Note 1 - Plan Description

The following brief description of the Prime Communications, L.P. 401(k) Plan (the Plan) is provided for general information only. Participants should refer to the plan document for more detailed information.

General

The Plan is a defined contribution plan covering employees of Prime Communications, L.P. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was adopted by the Company on August 19, 2011. Prime Communications, L.P. is named as the plan administrator. State Street Bank and Trust Company serves as the Plan's trustee (the trustee).

Eligibility

The Plan is provided for all eligible employees. With the exception of leased employees, non-resident aliens, and those employees covered by a collective bargaining agreement, participation is available for all employees who complete three months of service and are 21 years of age. The Plan includes a savings feature designed to permit the employee and the Company to contribute to the Plan, as allowable under Section 401(k) of the Internal Revenue Code (IRC).

Contributions

Employee contributions are made to the Plan by electing to defer from 0% to 90% of the employee's compensation, as defined in the Plan. Effective November 1, 2014, employees who became eligible on or after the effective date were automatically enrolled in the Plan as a participant deferring 3% of compensation. Eligible participants who have attained age 50 before the close of the plan year are eligible to make catch-up contributions subject to the limitations of the IRC.

The Company may elect to make discretionary matching contributions as of the end of the plan year. For the year ended December 31, 2014, the Company made matching contributions equal to 50% of elective deferrals on the first 6% of eligible compensation. The Company may also contribute an amount on a discretionary profit sharing basis, which is allocated based on the total compensation of each eligible participant, plus an additional amount based on each participant's compensation in excess of the stated social security taxable wage base. The Company made no discretionary profit sharing contributions in 2014.

The Plan was required to return excess contributions of $127,433 and $27,884 in 2014 and 2013, respectively, to certain participants to satisfy the relevant non-discrimination provisions of the Plan. Those refunds have been accrued in the financial statements of the Plan.

Vesting

Participants are immediately vested in their deferral contributions plus earnings and losses thereon. A participant's interest in the contributions made by the Company vests 0% after the first two years of service and then becomes 100% vested after completion of the third year of service.

Forfeitures

Forfeitures of nonvested amounts may be used by the Company to reduce future employer matching contributions. During 2014, $43,235 in forfeitures was used to reduce employer matching contributions. The balance in the forfeiture account at December 31, 2014 and 2013 was $44,910 and $36,275, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, plan earnings and losses, as applicable, and charged with certain transactional fees. A participant may direct the trustee with regard to the investment of his or her account balances. Participants may change their investment options at any time.

Notes Receivable from Participants

Notes receivable from participants are loans to participants secured by the vested portion of their accounts as prescribed in the plan document. Interest rates are based on the prime rate plus 2% at the date of issuance. The loans are repaid through payroll deductions. A participant may not have more than one loan outstanding at any time. Loans issued are no less than $500, with a maximum value limited to the lesser of $50,000 or one-half of the participant's vested balance. Loan terms are limited to five years unless for the purchase of a principal residence which could then be extended as permitted by the Plan.

Benefit Payments

Distributions may be made to participants upon termination of employment, retirement or death. In-service distributions are allowed for participants who have reached the age of 59½. Additionally, hardship withdrawals may be made by active participants. Upon termination, participants with an account balance of $1,000 or less shall receive an automatic lump sum distribution from the Plan. Participants with a balance greater than $1,000 but less than $5,000 shall have their account balance rolled over to an IRA. Withdrawals from the Plan may be subject to taxes on contributions and income earned.

Note 2 - Summary of Accounting Policies

Basis of Accounting and Presentation

The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for investments in fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate withdrawals or other permitted transactions under the terms of the contract. The Plan invests in investment contracts through the Invesco Stable Asset Trust Fund (Trust Fund), a fully benefit-responsive common/collective trust fund. The statements of net assets available for benefits present the fair value of the investment in the Trust Fund as well as the adjustment of the investment in the Trust Fund from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reflected at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes realized gains or losses on investments sold during the year as well as unrealized gains or losses of the investments held at the end of the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. In general, notes receivable from participants are considered in default at the end of the calendar quarter following the quarter in which no payment is made. Defaulted loans are accounted for as distributions based upon the terms of the plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions.

Benefit Payments

Benefits paid to participants or beneficiaries are recorded when paid.

Administrative Expenses

Fees related to the administration of notes receivable for participants and certain transactional charges are paid by the participants. All other administrative costs are paid by the Plan, unless paid by the Company at its discretion.

