NOTE A – DESCRIPTION OF THE PLAN

The following description of Better Business Forms, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Better Business Forms, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all employees who have one year of service and are age twenty-one or older.

Contributions

Employee basic salary deferral contributions are limited to the maximum contribution permitted by the Internal Revenue Code, which was $17,500 for the years ended December 31, 2014 and 2013. In addition, participants may contribute rollover contributions from other qualified retirement plans. Discretionary matching contributions may be made by the Company. The exact amount is determined each year by the Company. Additional amounts may be contributed at the option of the Company. Company contributions are subject to certain limitations. The Company's contribution due to the Plan at December 31, 2014 and 2013 were $41,831 and $43,604, respectively.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments, as elected by the participant. If the participant does not make an election prior to the designated time period, payment of any benefits provided shall be made in the form of a single sum payment to the participant. For termination of service due to other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, according to provisions of the plan document. In addition, hardship withdrawals are permitted if certain criteria are met.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of credited service.

NOTE A – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and allocations of plan earnings and charged with allocations of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

A participant can choose to allocate any portion or all of their account balance between the investment options.

Participants Loans

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. Loan transactions are treated as a transfer between the investment fund and the loan fund. The loans are secured by the balance in the participant's account and bear interest at 4.25%. This rate is felt to be commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited amounts totaled $566 and $398, respectively. Forfeitures are available to reduce future employer contributions or to pay administrative expenses of the Plan.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair market value, net appreciation as reflected in the statements of changes in net assets available for benefits represents realized and unrealized gains (losses) for investments bought, sold and held during the year.

As required by the Financial Accounting Standards Board (FASB), investment contracts are required to be reported at fair value. Additionally, fully benefit-responsive investment contracts are to be reported at fair value with a corresponding adjustment to reflect these investments at contract value. The Plan invests in a fully benefit-responsive investment contract through collective trust funds, the Federated Capital Preservation Fund. The statements of net assets available for benefits present the fair value with a corresponding adjustment to reflect contract value.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE C – NOTES RECEIVABLE

Participant loans are valued at the amortized cost of the loans which is felt to approximate fair value. Interest income is recorded when received. The Plan currently does not have an allowance for doubtful accounts as all amounts are considered collectible. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the plan document.

NOTE D – FAIR VALUE MEASUREMENTS

The Plan defines fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date and utilizes a three-level hierarchy under which individual fair value estimates are ranked based on the relative reliability of the inputs used in the valuation. Fair values determined using level 1 inputs rely on active and observable markets to price identical assets or liabilities. In situations where identical assets and liabilities are not traded in active markets, fair values may be determined based on level 2 inputs, which exist when observable data exists for similar assets and liabilities. Fair values for assets and liabilities that are not actively traded in observable markets are based on level 3 inputs, which are considered to be unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize use of observable inputs and minimize the use of unobservable inputs.

The following table provides fair value information of the Plan as of December 31, 2014 and 2013:

	Fair Value	(Level 1)	(Level 2)
2014			
Mutual Funds	$ 5,182,348	$ 5,182,348	$ -
Collective Trust Fund	707,050	-	707,050
Total - 2014	$ 5,889,398	$ 5,182,348	$ 707,050
2013			
Mutual Funds	$ 5,645,600	$ 5,645,600	$ -
Collective Trust Fund	2,198,998	-	2,198,998
Total - 2013	$ 7,844,598	$ 5,645,600	$ 2,198,998

Level 1 Fair Value Measurements

Fair value of mutual funds is based on quoted market prices, which represents the net asset value (NAV) of shares held by the Plan at year end.

Level 2 Fair Value Measurements

The collective trust fund incudes a stable asset fund which is a portfolio of guaranteed investment contracts, short term money market instruments and other investments. The net asset value of these funds is based on the value of the underlying investments, as provided by the fund manager.

NOTE D – FAIR VALUE MEASUREMENTS (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – INCOME TAX STATUS

On January 31, 2006, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself. However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The Plan administrator has reviewed and evaluated its tax positions taken in its previously filed annual reports and returns with the Internal Revenue Service and/or the Department of Labor, and those expected to be filed in the future, and has concluded that in the event of a future examination by regulatory authorities, the Plan's positions would prevail based upon the technical merit of such positions. Therefore the Plan has concluded that no further benefits or liabilities are required to be recognized or disclosed in the financial statements.

The Plan is generally subject to routine audits by the Internal Revenue Service and/or Department of Labor for three years, including 2011, 2012 and 2013. There are currently no audits for any periods in progress.

NOTE G – INVESTMENT CONTRACT

The Plan has entered into a benefit-responsive investment contract with Federated Investors Trust Company. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described above, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Contract value of the investment contract at December 31, 2014 and 2013 was $705,937 and $2,192,669, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and may be reset during the plan year.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but are not limited to the following: (1) The complete or partial termination of the Plan; (2) The establishment or activation of, or material change in, any plan investment fund, or an amendment to the Plan or change in the administration or operation of the Plan, including the removal of a group of employees from plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring. The guaranteed investment contract does not permit the trust company to terminate the agreement prior to the scheduled maturity date.

The average yields associated with the guaranteed investment contract for the years ended December 31, 2014 and 2013 are as follows:

Average yields:	2014	2013
Average yield earned by the Plan	0.60%	0.90%
Average interest rate credited to participants	0.60%	0.90%

NOTE H – TRUSTEE CERTIFICATION (UNAUDITED)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by SunTrust Banks Inc., the trustee of the plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

	December 31, 2014	December 31, 2013
Net assets available for benefits:		
Investments	$ 5,889,398	$ 7,844,598
Changes in net assets available for benefits:		
Investment income, excluding participant loan interest income	$ 353,780	$ 1,417,849

The supplemental schedule of assets (held at end of year) included on pages 14 and 15 consists entirely of unaudited items and amounts, except for information relating to participant loans.

NOTE I – RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE J – PARTY-IN-INTEREST TRANSACTIONS

Certain investments held by the Plan are managed by SunTrust Banks Inc., trustee of the Plan. Accordingly, the transactions in such investments qualify as party-in-interest transactions as defined by ERISA.

NOTE K – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 10, 2015 (the issuance date of the financial statements) and has determined that there were no subsequent events to recognize or disclose in these financial statements.
