A Description of Plan.

The following description of the Concrete Express, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1 General. The Plan is a defined contribution plan covering all employees of Concrete Express, Inc. (the "Company") who have completed three months of service, are age twenty-one or older, and are not covered by a collective bargaining agreement. In order to be eligible to receive the Company's discretionary annual profit sharing contribution, an employee must have worked at least 1,000 hours and be employed on the last day of the Plan year. The Plan covers employees rendering services for the employer on contracts subject to the Davis-Bacon Act, Service Contract Act, or other Federal, State, or Municipal prevailing wage laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the Plan administrator and is responsible for oversight of the Plan, and Standard Insurance Company serves as the custodian and record keeper. Plan management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

2 Contributions. Each year, participants may contribute up to the amount allowed by law of annual compensation, as defined in the Plan, on a pretax basis. Unless the participant elects otherwise, a 2% deferral will apply. Deferral contributions shall not exceed certain limits set forth by the Internal Revenue Code ("IRC") ($17,500 in 2014). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions (up to $5,500 in 2014). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may, at its discretion, make a contribution in an amount to be determined each Plan year, and allocated according to the Plan. The Company's contributions to the Plan for employees, subject to prevailing wage laws, are determined by the employer based on rates that satisfy the wage determination issued by the governmental agency responsible for the contract. Contributions are subject to certain limitations. For the year ended December 31, 2014, the Company made matching contributions equal to 20% of the participant's deferral election.

3 Participant Accounts. Each participant's account is credited with the participant's contributions, and allocations of (a) the Company's contributions, (b) Plan earnings, (c) participants' rollovers, and (d) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A year of service is credited for which 1,000 hours or more are worked in a Plan year. A participant is 100 percent vested after six years of credited service. Participants are immediately vested in contributions subject to prevailing wage laws.

5 **Investment Options.** Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a fully benefit-responsive investment contract as investment options for participants. Participants may change their investment options at any time.

6 **Notes Receivable from Participants.** Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate comparable to the rates being charged by lending institutions in the same geographic locale as the Company. A loan will carry the same rate of interest throughout its term. Principal and interest is paid ratably through weekly or bi-weekly payroll deductions.

7 **Payment of Benefits.** Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as required by minimum distribution rules. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

8 **Hardship Withdrawals.** Hardship withdrawals are available if the participant meets certain criteria.

9 **Forfeited Accounts.** At December 31, 2014 and 2013, the balance of the forfeited accounts totaled $116 and $-0-, respectively. These accounts may be used to pay administrative expenses or to reduce future employer contributions. During the year ended December 31, 2014, the Company used forfeitures to offset Plan expenses in the amount of $506.

B Summary of Accounting Policies.

1 Basis of Accounting. The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for the fully benefit-responsive investment contract.

2 Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3 Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and the custodian. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

4 Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit (losses) has been recorded as of December 31, 2014 and 2013. Delinquent loans may be reclassified as benefits paid to participants based upon the terms of the Plan documents.

5 Excess Contributions Payable. Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

6 Payment of Benefits. Benefits are recorded when paid.

7 Operating Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

8 Subsequent Events. The Plan has evaluated subsequent events through August 18, 2015, the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure.

C Investments and Information Prepared and Certified by Custodian (Unaudited).

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments (other than the fair value of the common/collective trust and related adjustment from fair value to contract value for fully benefit-responsive investment contract), as shown in the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, and investment information included in the notes to the financial statements.
- Dividends, interest, and net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.
- The schedule of assets held at year-end included as supplemental information.

This information has not been audited by the Plan's independent auditors.

The table below presents the Plan's investments (at contract value) at December 31, 2014 and 2013. Investments that represent 5% or more of net assets available for benefits are separately identified.

	2014	2013

(a) Less than 5% of net assets available for benefits included in "Others".

During the year ended December 31, 2014, appreciation of the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) was attributable to pooled separate accounts.

D Fair Value Measurements.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements.

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts: Shares of pooled separate accounts are valued at the unit value, determined at the close of business each day, and is based on the market value of the total assets in the pooled separate account. The market value of the total assets in the pooled separate account is based on the quoted market price or net asset value (NAV) of the underlying investments.

Common/Collective Trusts: Fair values of the trusts are the net asset values of the underlying investments, and contract value is principal plus accrued interest. Investments in common/collective trusts that invest in guaranteed investment contracts ("GICs") are stated at fair value and then adjusted to contract value.

Stable Value Fund: The stable value fund is a common/collective trust for which the fair value of the participation units is based upon the net asset values as reported in the audited financial statements of the fund. The net unit values of the fund are determined as of the close of each business day.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled Separate Accounts:

Assets at Fair Value as of December 31, 2013

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total Investments at Fair Value	$ 2,318,620	$ -	$ 1,870,721	$ 447,899

The following sets forth a summary of the changes in the Plan's Level 3 investments for the year ended December 31, 2014:

Balance, Beginning of Year	$ 447,899
Interest	7,203
Purchases	70,842
Sales	(49,783)
Transfers, Net	(21,983)
Balance, End of Year	$ 454,178

E Stable Value Fund.

The Stable Value Fund II ("Fund") is a fully benefit-responsive common/collective trust fund that invests primarily in high-quality GICs and similar contracts issued by insurance companies, banks, and other financial institutions to provide capital preservation and current income when consistent with capital preservation. The Fund is credited with interest in accordance with the interest crediting rate established and periodically adjusted by the issuer. The Fund is charged for participant withdrawals and administrative expenses. The Fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The Fund is presented in the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. For the years ended December 31, 2014 and 2013, contract value approximates fair value. Therefore, the adjustment from fair value to contract value for the fully benefit-responsive investment contract is zero for both years. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013, was $454,178 and $447,899, respectively. At December 31, 2014 and 2013, fair value of the Fund approximated contract value. The crediting interest rate is based on a formula agreed upon with the issuer. Such rates are reviewed on a quarterly basis for resetting.

The average yields for the fund are as follows:

	2014	2013
Average Yields:		
Based on Actual Earnings	1.60%	1.51%
Based on Interest Credited to Participants	1.52%	1.51%

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event is probable.

F Related Party Transactions and Party-In-Interest Transactions.

Standard Insurance Company is the custodian and serves as the record keeper, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan made a direct payment of $10,456 to the investment advisor (or third party administrator), which was not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

G Plan Termination.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

H Tax Status.

The Plan utilizes a prototype plan, which obtained a favorable determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

I Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
