NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the S.E.A.L. Security (the "Company") 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, which was established in 1998, is a qualified defined contribution plan with a cash or deferred arrangement in accordance with the provisions of the Internal Revenue Code of 1986 (IRC), as amended by subsequent acts, and the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company has reserved the right to amend or discontinue the Plan at any time.

(b) Eligibility and Participant Contributions

The plan was amended on September 1, 2014 to allow for all employees except leased employees to be eligible for membership in the Plan. Each participant may elect to contribute from 1% to 90% of his or her compensation to the Plan, subject to the IRC limitation. Participants who have obtained age 50 before the end of the Plan year are eligible to make catch-up contributions. Prior to September 1, 2014, employees had to complete one year of service to be eligible for the Plan.

(c) Employer Contributions

The Company may elect to make an annual profit sharing contribution to the Plan. The amount of such contribution will be determined by the board of directors of the Company. To be eligible for a profit sharing contribution, employees must reach age 18 and have one year of service. Employer matching contributions are not permitted by the Plan.

(d) Excess Contributions

Contributions in excess of IRC limitations are refunded to the participants in the year the corrective refund is made. Such amounts are shown as a corrective distribution in the statement of changes in net assets available for benefits. There were no corrective distributions paid for the 2014 plan year.

(e) Participant Accounts and Vesting

Each participant has a fully vested interest in his or her elective deferrals and rollover contributions, plus or minus any earnings or losses, if any, and the Plan maintains a graduated vesting schedule for employer contributions, whereby all participants are fully vested after six years of service, or in the event of death, disability, or attainment of normal retirement age (65 years).

(continued)

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Each participant's account is credited with the participant's contribution and earnings thereon, the related company matching contributions, and earnings thereon, and allocations of the Company's discretionary profit sharing contribution, if any, and earnings thereon. Each participant's account is charged with an allocation of administrative expenses. Allocations are based on participant account balances as a percentage of total participants' account balances as specified in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(f) Hardship Withdrawals

The Plan permits for hardship withdrawals limited to the lesser of the amount required to meet the need created by the hardship or the participant's vested account balance. Permissible circumstances for hardship withdrawals include education, purchase of a principal residence, medical expenses, and to prevent foreclosure on a principal residence.

(g) Notes Receivable from Participants

A participant may borrow from his or her participant 401(k) account subject to certain further restrictions in the Plan. Loans must be for a minimum of $500 and will generally be limited to 50% of the participant's vested balance. All loans to participants, when added to the outstanding balance of all other loans from the Plan, will be limited to the lesser of $50,000 or 50% of the participant's vested balance, as defined in the plan document. Loans, together with the interest required to be paid thereon, must be repaid within five years unless they are used to acquire a principal residence, in which case, the repayment period will be within a reasonable time as determined at the time the loan is made. The interest rate on all existing loans in 2014 was 4.25%. All loans are secured by the participant's interest in his or her account balance.

(h) Payment of Benefits and Other Costs

Subject to certain restrictions in the Plan, on termination of service, a participant may elect to receive a lump-sum payment equal to the participant's vested account balance, or installments over a designated period not to exceed the joint life of the participant and his or her beneficiary, or the life expectancy of the participant.

Administrative expenses are primarily comprised of record keeping fees. These expenses are paid directly by the Plan. Other expenses related to the Plan are paid directly by the Company and are not reflected in the Plan's financial statements.

(i) Investment Options

The trustees of the Plan determine and approve investment options set up for the Plan. Upon enrollment in the Plan, a participant can direct contribution into various investment options offered by the Plan. The Plan's assets are held in trust. The trustee invests monies according to participant directions.

(continued)

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

(j) Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(k) Forfeiture Credits

Forfeiture credits represent amounts forfeited by participants who terminate their participation prior to full vesting. These amounts may be allocated to other participants or used against administrative expenses of the Plan. For the year ended December 31, 2014, there were no forfeitures. There were no unapplied forfeiture credits at December 31, 2014 and 2013.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting; consequently, certain items, principally employee contributions and accrued interest and dividends, are recognized in the determination of additions to, and deductions from, net assets available for plan benefits in different reporting periods than they would be if the financial statements were prepared in conformity with accounting principles generally accepted in the United States of America. Investments are stated at fair value based on quoted market prices which is a modification of the cash basis method of accounting, whereby investments would be stated at their original cost. Additionally, interest on participant loans is accrued and added to the principal balance.

(b) Investments

Investments held at December 31, 2014 and 2013 in mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements. Interest and dividends are recorded when paid. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of these investments.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

(continued)

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Accounting Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingencies, if any, at the date of the financial statements and the reported amounts of additions and deductions from net assets available for plan benefits during the year then ended. Actual results could differ from those estimates.

(e) Subsequent Events

The Plan has evaluated subsequent events after December 31, 2014 through September 2, 2015, the date that the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY CUSTODIAN

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Based on the observability inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- Level 1 - Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 - Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.
- Level 3 - Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds - Valued at the closing price reported in the active market in which the security is traded.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no transfers between Levels 1 and 2 during the years ended December 31, 2014 and 2013.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013. There have been no changes in the methodology used at December 31, 2014 and 2013:

	Fair Value as of December 31, 2014

NOTE 5 - TAX STATUS

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated January 31, 2006, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the IRC, and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 6 - RELATED PARTY TRANSACTIONS

Personnel and facilities of the plan administrator have been provided to the Plan at no charge. Certain investments of the Plan are investment products sold by the plan custodian, Nationwide. Fees paid to Nationwide for the year ended December 31, 2014 amounted to approximately $21,000.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
