Independent Auditor's Report

To the Administrator of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan:

We have audited the accompanying financial statements of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and December 31, 2013 and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 4 to the financial statements, the investment manager of Cerberus International, Ltd. ("Cerberus") has indefinitely suspended redemption requests received by Cerberus, which may impact the timing of the Plan's processing of participants' requests for benefit payments and the value ultimately received from the Plan's investment in Cerberus. Our opinion is not modified with respect to this matter.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014, the supplemental schedule of reportable transactions for the year ended December 31, 2014, and the supplemental schedule of non-exempt transactions for the year ended December 31, 2014 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. Description of Plan

The following description of the Cerberus Capital Management, L.P. (the "Company" or the "Plan Administrator") Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing and 401(k) plan covering all full-time employees of the Company who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Cerberus International, Ltd. ("Cerberus" or "Investment Fund") was previously the Plan's sole nonparticipant-directed investment and available as an investment to eligible participants from Plan inception to December 31, 2008. Decisions made with respect to the investment of the Plan's assets in the Investment Fund are made by Evercore Trust Company, N.A. (the "Fiduciary") as an independent fiduciary for the Plan. Effective May 29, 2009, the Company authorized John Hancock New York Retirement Plan Services ("John Hancock") to be the sole recipient of any contributions made on January 1, 2009 and thereafter.

Participants' contributions may be made into the default investment option, the John Hancock New York Retirement Active Strategy Portfolios. At the participants' discretion, contributions may be allocated to twenty other John Hancock Funds in lieu of the default investment option. Additionally, John Hancock serves as the record-keeper and custodian of the participants' investment accounts in the John Hancock portion of the Plan.

a. Eligibility

Employees are eligible to participate in the Plan at the initial date of employment and attainment of age twenty-one (21).

b. Contributions and Funding Policy

Each year, participants may contribute up to 75% of pre-tax and post-tax annual compensation as defined in the Plan agreement, which is not to exceed the Internal Revenue Service ("IRS") pre-tax limit of $17,500 for the year ended December 31, 2014. Participants who have attained the age of fifty (50) before the end of the plan year are eligible to make catch-up contributions, which is limited to an additional IRS deferral limit increase of $5,500 for the year ended December 31, 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Each year, the Company contributes to the Plan from its current profits before pension and profit-sharing costs and income taxes. The amount of the Company's contribution is discretionary and is allocated based on relative levels of compensation and is considered a "Nonelective Contribution". A "Nonelective Contribution" is defined as any employer contribution (including a contribution made at the employer's discretion) to the Plan, other than a participant's elective deferrals, qualified matching contributions and qualified nonelective contributions. The Plan Administrator establishes and maintains a "Nonelective Contribution Account" for each participant with respect to the participant's total interest in the Plan resulting from Nonelective Contributions. These profit sharing contributions were $9,572,102 and $9,139,579 for the years ended December 31, 2014 and 2013, respectively.

c. Participant Accounts
Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan profit and loss. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting
Participants are immediately vested in their allocated employer and participant contributions plus actual earnings thereon.

e. Payment of Benefits
On termination of service due to death, disability or retirement, or other reasons, a participant or the designated beneficiary may choose to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount, or may elect to maintain his or her account in the Plan. If any of the assets of a Nonelective Contribution Account are invested in securities whose sale or redemption is restricted, the distribution to the beneficiary will be limited to the unrestricted assets of the Nonelective Contribution Account. As further payments are received from Cerberus with respect to the restricted securities, the beneficiary will receive additional amounts equal to the proportionate share of the cash received from Cerberus. Alternatively, the beneficiary may be able to receive a distribution in-kind of the securities whose sale or redemption is restricted.

A participant's vested interest is determined as of the Plan's valuation date coincident with or preceding the date of determination. For a participant's balance in Cerberus, the determination dates are March 31, June 30, September 30, and December 31, while the determination date for a participant's balance in John Hancock is daily. For participants with John Hancock account balances in excess of $1,000, an election is available to defer the distribution until the participant is required by law to receive minimum required distributions. If the participant in John Hancock or Cerberus has not attained the Plan's normal retirement age, 65, they are not eligible to request a distribution of their vested account balance.

