Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Note 1: Description of the Plan

The following description of Gateway Packaging Company Employee Pension Plan ("Plan") provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined benefit plan that covers those eligible employees of Gateway Packaging Company, LLC ("Company") who are covered by the terms of the collective bargaining agreement with the Amalgamated Clothing & Textile Union, AFL/CIO-CLC. The Plan provides for retirement and death benefits. Effective April 15, 2010, the Plan was amended to freeze eligibility, participation and benefit accruals. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Associated Trust Company, N.A. is the trustee of the Plan.

Contributions

The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members, as determined by an independent actuary. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on years of credited service and the benefit accrual service formula outlined in the Plan Document. Normal retirement age for Plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 62, provided they have at least five years of service with the Company. Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and 50 percent survivor annuity. If a participant's accrued benefit is less than \$5,000, then a single lump-sum payment will be made to the participant.

Death Benefits

The spouse of a participant will receive a 50 percent survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50 percent of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Vesting

Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set for in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The money market mutual fund is valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in the collective trust is valued based on information reported by the trustee using the audited financial statements of the collective trust at year-end.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 4) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Gateway Packaging Company Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Benefits under the Plan are based on employees' credited years of service. Benefits payable under all circumstances — retirement, death and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on January 31, 2011, in which the Internal Revenue Service stated the Plan and related trust, as then designed, were in compliance with the applicable requirements of the *Internal Revenue Code* and therefore not subject to tax. The Plan is no longer subject to U.S. federal tax examinations by tax authorities for years before 2011.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments are held by a trust fund. The fair value of individual investments that represented 5 percent or more of the Plan's net assets available for benefits are separately identified (*):

	<u>2014</u>	<u>2013</u>
Collective Trust Fund		
Associated Banc Corp Growth Balanced Lifestage Fund	\$ 2,306,874 *	\$ 2,188,635 *

Goldman Sachs Financial Square Prime Obligations Fund	<u>115,411</u>	<u>113,199</u>
	<u>\$ 2,422,285</u>	<u>\$ 2,301,834</u>

During 2014 and 2013, the Plan's investment (including investments bought, sold and held during the year) in the collective trust fund appreciated by \$181,455 and \$379,527, respectively.

Interest realized on the Plan's money market mutual fund for the years ended 2014 and 2013 was \$682 and \$52, respectively.

Note 4: Accumulated Plan Benefits

An actuary from the H.C. Foster & Company determines the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of December 1, 2013, was as follows:

Actuarial present value of accumulated Plan benefits

Vested benefits

Participants currently receiving payments	\$ 234,474
Other participants	<u>1,613,758</u>

1,848,232

Nonvested benefits

-

Total actuarial present value of accumulated
Plan benefits

\$ 1,848,232

Changes in the actuarial present value of accumulated Plan benefits for the year ended December 1, 2013, was as follows:

Actuarial present value of accumulated Plan benefits,
beginning of year

\$ 1,734,754

Increase (decrease) during the year attributable to

Change in actuarial assumptions	165,913
---------------------------------	---------

Benefits accumulated	23,504

---------------	------------------

Net increase	<u>113,478</u>
--------------	----------------

Actuarial present value of accumulated Plan
benefits, end of year

\$ 1,848,232

Gateway Packaging Company Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 2014 and 2013 – 7 percent
- Mortality basis: PPA 2010 Unisex Mortality Table for lump sum distributions
- Employee turnover: No turnover assumption is utilized
- Retirement: At normal retirement age (65)
- Asset valuation: Market

In October 2014, the Society of Actuaries released a new set of mortality tables and mortality improvement scales. The estimated impact to the accumulated plan benefits is an increase of approximately 5 percent.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

The investments are held by Associated Trust Company, N.A., the trustee of the Plan. The Plan invests in a collective trust fund of the trustee.

The Company provides certain administrative services at no cost to the Plan.

Note 6: Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets

Gateway Packaging Company Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying Statements of Net Assets Available for Benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at November 30, 2014 and 2013:

		2014			
		Fair Value Measurements Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	Fair Value				
Money Market Mutual Fund	\$ 115,411	\$ 115,411	\$ -	\$ -	
Collective Trust Fund	2,306,874	-	2,306,874	-	
	<u>\$ 2,422,285</u>	<u>\$ 115,411</u>	<u>\$ 2,306,874</u>	<u>\$ -</u>	
		2013			
		Fair Value Measurements Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	Fair Value				
Money Market Mutual Fund	\$ 113,199	\$ 113,199	\$ -	\$ -	
Collective Trust Fund	2,188,635	-	2,188,635	-	
	<u>\$ 2,301,834</u>	<u>\$ 113,199</u>	<u>\$ 2,188,635</u>	<u>\$ -</u>	

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying Statements of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended November 30, 2014. The Plan had no assets measured at fair value on a nonrecurring basis.

Notes to Financial Statements
November 30, 2014 and 2013

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy.

Note 7: Information Certified by the Trustee

The Trustee has certified the completeness and accuracy of certain information which management used in preparing the financial statements, supplemental schedules and accompanying notes. Accordingly, this information was not audited. The following is a summary of information provided by the Trustee:

- Investments as reported in the Statements of Net Assets Available for Benefits at November 30, 2014 and 2013
- Investment income as reported in the Statements of Changes in Net Assets Available for Benefits for the years ended November 30, 2014 and 2013
- Investments as reported in the Schedule of Assets (Held at End of Year) at November 30, 2014
- Investment transactions as reported in the Schedule of Reportable Transactions for the year ended November 30, 2014

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Note 1: Description of the Plan

The following description of Gateway Packaging Company Employee Pension Plan (“Plan”) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation’s (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined benefit plan that covers those eligible employees of Gateway Packaging Company, LLC (“Company”) who are covered by the terms of the collective bargaining agreement with the Amalgamated Clothing & Textile Union, AFL/CIO-CLC. The Plan provides for retirement and death benefits. Effective April 15, 2010, the Plan was amended to freeze eligibility, participation and benefit accruals. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Associated Trust Company, N.A. is the trustee of the Plan.

