A. DESCRIPTION OF PLAN:

The following description of the Bay Ridge Volvo American, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Bay Ridge Volvo American, Inc. (the "Company") covering substantially all employees who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute, on a pre-tax basis, up to 100% of their compensation, subject to Internal Revenue Code ("IRC") limitations. Participants who are at least age 50 may make an additional pre-tax “catch-up” contribution subject to IRC limitations. Participants may also contribute funds from another qualified plan (“rollover contributions”), subject to certain requirements.

The Company may make a discretionary matching contribution. The Company did not make a discretionary matching contribution for the year ended December 31, 2014. The Company may make a discretionary non-elective contribution. The Company did not make a discretionary non-elective for the year ended December 31, 2014.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, the participant’s allocation of the Company’s contributions, if any, and the participant’s proportional allocation of the Plan’s earnings, including realized and unrealized gains and losses, and expenses. Participants determine the percentage in which contributions are to be invested in each fund. Participants may change their investment options as set forth in the plan document.

Vesting

Participants are fully vested in that portion of their account which represents their contributions and the income earned thereon. Participants become 100% vested in the Company’s contributions and earnings thereon upon death, total and permanent disability, or attainment of normal retirement age. Otherwise, a participant’s interest in the Company’s contributions and earnings thereon vests according to the following schedule:

Completed Years of Service	Percent Vested
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account represents a forfeiture, as defined by the Plan. If a forfeiting participant is re-employed and fulfills certain requirements, as set forth in the Plan, the participant's account will be restored. Remaining forfeitures are first used to pay plan administrative expenses, and then used to reduce employer contributions. During 2014, no forfeitures were used to pay plan administrative expenses. Unallocated forfeitures at December 31, 2014 and 2013 were $9 and $9, respectively.

Payment of Benefits

The benefit to which a participant is entitled is equal to the value of the participant's vested interest in their account. Benefits may be distributed to participants upon termination of employment by reason of retirement, disability, death or other separation from service. Participants may elect a distribution in the form of a lump sum.

A participant may also request a withdrawal upon attainment of age $59^1/_2$ or upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate.

Notes Receivable from Participants

A participant may borrow an amount from $1,000 up to the lesser of $50,000 or 50% of the participant's vested account balance. Loans must bear a reasonable rate of interest. Loans are collateralized by the participant's nonforfeitable interest in the Plan and are supported by a promissory note. Loans must be repaid over a period not to exceed five years unless the loan proceeds are used for the purchase of a primary residence, in which case a longer repayment period is allowed. No more than two loans may be outstanding at any time. Participant loans are valued at the unpaid principal balance plus any accrued but unpaid interest and categorized as notes receivable from participants on the statements of net assets available for plan benefits. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan provides for various investment options which may invest in any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Expenses of the Plan

All expenses of administering the Plan may be paid by the Plan, unless paid by the plan sponsor. Substantially all expenses incurred in the administration of the Plan are paid by the plan sponsor. Certain loan fees are paid by plan participants to the custodian and record keeper.

Payment of Benefits

Benefits are recorded when paid.

C. INVESTMENTS:

The following presents investments as of December 31, 2014 or 2013 that represent 5% or more of the net assets available for plan benefits:

	2014		2013	
T.Rowe Price Retirement 2020 Fund	$ 468,880	*	$ 437,505	*
T.Rowe Price Retirement 2025 Fund	198,326	*	279,318	*
T.Rowe Price Retirement 2035 Fund	197,838	*	113,247	
MFS Conservative Allocation Fund	685,238	*	615,516	*
MFS Moderate Allocation Fund	724,135	*	695,363	*
Voya Fixed Account	425,269	*	369,338	*

* Represents 5% or more of net assets available for plan benefits.

During the year ended December 31, 2014, the Plan's pooled separate accounts (including investments bought, sold and held during the year) appreciated in value by $136,996.

D. FAIR VALUE MEASUREMENTS:

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are unobservable and supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts - Valued at the net asset value of units of a pooled separate account. The net asset value, as provided by the contract issuer, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

Insurance company general account – Valued at fair value by management by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note E). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, minimum crediting rate, duration or payout date) while others are substantiated utilizing available market data (for example, discount rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, and by major investment class the Plan's assets at fair value as of December 31:

	2014			
Description	Total	Level 1	Level 2	Level 3

Total	$ 3,544,790	$ -	$ 3,175,452	$ 369,338

Pooled separate accounts are valued daily, have daily redemption notice periods, and have no unfunded commitments. Investment strategies for the pooled separate accounts, by major investment class, are as follows:

(a) Growth pooled separate accounts invest primarily in undervalued funds that have sustainable earnings growth potential.
(b) Aggressive growth pooled separate accounts invest primarily in undervalued funds that
(c) Income pooled separate accounts seek high total return through long-term growth of current income.
(d) Growth and income pooled separate accounts invest in stocks with a positive reward to risk ratio and limited downside risk.

(e) Blend pooled separate accounts invest primarily in common stocks and preferred stocks, bonds, convertibles and cash, and conserve capital, earn income, and have long-term growth of both capital and income.
(f) Asset allocation pooled separate accounts combine fixed income and equity components to provide a combination of the stability of interest income and the growth potential of equity investments.

The table below sets forth a summary of changes in fair value of the Plan's level 3 investment assets for the year ended December 31, 2014:

	Voya Fixed Account

E. INVESTMENT CONTRACT WITH INSURANCE COMPANY:

The Plan has a benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company ("Voya"). Voya maintains the contributions in the Voya Fixed Account, a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Full surrenders from the Fixed Account can be paid by Voya in equal principal payments, with interest, over a period not to exceed 60 months, or a single payment adjusted by a market value adjustment. The market value adjustment is calculated considering the weighted average of certain Barclays Fixed Income Indices. This contract is not subject to a surrender charge.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2014	2013
Average yields:		
Based on actual earnings	1.00%	1.00%
Based on interest credited to participants	1.00%	1.00%

F. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and the management of investments held by the custodian are considered party-in-interest transactions.

G. TAX STATUS:

The Plan has adopted a prototype non-standardized profit sharing plan document, which received a favorable opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the opinion letter. However, the plan administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and is qualified as of the financial statement date. Additionally, the related trust is believed to be tax-exempt as of the financial statement date and, accordingly, no provision for income taxes has been recorded in the Plan's financial statements.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements. The Plan did not recognize any interest and penalty expense for the year ended December 31, 2014. The Form 5500 remains subject to examination by the IRS for the years ended December 31, 2011 through December 31, 2014.

H. COMPLIANCE AND ERISA:

The plan administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to the information certified by Voya Retirement Insurance and Annuity Company, formerly ING Life Insurance and Annuity Company, the custodian of the Plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedule. The custodian has certified as to the completeness and accuracy of the investments held by the Plan as of December 31, 2014 and 2013, the investment earnings and other

investment-related transactions of the Plan for the year ended December 31, 2014, and the information contained in the Schedule of Assets (Held at End of Year).

I. PLAN TERMINATION:

The Plan was established with the intention that it will continue indefinitely. However, the Company reserves the right to discontinue contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

J. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through August 19, 2015, the date these financial statements were available for issuance.

K. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

The following is a reconciliation of net assets available for plan benefits on the financial statements to the Form 5500 as of December 31:

	2014
Net assets available for plan benefits on the financial statements	$ 3,688,033