Liquidity risk arises when the Plan is not able to redeem its investments or raise other cash resources to settle the benefit payment obligations. The Plan may make distributions in-kind and may cause any distribution to be composed of cash, property or undivided fractional shares in property, provided, however, that no participant or beneficiary shall be required to accept more than his pro rata share of any in-kind distribution. See Note 4 for restrictions on redeeming from Cerberus.

f. Notes Receivable from Participants
Participants may borrow from their accounts at a minimum of $1,000 and a maximum of the lesser of one-half of the vested account balance or $50,000 reduced by the highest outstanding loan balance in the account during the prior twelve month period. A participant may only have one loan outstanding at any given time and the participant may not refinance an existing loan or obtain a second loan for the purpose of paying off the existing loan.

All loans bear interest at a rate of 4.25% as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan.

Notes receivable from participants must be repaid over a period not to exceed five years unless for the purchase of a principal residence.

2. Summary of Accounting Policies

a. Basis of Accounting

The accompanying financial statements of the Plan are prepared in compliance with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

b. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid. Outstanding benefit payments at year end are treated as a reduction of benefits paid to participants in the statement of changes in net assets available for benefits. These amounts are reflected in Noninterest-bearing cash on the statement of net assets available for benefits.

e. Excess Contributions

As of December 31, 2014 the balance of $3,970 included in other liabilities is comprised of participant contributions and catch-up contributions in excess of IRS pre-tax limits.

f. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

The Plan Administrator will treat a loan in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment or if the participant makes or furnishes any false representation or statement to the Plan. The participant will have the opportunity to repay the loan, resume current status of the loan by paying any missed payment plus interest or, if distribution is available under the Plan, request distribution to the note. If the loan remains in default, the Plan Administrator will offset the participants vested account balances by the outstanding balance of the loan to the extent permitted by law. The Plan Administrator will treat the note as repaid to the extent of any

permissible offset. Pending final disposition of the note, the participant remains obligated for any unpaid principal and accrued interest.

If the participant is unable to repay the loan, or if the participant's employment is terminated without having paid back the loan in full, the outstanding (unpaid) amount is considered to be a withdrawal. In effect, the participant would owe state and federal taxes on the amount of the withdrawal, as well as a 10% penalty if under the age of 59 ½.

g. Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent), as an amendment to Accounting Standards Codification (ASC) 820, Fair Value Measurement. The amendments in this ASU apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient, as the Plan does for its investments in Pooled Separate Accounts. The amendments in this ASU remove the requirement to categorize within the fair value hierarchy, as described above, all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the Plan has elected to measure the fair value using that practical expedient.

The amendments in this ASU are effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with application of the amendments noted above retrospectively to all periods presented. The retrospective approach requires that an investment for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Earlier application of this ASU is permitted. The Plan Administrator has reviewed the requirements of the ASU and determined that early adoption of this ASU would be applied to the relevant disclosures of the Plan.

4. Fair Value Measurement

The Plan reports investments at fair value.

The Plan discloses the fair value of its financial instruments in a hierarchy established by GAAP that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 – Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan Administrator. The Plan Administrator considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Plan Administrator's perceived risk of that instrument.

If the Plan Administrator determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances. The guidance also provides a list of factors to determine whether there has been a significant decrease in relation to normal market activity. Regardless of the valuation technique and inputs used, the objective for the fair value measurement in those circumstances is unchanged from

what it would be if markets were operating at normal activity levels and/or transactions were orderly; that is, to determine the current exit price.

Nonparticipant-directed Investment in Investment Fund. The Plan's investment in the Investment Fund is reported at fair value based on the Plan's share in the net assets of the Investment Fund. This investment does not have readily ascertainable market values and is subject to certain withdrawal restrictions. The value of the Plan's investment in the Investment Fund represents the amount the Plan would expect to receive at December 31, 2014 and December 31, 2013, respectively, if it were to liquidate its investment. The Investment Fund is valued at its net asset value adjusted for expenses.

Because of the inherent uncertainty of the valuation for the Plan's investment and certain underlying investments held by the Investment Fund (which are valued by the Company in the absence of readily ascertainable market values), the estimated fair value of the Investment Fund may differ from the value that would have been used had a ready market existed for this investment, and the difference could be material.