Accounting Standards Updates

On May 1, 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent),* which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. The ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years with earlier adoption permitted. Upon adoption, the ASU will be retroactively applied to all periods presented. Management is currently evaluating the impact of adopting the ASU on the Plan's financial statements.

On July 31, 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*, to reduce complexity in employee benefit plan accounting. Part I of the ASU designates contract value as the only required measure for fully benefit-responsive investment contracts, Part II eliminates the requirement to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments, and Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year when the fiscal period does not coincide with a month-end. The ASU is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. Upon adoption, Parts I and II of the ASU will be applied retrospectively to all periods presented and Part III of the ASU will be applied prospectively. Management is currently evaluating the impact of adopting the ASU on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investments in mutual funds and common/collective trust funds. Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with the Plan's investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and may impact participants' account balances and amounts reported in the financial statements.

Subsequent Events

The plan administrator evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 14, 2015, which is the date the financial statements were available to be issued.

Note 3 - Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained a certification from the trustee that all of the information provided is complete and accurate. Information included in the accompanying financial statements, accompanying notes to the financial statements as to investments (excluding the adjustment from contract value to fair value for the Plan's interest in the common/collective trust fund relating to fully benefit-responsive investment contracts), notes receivable from participants, investment income (loss), interest income on notes receivable from participants, and all the related information in the supplemental schedule of assets (held at end of year) is presented in reliance solely upon this certification.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, the accompanying footnotes and the supplemental schedule.

Note 4 - Fair Value Measurements

GAAP provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: These funds are valued at their quoted market prices.

Common/Collective Trust Funds: These funds are valued at their NAV as determined by the issuer, based on the value of each of the underlying investments, less applicable fees charged by the issuer.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments in fair value:

In accordance with fair value measurements and disclosure guidance, the following provides additional information on common/collective trust funds where the fair value is measured at their NAV per share as of December 31, 2014 and 2013:

(a) The index funds are valued by the issuer on a daily basis. The funds' investment objectives are to provide long-term capital appreciation and income by investing primarily in equity securities. As of December 31, 2013, there are no unfunded commitments and units may be redeemed on a daily basis.

(b) The stable fund, also known as the Trust Fund, is valued by the issuer on a daily basis. The stable fund's investment objectives include preserving principal and providing interest income consistent with prevailing market conditions and rates. For further discussion on the Trust Fund, see Note 5.

Note 5 - Investment in Fully Benefit-Responsive Common/Collective Trust Fund

The Trust Fund is a fully benefit-responsive common/collective trust fund that invests in investment contracts that are issued by a financial institution that is backed by high-quality bonds and bond mutual funds owned by Invesco National Trust Company on behalf of the Trust Fund.

The Trust Fund contains several redemption restrictions, including the right to require a twelve month notice for withdrawal of assets from the Trust Fund by the Plan at fair value if fair value is greater than contract value. The Plan may redeem units at contract value at any time upon giving ten business days' notice. Redemptions by plan participants to invest in options that compete with the Trust Fund must be placed in a noncompeting fund for a minimum of 90 days.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events generally include, but are not limited to: (i) a change in the qualification status of the participant, Plan, or plan sponsor; (ii) a breach of material obligations under the contract and misrepresentation by the plan sponsor; (iii) or failure of the underlying portfolio to conform to the pre-established investment guidelines. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

As of December 31, 2014, the Plan has no unfunded commitments to the issuer of the Trust Fund.

Note 6 - Investments

The following presents individual investments that exceed 5% of the Plan's net assets:

December 31, 2014		
Pioneer Classic Balanced Y	$	2,263,403
December 31, 2013		
T. Rowe Price Retirement 2050 Fund	$	842,781
T. Rowe Price Retirement 2040 Fund		324,898
T. Rowe Price Retirement 2030 Fund		243,130

During 2014, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated (depreciated) in value as follows:

	Year Ended December 31, 2014
Mutual funds	$ (86,861)
Common/collective trust funds	8,518
	$ (78,343)

Note 7 - Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company elected to terminate the Plan in April 2015, and all participants became 100% vested in their Company contributions.

Note 8 - Federal Income Tax

The prototype plan adopted by the Plan received a favorable opinion letter date March 31, 2008, in which the Internal Revenue Service stated the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The prototype plan has been amended since March 31, 2008. However, the plan administrator believes that the Plan, through its adoption of the prototype plan, is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of liability or disclosure in the financial statements.

Note 9 - Party-In-Interest Transactions

Certain Plan investments include shares of common/collective trust funds managed an affiliate of the trustee, which is considered a party-in-interest with respect to the Plan. These transactions are covered by an exemption from the "prohibited transaction" provisions of ERISA and the IRC.
