DESCRIPTION OF PLAN

The following description of the Datamark, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering employees of Datamark, Inc. (the Company) who have attained age twenty-one and completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – The Company may establish annual contributions at any level allowable under the provisions of the Internal Revenue Code, or may omit contribution at the Company's discretion. Additionally, each year participants may contribute up to 25 percent of pretax annual compensation, as defined in the Plan. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans. For the 2014 and 2013 Plan years, the Company made a matching contribution in an amount equal to 25% of each participant's total elective deferral up to 6% of each participant's compensation. There were no discretionary contributions made in 2014 or 2013. All contributions are invested according to the direction provided by the benefiting participant. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participant's contribution and the employer's matching contribution as well as an allocation of the Plan's earnings and administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from that participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is according to a graduated schedule based on years of service. Participants are fully vested in the Company's matching contributions after six years of service. Participants are fully vested in the Company's discretionary contributions after seven years of service.

Notes Receivable from Participants – Subject to limitations, a participant may borrow from the vested portion of his or her elective account. The minimum amount of any loan is $1,000 and the maximum amount is the lesser of one-half of their vested account balance or $50,000. Up to 50% of a participant's vested account balance may be used as collateral for any loan. Outstanding participant loans have interest rates ranging from 4.25% to 5.25%.

Investment Options – Participants may direct the investment of their accounts among any of 19 mutual fund accounts available under the contract with Principal Financial Group.

Participants may change their investment options by providing direction to Principal Financial Group, subject to certain limitations.

(Continued)

DESCRIPTION OF PLAN (Continued)

Payment of Benefits – On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) shall have a nonforfeitable right to receive the full amount available for distribution from their account. All distributions are paid in lump-sum amounts.

Forfeited Accounts – Forfeitures of the employer's contributions and earnings thereon resulting from participants leaving the Company prior to vesting are retained in a forfeiture account. Forfeitures of employer contributions may be applied first to the payment of plan administration expenses and then shall be applied to reduce the contributions of the employer. Forfeitures for the year ended December 31, 2014 were $12,036. During the year ended December 31, 2014, the Company has not utilized the balance in forfeitures available to reduce its matching contribution and/or Plan administration expenses.

Administrative Expenses – All reasonable expenses of maintaining the Plan may be paid from the assets of the Plan. The Company may, in its discretion, pay any or all of these expenses. For the year ended December 31, 2014, administrative expenses paid by the Plan consisted of the maintenance fee charged by the Trustee of the Plan. For the year ended December 31, 2014, administrative expenses amounted to $14,224, and were paid by the Plan.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Accounting Estimates – The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.

Purchase and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation incudes the Plan's gains and losses on investments bought and sold as well as held during the year.

(Continued)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits – Benefits are recorded when paid.

RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits.

LIMITED-SCOPE AUDIT

Pursuant to U.S. Department of Labor Rules and Regulations under the Employee Retirement Income Security Act of 1974, the Company has elected to have a limited-scope audit performed in lieu of a full-scope audit, the objective of which is to express an opinion on the financial statements taken as a whole. This scope limitation has been restricted to the investments and investment income of the Plan, which are in the custody of Principal Financial Group.

INCOME TAX STATUS

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the Internal Revenue Service. Plan management believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code. As of December 31, 2014, there were no uncertain tax positions. The Plan files a Form 5500. The Plan is no longer subject to U.S. federal and state income tax examinations by authorities for the years before December 31, 2011.

EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Principal Financial Group. Principal Financial Group is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FAIR VALUE MEASUREMENTS (Continued)

FASB ASC 820 (formerly SFAS No. 157) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. In general, fair value determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets the Plan has the ability to access for identical assets or liabilities. Fair value determined by Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices observable for the asset or liability, such as interest rate and yield curves observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

In instances in which the inputs used to measure fair value may fall into different levels of the fair value hierarchy, the level in the fair value hierarchy within which the fair value measurement in its entirety has been determined is based on the lowest level input significant to the fair value measurement in its entirety. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

	Fair Value Measurements Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)
December 31, 2014		
Mutual funds	$747,232	$747,232
Collective trust funds	117,637	117,637
Total	$864,869	$864,869
December 31, 2013		
Mutual funds	$790,072	$790,072

Total	$839,166	$839,166

Level 1 FAIR VALUE MEASUREMENTS