The Investment Fund is a corporation organized in the Bahamas. The investment objective is to maximize total return on capital by seeking capital appreciation and, from time to time, current income, through the development and management of a diversified portfolio of distressed investments. The Company seeks to achieve this objective primarily through investment in securities and assets of companies: (i) facing operating difficulties; (ii) undergoing, or considered likely to undergo, reorganization under U.S. bankruptcy law or similar laws in other countries; (iii) which are or have been engaged in other transactions, such as debt restructuring, reorganization and liquidation outside of bankruptcy; and (iv) facing a broad range of liquidity issues.

There are restrictions on redemptions from the Investment Fund. Redemption proceeds may be in the form of cash or securities or a combination of the two, as determined by the Investment Fund's Board of Directors. A portion of such proceeds may be withheld on the redemption date and paid upon completion of its annual financial statement audit.

Partridge Hill Overseas Management, L.L.C., an affiliate of the Company, serves as the Investment Manager (the "Investment Manager") to the Investment Fund.

On September 30, 2009, the Investment Manager lifted the suspension of redemptions previously implemented and offered all shareholders the following choice: (i) have all or a portion of the shareholder's shares from the Investment Fund compulsorily redeemed as of September 30, 2009, and receive in connection with such redemptions, participating, vesting shares in a special purpose vehicle, Cerberus International SPV, Ltd. (the "SPV") that holds a pro-rata share of all the cash, securities, assets and liabilities of the Investment Fund attributable to the percentage of the shareholders seeking to redeem or; (ii) remain fully or partially invested in the Investment Fund under new terms that include reinvesting proceeds from the sale of the Investment Fund's securities and assets into Cerberus International II, Ltd., a newly formed Cayman Islands exempted company ("Cerberus International II") and/or receive distributions in cash.

The Investment Fund will be managed to optimize the realized value of its existing portfolio and will have the ability to make follow-on investments, engage in hedging transactions and enter into repurchase agreements or other leverage arrangements. Proceeds from the realization of the Investment Fund's investments (after deduction for actual or anticipated expenses and such

reserves as may be determined by the Investment Manager are needed for hedging transactions, repurchase agreements and follow-on investments) (such amounts "Available Cash") are either invested in Cerberus International II or distributed directly to continuing shareholders. Each remaining shareholder received new shares in Cerberus International II corresponding to its pro rata amount of the Available Cash contributed to Cerberus International II.

For the years ended December 31, 2014 and 2013, the Fiduciary elected to receive all distributions from the Investment Fund in cash and reinvest such distributions in John Hancock. Distributions of $7,256,111 and $14,817,008 were received for the years ended December 31, 2014 and 2013, respectively.

Pooled Separate Accounts. Investments in Pooled Separate Accounts are valued at the unit value of units held by the Plan at year end as determined by John Hancock and are reviewed by the Plan Administrator. These securities generally may be redeemed daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014. The tables also include a roll forward of the amounts for the year ended December 31, 2014 for financial instruments classified within level 3. The classification of a financial instrument within level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated September 19, 2011, that the Plan and related trust are designed in accordance with the applicable

sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) for disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Risks and Uncertainties

The Plan provides for various investment options. Pooled Separate Accounts invest in funds holding a combination of stocks, bonds, fixed income securities and other investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan is also exposed to liquidity risk. Note 1 to the financial statements further explains liquidity risk.

In the normal course of operations, the Investment Fund makes investments in both long and short securities, and other financial instruments, including derivatives, where the risk of potential loss due to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the related amounts recorded. The Investment Fund also utilizes various degrees of leverage. However, due to the nature of the Plan's interest, such risks are limited to the Plan's investment in the Investment Fund.

8. Related Parties

The Investment Fund is managed by the Company and its affiliates. Certain Plan investments are units of pooled separate accounts managed by John Hancock, the record-keeper and custodian of the Plan. Additionally, the Plan trustees, who are principals of the Company, are participants in the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Company pays for certain administrative costs on the Plan's behalf.

9. Subsequent Events

The Investment Fund has made distributions of $2,373,049 since January 1, 2015. The Plan Administrator has evaluated subsequent events through August 11, 2015, the date the financial statements were available to be issued, and except as already included in the notes to these financial statements, has determined that no additional items require disclosure.

