NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Sequa 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan in which contributions are made by employees and may be partially matched by Sequa Corporation (the "Company"). All non-collectively bargained employees of the Company and its participating affiliates become eligible to participate in the Plan after attaining age 21. Eligibility for collectively bargained employees is determined by the collective bargaining agreement ("CBA"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

New hires and newly eligible participants will be automatically enrolled at a 3% contribution rate and have their contribution rate increase each year by 1% (up to a 10% cap) unless an alternate election is made; automatic enrollment and annual increase for employees covered by a CBA is determined by the CBA. Participants may elect to reduce their eligible compensation by any whole percentage amount between 1% and 40% and have this amount deposited as pre-tax contributions into the investment funds selected by the participant. In accordance with the Internal Revenue Code ("IRC"), participants could not make contributions exceeding $17,500 for both 2014 and 2013. In order to satisfy the necessary nondiscrimination tests required under ERISA and related regulations, certain participants designated as highly compensated employees may be limited in the amount of their pretax contributions. For any participant, the annual addition to the Plan (participant plus employer contribution) may not exceed the lesser of 100% of the participant's compensation or $52,000 in 2014 and $51,000 in 2013. The Plan allows for catch-up contributions for participants age 50 or older as permitted by the provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001. Catch-up contributions were limited to $5,500 for both 2014 and 2013. For most participants the Company may match 50% of the employees' contributions up to 6% of the participants' eligible compensation. The Company may match 100% of BELAC employees' contributions up to 6% of the participants' eligible compensation. The amount of Company match for employees covered by a CBA is determined by the CBA.

Under a profit-sharing feature of the Plan, Midwest Metal Coatings, LLC ("MMC"), a subsidiary of the Company, may make a discretionary profit-sharing contribution on behalf of each MMC participant who remains employed by MMC as of the last day of such plan year or on behalf of MMC participants who during the plan year terminated due to disability, retired or died. This contribution is typically made in March of the following year. Employees covered under a CBA may receive profit sharing and/or transition contributions as outlined in the CBA. Hourly employees of Chromalloy Component Services receive a profit sharing contribution equal to 2% of their eligible compensation with each payroll. Certain other employees who were participants in the Sequa Retirement Plan as of December 31, 2005, and had their benefit in that plan frozen as of December 31, 2005, may receive a profit sharing contribution equal to 3% of their eligible compensation with each payroll.

Vesting

A participant's interest in their pretax contribution account is fully vested at all times. Participants commence vesting in the Company contribution account upon completion of their twelfth month of employment at the rate of 20% per year and are fully vested upon completion of their fifth year of employment. In addition, if the employee attains age 65, becomes disabled, or dies while employed by the Company, he or she will be fully vested. Certain employees are fully vested in the company matching contribution based on their CBA or other participation agreement. Any nonvested portion of participant account balances forfeited by employees is applied against future Company contributions or used to pay reasonable administrative expenses.

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits

Participants are entitled to their vested account balance after age 59 ½, upon retirement at or after age 65, upon death, upon termination of employment, or upon permanent/total disability. Participants may elect to receive a lump sum payment, a direct rollover to an Individual Retirement Account or other qualified plan or an annuity. Participants may also choose to defer receipt of their benefits if their vested account balance is greater than $5,000. Terminated participants with vested account balances between $1,000 and $4,999 who do not elect to receive a distribution of their account balance within a reasonable time following the termination will have their account rolled into a Vanguard Individual Retirement Account. Terminated participants with vested account balances less than $1,000 who do not elect to receive a distribution of their account balance will have their account balance automatically cashed out.

Hardship withdrawals are permitted if certain conditions are met. After the withdrawal, the participants may not make contributions to the Plan for six months.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) Plan earnings, and may be charged with his or her withdrawals and an allocation of administrative expenses and Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Any Company contributions are invested in the same allocation as the participant's contributions.

Notes Receivable from Participants

Notes receivable from participants are permitted in accordance with the loan provisions in the Plan. Eligible participants can borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%. Principal and interest are paid through payroll deductions. Upon termination of employment, the participant may either repay any outstanding balance in full or incur a tax liability on the unpaid balance. At December 31, 2014, there were $7,037,041 outstanding notes receivable from participants bearing interest rates ranging from 4.25% to 9.25% with maturities from 2015 through 2029. At December 31, 2013, there were $7,039,544 outstanding notes receivable from participants bearing interest rates ranging from 4.25% to 9.25% with maturities from 2014 through 2028.

Forfeited Amounts

At December 31, 2014 and 2013, forfeited nonvested amounts totaled $1,434,997 and $1,353,566, respectively. In 2014, the forfeited amount used to reduce employer contributions was $1,901. In 2014, the forfeited amount used to pay administrative expenses was $166,758.

Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, provided that such action results in the distribution of Plan assets and income thereon (after payment of Plan expenses) exclusively to active and terminated vested participants. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Plan Administration

The Company is the Plan administrator (as defined in the Plan) and has appointed an employee benefit plans administrative committee to carry out certain of the Plan administrator's responsibilities. Vanguard Fiduciary Trust Company ("Vanguard") is the trustee, investment manager and record keeper for the Plan. It is intended that participants direct the investment of their accounts in accordance with Section 404(c) of ERISA.

Certain expenses of administering the Plan are paid by the Company and others are paid by the participant. Certain of these expenses paid by the participants may include recordkeeping, managed account, and loan expenses. Investment management expenses are paid by the respective investment fund and are included in the net appreciation in fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"). The more significant accounting policies followed by the Plan are as follows:

Adoption of New Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") amended existing guidance related to the measurement, reporting and disclosure of fully benefit-responsive investment contracts ("FBRICs"), and in May and July 2015 the FASB amended various other disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance requires FBRICs to be measured, presented, and disclosed only at contract value, and it clarifies that a plan's investments in stable value funds are not FBRICs and should be measured and presented only at fair value. The new guidance also eliminates or simplifies various disclosure requirements applicable to plan investments. Adoption of the new guidance resulted in removal of FBRICs and investments for which fair value is measured at net asset value (or its equivalent) from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein. However, *Investments, at fair value* was reduced by $1,701,448 from the amount previously reported as of December 31, 2013, and the *Adjustment from fair value to contract* value for fully benefit-responsive investment contracts of $(1,701,448) as of December 31, 2013, was eliminated.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 7).

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes the Plan's realized gains (losses) and changes in unrealized gain (loss) on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of contingent assets and liabilities. These estimates and assumptions are based on management's best estimate and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including consideration of the current economic environment. Management adjusts such estimates when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results may differ from those estimates and assumptions.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 4 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated November 18, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or de-recognition of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(Continued)

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. Certain Plan investments are shares of collective trust funds managed by Vanguard and mutual funds managed by an affiliate of Vanguard. Vanguard is the Plan's trustee and, therefore, transactions with these funds qualify as party-in-interest.

Vanguard earns management fees, which are paid by the individual mutual funds and are reflected in the net appreciation (depreciation) in fair value of investments. These along with direct expenses paid for by the Plan qualify as party-in-interest transactions. Also, notes receivable from participants also reflect party-in-interest transactions.

NOTE 6 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Vanguard, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 7 - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(Continued)

NOTE 7 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). The Plan does not have any contractual obligation to further invest in any individual collective trusts. However there are restrictions as to the redemption of the collective trust; there is an option for the Retirement Savings Trust to exercise a 12 month put (or unwinding) if Sequa wanted to move out of the fund at the plan level and participants are restricted from moving directly into a "competing" fund (funds with short term durations such as money market or short-term bond funds).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value, as certified by the trustee, as of December 31, 2014 and 2013:

	December 31, 2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 176,228,661	$ -	$ -	$ 176,228,661
Collective trust funds*	-	-	-	118,451,919
Total investments at fair value	$ 176,228,661	$ -	$ -	$ 294,680,580

	December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 176,634,014	$ -	$ -	$ 176,634,014
Collective trust funds*	-	-	-	118,770,960
Total investments at fair value	$ 176,634,014	$ -	$ -	$ 295,404,974

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statements of net assets available for benefits.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Certain financial information in these financial statements differs from the financial information on Form 5500 as of and for the years ended December 31, 2014 and 2013. The differences arise from the fact that the fully benefit-responsive investment contracts are reported at contract value on the Plan's financial statements, while the Form 5500 reports such contracts at fair value. The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of and for the years ended December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the financial statements	$ 301,734,059	$ 302,470,040
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	1,735,769	1,701,448
Net assets available for benefits per Form 5500	$ 303,469,828	$ 304,171,488
Net investment (loss) per the financial statements, prior to transfers	$ (458,331)	
Net change in adjustment from fair value to contract value for fully benefit-responsive investment contracts	34,321	
Net investment (loss) per Form 5500	$ (424,010)	

NOTE 9 - PLAN CHANGES

The following changes in Plan provisions have taken place during 2014:

- Effective retroactively to June 26, 2013, the Plan was amended to update the definition of spouse to include same sex spouses.

NOTE 10 - SUBSEQUENT EVENTS

We evaluated subsequent events from the date of the financial statements through September 3, 2015, which represents the date these financial statements were available to be issued. There were no other events or transactions occurring during this subsequent event reporting period which require recognition or disclosure in the financial statements.

Effective February 16, 2015, the Plan was amended to update the eligibility waiting period for employees of the Precoat Metals Granite City bargaining unit. The new eligibility waiting period requires an employee to complete 60 calendar days of employment before becoming eligible to contribute to the Plan; updated from previously needing to be employed for 120 consecutive work days. The age requirement remained the same at age 21.
