Kuss Filtration, Inc. Bargained Plan

Notes to Financial Statements November 30, 2014 and 2013

Note 1 - Plan Description

The following description of Kuss Filtration, Inc. Bargained Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established on December 1, 2011 and is a defined contribution plan that covers all eligible employees of Kuss Filtration, Inc. (the "Company") upon the first day of employment who are covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 50 percent of the first 3 percent of the participant's elective deferral. The Plan also provides for employer discretionary contributions, provided that the total of all employer contributions does not exceed limitations imposed by the Internal Revenue Code. Employees are eligible for discretionary contributions if they are employed on the last day of the plan year and have completed 1,000 or more hours of service during the plan year. Discretionary contributions paid during 2014 totaled approximately \$51,000.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions, and any income or loss thereon. Vesting in the Company's matching and discretionary contribution portions of their accounts, plus actual earnings thereon, is based on years of service. Participants become fully vested in employer contributions after three years of service.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum payment, periodic installments, or an annuity amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions and pay plan administrative expenses.

Kuss Filtration, Inc. Bargained Plan

Notes to Financial Statements November 30, 2014 and 2013

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined periodically by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets were in investment funds managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) and their affiliates before the change in trustee at January 1, 2014 (see Note 3). Principal Trust was the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Effective January 1, 2014, certain plan assets are in investments funds held by Ascensus Trust Company, a trustee and custodian of the Plan's assets, and therefore, these transactions also qualify as party-in-interest transactions as defined under ERISA guidelines.

During 2013, the Company inadvertently made a duplicate contribution to the Plan. The Company subsequently withdrew the additional contribution, which is considered a nonexempt transaction under ERISA. The Company is working with ERISA legal counsel to determine the appropriate course of action to correct this withdrawal.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Modified Cash Basis - The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligation is incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Kuss Filtration, Inc. Bargained Plan

Notes to Financial Statements November 30, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation - The Plan's investments are stated at fair value except for the Principal Stable Value Fund and the Columbia Trust Stable Government I-30 Fund (collectively, the "Stable Value Funds"), which are fully benefit-responsive common collective trust funds valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the Stable Value Funds are based on the fair value of the underlying net assets at the measurement date by the issuer of the funds. The Plan's interest in the Stable Value Funds are based on its proportionate ownership interest in the fair value of the common collective trust funds.

The Stable Value Funds primarily hold guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The remaining common collective trust fund investments and the pooled separate accounts held by the Plan are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain administrative costs of the Plan are paid by the Company.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Kuss Filtration, Inc. Bargained Plan

Notes to Financial Statements November 30, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 14, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Effective January 1, 2014, the Plan changed trustees from Principal Trust (the "Former Trustee") to Ascensus Trust Company (the "Trustee"), formerly known as Frontier Trust Company (collectively, the "Trustees"). The Trustees of the Plan hold the Plan's investments and participant notes receivable and execute all related transactions during the periods under audit. Ascensus Inc., as agent for Ascensus Trust Company, has certified the investment and participant notes receivable balances as of November 30, 2014 and the related income or losses for the period January 1, 2014 through November 30, 2014. Principal Trust held and has certified the investment and participant notes receivable balances as of November 30, 2013 and the related income or losses for the period ended December 31, 2013. The investment and participant note receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year is based solely on information provided by Ascensus Trust Company, formerly known as Frontier Trust Company, and Principal Trust.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at November 30, 2014 and 2013.

Kuss Filtration, Inc. Bargained Plan

Notes to Financial Statements November 30, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