Independent Auditor's Report

To the Administrator of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan:

We have audited the accompanying financial statements of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and December 31, 2013 and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As explained in Note 4 to the financial statements, the investment manager of Cerberus International, Ltd. ("Cerberus") has indefinitely suspended redemption requests received by Cerberus, which may impact the timing of the Plan's processing of participants' requests for benefit payments and the value ultimately received from the Plan's investment in Cerberus. Our opinion is not modified with respect to this matter.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014, the supplemental schedule of reportable transactions for the year ended December 31, 2014, and the supplemental schedule of non-exempt transactions for the year ended December 31, 2014 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. Description of Plan

The following description of the Cerberus Capital Management, L.P. (the "Company" or the "Plan Administrator") Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing and 401(k) plan covering all full-time employees of the Company who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Cerberus International, Ltd. ("Cerberus" or "Investment Fund") was previously the Plan's sole nonparticipant-directed investment and available as an investment to eligible participants from Plan inception to December 31, 2008. Decisions made with respect to the investment of the Plan's assets in the Investment Fund are made by Evercore Trust Company, N.A. (the "Fiduciary") as an independent fiduciary for the Plan. Effective May 29, 2009, the Company authorized John Hancock New York Retirement Plan Services ("John Hancock") to be the sole recipient of any contributions made on January 1, 2009 and thereafter.

Participants' contributions may be made into the default investment option, the John Hancock New York Retirement Active Strategy Portfolios. At the participants' discretion, contributions may be allocated to twenty other John Hancock Funds in lieu of the default investment option. Additionally, John Hancock serves as the record-keeper and custodian of the participants' investment accounts in the John Hancock portion of the Plan.

a. Eligibility

Employees are eligible to participate in the Plan at the initial date of employment and attainment of age twenty-one (21).

b. Contributions and Funding Policy

Each year, participants may contribute up to 75% of pre-tax and post-tax annual compensation as defined in the Plan agreement, which is not to exceed the Internal Revenue Service ("IRS") pre-tax limit of $17,500 for the year ended December 31, 2014. Participants who have attained the age of fifty (50) before the end of the plan year are eligible to make catch-up contributions, which is limited to an additional IRS deferral limit increase of $5,500 for the year ended December 31, 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Each year, the Company contributes to the Plan from its current profits before pension and profit-sharing costs and income taxes. The amount of the Company's contribution is discretionary and is allocated based on relative levels of compensation and is considered a "Nonelective Contribution". A "Nonelective Contribution" is defined as any employer contribution (including a contribution made at the employer's discretion) to the Plan, other than a participant's elective deferrals, qualified matching contributions and qualified nonelective contributions. The Plan Administrator establishes and maintains a "Nonelective Contribution Account" for each participant with respect to the participant's total interest in the Plan resulting from Nonelective Contributions. These profit sharing contributions were $9,572,102 and $9,139,579 for the years ended December 31, 2014 and 2013, respectively.

c. Participant Accounts
Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan profit and loss. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting
Participants are immediately vested in their allocated employer and participant contributions plus actual earnings thereon.

e. Payment of Benefits
On termination of service due to death, disability or retirement, or other reasons, a participant or the designated beneficiary may choose to receive an amount equal to the value of the participant's vested interest in his or her account in a lump sum amount, or may elect to maintain his or her account in the Plan. If any of the assets of a Nonelective Contribution Account are invested in securities whose sale or redemption is restricted, the distribution to the beneficiary will be limited to the unrestricted assets of the Nonelective Contribution Account. As further payments are received from Cerberus with respect to the restricted securities, the beneficiary will receive additional amounts equal to the proportionate share of the cash received from Cerberus. Alternatively, the beneficiary may be able to receive a distribution in-kind of the securities whose sale or redemption is restricted.

A participant's vested interest is determined as of the Plan's valuation date coincident with or preceding the date of determination. For a participant's balance in Cerberus, the determination dates are March 31, June 30, September 30, and December 31, while the determination date for a participant's balance in John Hancock is daily. For participants with John Hancock account balances in excess of $1,000, an election is available to defer the distribution until the participant is required by law to receive minimum required distributions. If the participant in John Hancock or Cerberus has not attained the Plan's normal retirement age, 65, they are not eligible to request a distribution of their vested account balance.

