NOTES TO FINANCIAL STATEMENTS

1. Plan Description - Continued

Participants Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in this Company's contribution portion of their accounts in based on years of service. A participant becomes 20 percent vested after two years of service, 40 percent vested after three years of service, 60 percent vested after four years of service, 80 percent vested after five years of service and 100 percent vested after six years of service. However, if an active participant dies prior to attaining the normal retirement age or becomes permanently disabled, the participants account becomes 100 percent vested.

Certain participants may elect to receive installment payments or defer receiving payment until 70 1/2. Distributions are subject to applicable provisions of the Plan agreement.

NOTES TO FINANCIAL STATEMENTS

1. Plan Description - Continued

Participant Loans

Participants may borrow a minimum of $500 up to a maximum of $50,000 or 50 percent of the vested portion of their account balance, which ever is less. Loans are calculated on a fully amortized basis. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans. The loan balances generally must be repaid over five years. If the loan is used for the purchase of a primary residence, a longer repayment period may be granted.

Administrative Expenses

Expenses incurred in connection with the administration of the investments of the Plan are principally paid by the Plan; however, the Company may pay the Plan expenses directly.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or discontinue the Plan, at any time and to terminate the Plan subject to the provision of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Forfeitures

Forfeitures result from non-vested Company contributions and are available to offset Company cash contributions or to pay Plan expenses.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States.

2. Significant Accounting Policies - Continued

Investment Valuation and Income Recognition

The Plan's investments in pooled separate mutual fund accounts are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participants loans receivable are stated at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices from identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally or corroborated market data by correlation or other means.

2. Significant Accounting Policies - Continued

Fair Value Measurements - Continued

Level 3 - Unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Registered Investment Companies - Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Common and Collective Trust Funds - Shares of common and collective trust funds are valued at quoted prices for similar assets in active markets.

NOTES TO FINANCIAL STATEMENTS

2. Significant Accounting Policies - Continued

NOTES TO FINANCIAL STATEMENTS

2. Significant Accounting Policies - Continued

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options in any combination of funds offered by the Plan. These funds are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Date of Management's Review

Subsequent events were evaluated through August 13, 2015, which is the date the financial statements were available to be issued.

3. Investments and Investment Income (Loss)

The following investments at fair value have been certified by AXA Equitable Life, the trustee holding the assets at December 31, 2014:

Pooled Separate Accounts	$2,614,799
Mutual Funds	$565,636

NOTES TO FINANCIAL STATEMENTS

Net Investment (Loss) from Mutual Funds	13,443
Net Investment From Pooled Separate Accounts	180,817
Total Investment Income	$198,370

This information was not subjected to standard auditing procedures by the independent public accountants.

4. Related Transactions

Personnel and facilities of the Company have been used to perform administrative functions for the Plan at no charge to the Plan. Participant loans also qualify as party-in-interest transactions

5. Tax Status

The Internal Revenue Service has determined that the prototype plan, which was adopted by the employer, is designated in accordance with applicable section of the Internal Revenue Code (TRC). Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
