated March 31, 2008, that the mass-submitter document represented a Plan and related trust that were designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by tax authorities, and may change upon examination.

(8) Parties-in-Interest:

During the year, the Plan incurred approximately \$17,000 of commissions to a service provider which are included in the net appreciation in fair value of investments. The Guardian Insurance & Annuity Company, Inc. is the custodian of the plan assets and derives fees based on the asset values which are included in the net appreciation in fair value of investments. Creative Retirement Systems, Inc. provides third party administrative services to the Plan. Third party administrative fees are included in administrative expenses.

(9) Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