Liquidity risk arises when the Plan is not able to redeem its investments or raise other cash resources to settle the benefit payment obligations. The Plan may make distributions in-kind and may cause any distribution to be composed of cash, property or undivided fractional shares in property, provided, however, that no participant or beneficiary shall be required to accept more than his pro rata share of any in-kind distribution. See Note 4 for restrictions on redeeming from Cerberus.

f. Notes Receivable from Participants
Participants may borrow from their accounts at a minimum of $1,000 and a maximum of the lesser of one-half of the vested account balance or $50,000 reduced by the highest outstanding loan balance in the account during the prior twelve month period. A participant may only have one loan outstanding at any given time and the participant may not refinance an existing loan or obtain a second loan for the purpose of paying off the existing loan.

All loans bear interest at a rate of 4.25% as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan.

Notes receivable from participants must be repaid over a period not to exceed five years unless for the purchase of a principal residence.

2. Summary of Accounting Policies

a. Basis of Accounting

The accompanying financial statements of the Plan are prepared in compliance with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

b. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d. Payment of Benefits

Benefits are recorded when paid. Outstanding benefit payments at year end are treated as a reduction of benefits paid to participants in the statement of changes in net assets available for benefits. These amounts are reflected in Noninterest-bearing cash on the statement of net assets available for benefits.

e. Excess Contributions

As of December 31, 2014 the balance of $3,970 included in other liabilities is comprised of participant contributions and catch-up contributions in excess of IRS pre-tax limits.

f. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

The Plan Administrator will treat a loan in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment or if the participant makes or furnishes any false representation or statement to the Plan. The participant will have the opportunity to repay the loan, resume current status of the loan by paying any missed payment plus interest or, if distribution is available under the Plan, request distribution to the note. If the loan remains in default, the Plan Administrator will offset the participants vested account balances by the outstanding balance of the loan to the extent permitted by law. The Plan Administrator will treat the note as repaid to the extent of any

permissible offset. Pending final disposition of the note, the participant remains obligated for any unpaid principal and accrued interest.

If the participant is unable to repay the loan, or if the participant's employment is terminated without having paid back the loan in full, the outstanding (unpaid) amount is considered to be a withdrawal. In effect, the participant would owe state and federal taxes on the amount of the withdrawal, as well as a 10% penalty if under the age of 59 ½.

g. Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent), as an amendment to Accounting Standards Codification (ASC) 820, Fair Value Measurement. The amendments in this ASU apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient, as the Plan does for its investments in Pooled Separate Accounts. The amendments in this ASU remove the requirement to categorize within the fair value hierarchy, as described above, all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the Plan has elected to measure the fair value using that practical expedient.

The amendments in this ASU are effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, with application of the amendments noted above retrospectively to all periods presented. The retrospective approach requires that an investment for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Earlier application of this ASU is permitted. The Plan Administrator has reviewed the requirements of the ASU and determined that early adoption of this ASU would be applied to the relevant disclosures of the Plan.

4. Fair Value Measurement

The Plan reports investments at fair value.

The Plan discloses the fair value of its financial instruments in a hierarchy established by GAAP that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 – Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan Administrator. The Plan Administrator considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Plan Administrator's perceived risk of that instrument.

If the Plan Administrator determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances. The guidance also provides a list of factors to determine whether there has been a significant decrease in relation to normal market activity. Regardless of the valuation technique and inputs used, the objective for the fair value measurement in those circumstances is unchanged from

what it would be if markets were operating at normal activity levels and/or transactions were orderly; that is, to determine the current exit price.

Nonparticipant-directed Investment in Investment Fund. The Plan's investment in the Investment Fund is reported at fair value based on the Plan's share in the net assets of the Investment Fund. This investment does not have readily ascertainable market values and is subject to certain withdrawal restrictions. The value of the Plan's investment in the Investment Fund represents the amount the Plan would expect to receive at December 31, 2014 and December 31, 2013, respectively, if it were to liquidate its investment. The Investment Fund is valued at its net asset value adjusted for expenses.

Because of the inherent uncertainty of the valuation for the Plan's investment and certain underlying investments held by the Investment Fund (which are valued by the Company in the absence of readily ascertainable market values), the estimated fair value of the Investment Fund may differ from the value that would have been used had a ready market existed for this investment, and the difference could be material.

