NOTE 1: DESCRIPTION OF PLAN

Moss Motors Ltd. Flexplus Retirement Plan (the "Plan") is a defined contribution plan sponsored by Moss Motors, Ltd. (the "Company"). The following description of the Plan provides only general plan information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of the Company employed for one year who have attained age 18 and who have worked at least 1,000 hours. An employee who has met the eligibility requirements can enter the Plan only on January 1st and July 1st of each plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for the operation and administration of the Plan.

Contributions:

Participants may contribute a portion of their pretax earnings up to the maximum allowed by law. However, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. During 2014, the Company made a matching discretionary contribution of 50% of each participant's contributions that did not exceed 3% of compensation. Contributions are subject to certain statutory limitations.

An additional discretionary contribution may be made to the Plan by the Company, the amount of which is determined by the Company's Board of Directors. For the year ended December 31, 2014, the Company accrued a discretionary contribution in the amount of $100,000 that will be allocated in proportion of each eligible participant's compensation to total compensation of all participants. Eligible participants are those plan participants who were employed by the Company on the last day of the plan year and were eligible to enter the Plan. Participants direct the investment of these additional discretionary contributions into various investment options offered by the Plan.

Participant accounts:

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary matching and additional discretionary contribution, if any, Plan earnings, and an allocation of forfeitures of terminated participants' non-vested accounts, if any. Participant accounts are charged with an allocation of management fees that are paid by the Plan. Allocations are based on participant earnings and account balances, and specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1: DESCRIPTION OF PLAN (Continued)

Vesting:

Participants are immediately vested in their contributions and the Company's discretionary matching contributions plus actual earnings thereon. Vesting in the additional discretionary contributions made by the Company is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeited accounts:

Forfeited non-vested accounts are first used to pay any administrative expenses of the Plan. To the extent that forfeitures are not used to reduce administrative expenses, they are allocated among active participants who are eligible to receive an additional discretionary contribution in proportion of each participant's compensation to total compensation of all participants. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $3,365 and $4,145, respectively. During 2014, $4,145 which represents the full balance in the forfeited non-vested accounts at December 31, 2013, was allocated to all participants that were eligible to receive an additional discretionary contribution.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their account balance. Note receivable terms range from one to five years, or a reasonable period of time longer than five years but not to exceed ten years for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at rates charged by other lenders for similar types of loans. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service due to retirement, death, disability, or other reasons, a participant may elect to receive a lump-sum distribution or distribution in the form of an annuity, transfer the vested balance to a qualified plan, or leave the vested balance in the Plan. A participant becomes fully vested in their accrued benefits on termination of service due to death or disability.

Hardship withdrawals:

A participant may be permitted to withdraw a portion or all of the balance of their account that is attributable to the participant's deferred compensation and the Company's matching and discretionary contributions for the reasons specified by and to the extent permitted under regulations issued by the Internal Revenue Service.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value as certified by Fidelity Management Trust Company (the "Trustee"). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year. Purchases and sales of investments are recorded as reported by the Trustee. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit- responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts thorough a common collective fund. The statement of net assets available for benefits presents the fair value of investment contracts, which approximates their contract value.

Appreciation or depreciation in fair value:

Differences between the fair value of investments at the beginning of the year, or cost if acquired subsequently, and fair values at the end of the year are recorded as appreciation or depreciation in fair value of investments.

Payment of benefits:

Benefits are recorded when paid.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the note receivable to be in default, the note receivable balance is reduced and a benefit payment is recorded.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in management fees. Investment related expenses are included in net appreciation of fair value of investments.

Excess contribution payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants in July 2015.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan assets are held by the Trustee pursuant to the Trust Agreement which provides that all funds received by the Trustee shall be held, administered, invested and distributed by the Trustee, and that no part of the corpus or income shall be used for, or directed to, purposes other than for the exclusive benefit of participants or their beneficiaries.

The following information included in the accompanying financial statements and supplemental schedule was obtained or derived from data that has been supplied to the plan administrator and certified as complete and accurate by the Trustee at December 31, 2014 and 2013.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under fair value measurements are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The Plan primarily has investments in mutual and money market funds which are valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Investments in common collective trusts are valued based on the contractual terms of the underlying guaranteed investment contracts.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTE 6: TAX STATUS OF THE PLAN

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee and an affiliate of the Trustee. Therefore, transactions in these mutual funds qualify as party-in-interest transactions. The fair value of investments managed by the Trustee and its affiliate amounted to $9,892,551 and $9,509,435 as of December 31, 2014 and 2013, respectively.

Fees paid by the Plan for investment management services provided by the Trustee for the year ended December 31, 2014 amounted to $5,947.

Add: 2014 excess contributions payable	12,485
Net increase in assets available for benefits per Schedule H, Form 5500	$ 255,881

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Some of the Plan's assets are invested in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

NOTE 10: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

NOTE 11: SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 16, 2015, the date the financial statements were available to be issued. There were no subsequent events noted that would require adjustment to or disclosure in these financial statements.