Contributions

The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members, as determined by an independent actuary. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on years of credited service and the benefit accrual service formula outlined in the Plan Document. Normal retirement age for Plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 62, provided they have at least five years of service with the Company. Accrued benefits are payable as an annuity over the participant’s lifetime or as a qualified joint and 50 percent survivor annuity. If a participant’s accrued benefit is less than \$5,000, then a single lump-sum payment will be made to the participant.

Death Benefits

The spouse of a participant will receive a 50 percent survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50 percent of the participant’s monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Notes to Financial Statements

November 30, 2014 and 2013

Vesting

Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set for in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The money market mutual fund is valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in the collective trust is valued based on information reported by the trustee using the audited financial statements of the collective trust at year-end.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 4) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Gateway Packaging Company Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Benefits under the Plan are based on employees' credited years of service. Benefits payable under all circumstances — retirement, death and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on January 31, 2011, in which the Internal Revenue Service stated the Plan and related trust, as then designed, were in compliance with the applicable requirements of the *Internal Revenue Code* and therefore not subject to tax. The Plan is no longer subject to U.S. federal tax examinations by tax authorities for years before 2011.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments are held by a trust fund. The fair value of individual investments that represented 5 percent or more of the Plan's net assets available for benefits are separately identified (*):

	<u>2014</u>	<u>2013</u>
Collective Trust Fund		
Associated Banc Corp Growth Balanced Lifestage Fund	\$ 2,306,874 *	\$ 2,188,635 *

Goldman Sachs Financial Square Prime Obligations Fund	<u>115,411</u>	<u>113,199</u>
	<u>\$ 2,422,285</u>	<u>\$ 2,301,834</u>

During 2014 and 2013, the Plan's investment (including investments bought, sold and held during the year) in the collective trust fund appreciated by \$181,455 and \$379,527, respectively.

Interest realized on the Plan's money market mutual fund for the years ended 2014 and 2013 was \$682 and \$52, respectively.

Notes to Financial Statements

November 30, 2014 and 2013

Note 4: Accumulated Plan Benefits

An actuary from the H.C. Foster & Company determines the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of December 1, 2013, was as follows:

Actuarial present value of accumulated Plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 234,474
Other participants	1,613,758
	<u>1,848,232</u>
Nonvested benefits	<u>-</u>
Total actuarial present value of accumulated Plan benefits	<u>\$ 1,848,232</u>

Changes in the actuarial present value of accumulated Plan benefits for the year ended December 1, 2013, was as follows:

Actuarial present value of accumulated Plan benefits, beginning of year	<u>\$ 1,734,754</u>
Increase (decrease) during the year attributable to	
Change in actuarial assumptions	165,913
Benefits accumulated	23,504
Increase for interest due to the decrease in the discount period	112,003
Benefits paid	<u>(187,942)</u>
Net increase	<u>113,478</u>
Actuarial present value of accumulated Plan benefits, end of year	<u>\$ 1,848,232</u>

Gateway Packaging Company Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 2014 and 2013 – 7 percent
- Mortality basis: PPA 2010 Unisex Mortality Table for lump sum distributions
- Employee turnover: No turnover assumption is utilized
- Retirement: At normal retirement age (65)
- Asset valuation: Market

In October 2014, the Society of Actuaries released a new set of mortality tables and mortality improvement scales. The estimated impact to the accumulated plan benefits is an increase of approximately 5 percent.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

The investments are held by Associated Trust Company, N.A., the trustee of the Plan. The Plan invests in a collective trust fund of the trustee.

The Company provides certain administrative services at no cost to the Plan.

Note 6: Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets

Gateway Packaging Company Employee Pension Plan

Notes to Financial Statements

November 30, 2014 and 2013

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying Statements of Net Assets Available for Benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at November 30, 2014 and 2013:

		2014			
		Fair Value Measurements Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	Fair Value				
Money Market Mutual Fund	\$ 115,411	\$ 115,411	\$ -	\$ -	
Collective Trust Fund	2,306,874	-	2,306,874	-	
	<u>\$ 2,422,285</u>	<u>\$ 115,411</u>	<u>\$ 2,306,874</u>	<u>\$ -</u>	
		2013			
		Fair Value Measurements Using			
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	Fair Value				
Money Market Mutual Fund	\$ 113,199	\$ 113,199	\$ -	\$ -	
Collective Trust Fund	2,188,635	-	2,188,635	-	
	<u>\$ 2,301,834</u>	<u>\$ 113,199</u>	<u>\$ 2,188,635</u>	<u>\$ -</u>	

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying Statements of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended November 30, 2014. The Plan had no assets measured at fair value on a nonrecurring basis.

Employee Pension Plan
Notes to Financial Statements
November 30, 2014 and 2013

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy.

Note 7: Information Certified by the Trustee

The Trustee has certified the completeness and accuracy of certain information which management used in preparing the financial statements, supplemental schedules and accompanying notes. Accordingly, this information was not audited. The following is a summary of information provided by the Trustee:

- Investments as reported in the Statements of Net Assets Available for Benefits at November 30, 2014 and 2013
- Investment income as reported in the Statements of Changes in Net Assets Available for Benefits for the years ended November 30, 2014 and 2013
- Investments as reported in the Schedule of Assets (Held at End of Year) at November 30, 2014
- Investment transactions as reported in the Schedule of Reportable Transactions for the year ended November 30, 2014

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