The Investment Fund is a corporation organized in the Bahamas. The investment objective is to maximize total return on capital by seeking capital appreciation and, from time to time, current income, through the development and management of a diversified portfolio of distressed investments. The Company seeks to achieve this objective primarily through investment in securities and assets of companies: (i) facing operating difficulties; (ii) undergoing, or considered likely to undergo, reorganization under U.S. bankruptcy law or similar laws in other countries; (iii) which are or have been engaged in other transactions, such as debt restructuring, reorganization and liquidation outside of bankruptcy; and (iv) facing a broad range of liquidity issues.

There are restrictions on redemptions from the Investment Fund. Redemption proceeds may be in the form of cash or securities or a combination of the two, as determined by the Investment Fund's Board of Directors. A portion of such proceeds may be withheld on the redemption date and paid upon completion of its annual financial statement audit.

Partridge Hill Overseas Management, L.L.C., an affiliate of the Company, serves as the Investment Manager (the "Investment Manager") to the Investment Fund.

On September 30, 2009, the Investment Manager lifted the suspension of redemptions previously implemented and offered all shareholders the following choice: (i) have all or a portion of the shareholder's shares from the Investment Fund compulsorily redeemed as of September 30, 2009, and receive in connection with such redemptions, participating, vesting shares in a special purpose vehicle, Cerberus International SPV, Ltd. (the "SPV") that holds a pro-rata share of all the cash, securities, assets and liabilities of the Investment Fund attributable to the percentage of the shareholders seeking to redeem or; (ii) remain fully or partially invested in the Investment Fund under new terms that include reinvesting proceeds from the sale of the Investment Fund's securities and assets into Cerberus International II, Ltd., a newly formed Cayman Islands exempted company ("Cerberus International II") and/or receive distributions in cash.

The Investment Fund will be managed to optimize the realized value of its existing portfolio and will have the ability to make follow-on investments, engage in hedging transactions and enter into repurchase agreements or other leverage arrangements. Proceeds from the realization of the Investment Fund's investments (after deduction for actual or anticipated expenses and such

reserves as may be determined by the Investment Manager are needed for hedging transactions, repurchase agreements and follow-on investments) (such amounts "Available Cash") are either invested in Cerberus International II or distributed directly to continuing shareholders. Each remaining shareholder received new shares in Cerberus International II corresponding to its pro rata amount of the Available Cash contributed to Cerberus International II.

For the years ended December 31, 2014 and 2013, the Fiduciary elected to receive all distributions from the Investment Fund in cash and reinvest such distributions in John Hancock. Distributions of $7,256,111 and $14,817,008 were received for the years ended December 31, 2014 and 2013, respectively.

Pooled Separate Accounts. Investments in Pooled Separate Accounts are valued at the unit value of units held by the Plan at year end as determined by John Hancock and are reviewed by the Plan Administrator. These securities generally may be redeemed daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014. The tables also include a roll forward of the amounts for the year ended December 31, 2014 for financial instruments classified within level 3. The classification of a financial instrument within level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated September 19, 2011, that the Plan and related trust are designed in accordance with the applicable

sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) for disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Risks and Uncertainties

The Plan provides for various investment options. Pooled Separate Accounts invest in funds holding a combination of stocks, bonds, fixed income securities and other investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan is also exposed to liquidity risk. Note 1 to the financial statements further explains liquidity risk.

In the normal course of operations, the Investment Fund makes investments in both long and short securities, and other financial instruments, including derivatives, where the risk of potential loss due to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the related amounts recorded. The Investment Fund also utilizes various degrees of leverage. However, due to the nature of the Plan's interest, such risks are limited to the Plan's investment in the Investment Fund.

8. Related Parties

The Investment Fund is managed by the Company and its affiliates. Certain Plan investments are units of pooled separate accounts managed by John Hancock, the record-keeper and custodian of the Plan. Additionally, the Plan trustees, who are principals of the Company, are participants in the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Company pays for certain administrative costs on the Plan's behalf.

9. Subsequent Events

The Investment Fund has made distributions of $2,373,049 since January 1, 2015. The Plan Administrator has evaluated subsequent events through August 11, 2015, the date the financial statements were available to be issued, and except as already included in the notes to these financial statements, has determined that no additional items require disclosure.
