NOTE 1 – PLAN DESCRIPTION

The following description of Great Southwestern Construction, Inc. Hourly Field Employees' Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan's Summary Plan Description ("SPD") for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

General

Great Southwestern Construction, Inc. (the "Company") is a wholly owned subsidiary of MYR Group, Inc., a publicly traded electrical construction company headquartered in Rolling Meadows, Illinois.

Eligibility

Employees of the Company are eligible to participate in the Plan if the employee is a regular full-time, hourly field employee of the Company or if the employee was a prior plan participant and is rehired. Part-time employees are eligible to participate upon completion of 1,000 hours during the first year of employment or during any calendar year commencing after the date of hire. An employee may not participate in the Plan if they are a temporary employee, a leased employee, a contract worker, covered under a collective bargaining agreement that does not provide for participation in the Plan, or covered by a multi-employer pension plan to which the Company makes contributions.

Contributions

Participants may contribute from 1 to 75 percent (in 1 percent increments) of their wages to the Plan. Unless a participant is eligible for and has applied to make catch-up contributions, the employee contributions will automatically stop when they reach the contribution limit for the year based on the current Internal Revenue Code ("IRC") requirements. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a safe harbor dollar for dollar matching contribution up to a maximum of 4 percent of the participant's eligible wages. Contributions are calculated for each payroll period and payment is made within a reasonable time after each payroll period. The Company also makes a dollar for dollar Supplemental Matching Contribution for deferral amounts in excess of 4 percent up to 6 percent of a participant's wages for each pay period of the Plan year. In April 2013, the Company matching contributions began to be transmitted on a weekly basis.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Safe Harbor Matching Contributions, the Supplemental Matching Contribution and allocation of the Plan earnings. Allocations are based on participant contributions, base wages or account balances, as defined. Each account maintained

for a participant reflects their value for each investment held. All income, gain or loss attributable to the investment of the balance of any account maintained for a participant is recorded to that account.

Vesting and Forfeitures

Participants are immediately vested in their Employee Before-Tax Account, Roth Account, Safe Harbor Match Account, Rollover Account, Company Safe Harbor Account, Company Contribution Account, Pension Plan Account and Pre-2006 After-Tax Contribution Account and any other employee contribution account. The amounts held in the Supplemental Match Account vest based on years of service. A year of service is any Plan Year in which an employee completes 1,000 hours of service. A participant becomes 20 percent vested after one year of service, 40 percent vested after two years of service, 60 percent vested after three years of service, 80 percent vested after four years of service and 100 percent vested after five years of service. However, if an active participant dies, becomes permanently disabled prior to attaining the normal retirement age, or reaches age 65, the participant's account becomes 100 percent vested.

The nonvested portion of the employer contributions for all terminated employees may be used to reduce subsequent employer contributions. In 2014, $6,511 of forfeitures was used to reduce employer contributions. The forfeitures balance as of December 31, 2014 and 2013 was $118 and $4,601, respectively.

Payment of Benefits

A terminated employee may elect to receive the value of his or her account in the form of a single sum payment, a partial payment, a direct rollover or a distribution in the form of an annuity if such total account balance exceeds $5,000. Account balances below $5,000 will be automatically distributed to the participant. If the Account balance is between $1,000 to $5,000 the balance will be automatically rolled into an IRA on behalf of the participant. If the account balance does not exceed $1,000, the account balance will automatically be distributed to the participant in a lump sum payment. Active employees may make withdrawals from the Plan under certain circumstances. Distributions are subject to the applicable provisions of the Plan agreement. Benefit claims are recognized as deductions from the Plan when they have been approved for payment and paid.

Notes Receivable from Participants

Loans made to a participant from his or her Accounts must be for a minimum of $1,000. Loan amounts may not exceed the lesser of $50,000 or 50 percent of a participant's account balance, less outstanding balances of any other loans with the Plan. A loan is secured by the balance in the participant's account and bears interest at the Prime rate published in the Wall Street Journal on the first business day of each month, plus 1 percent. The interest rates ranged from 4.25% to 6.00% at December 31, 2014 and 2013. Loans are generally to be repaid within five years unless the loan is for the purchase of a principal residence.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Method of Accounting

The Plan's financial statements are prepared on a modified cash basis of accounting. Contributions are not recognized until received.

Asset Valuation and Income Recognition

The amount shown herein as the investment in the MYR Group, Inc. Plan Trust (the "Trust") as of December 31, 2014 and 2013 reflects the fair value of the assets held in such Trust and the Plan's relative interest in the Trust as certified by Great-West Financial Retirement Plan Services, LLC (successor to J.P. Morgan Chase Bank, N.A.) (the "Trustee"). For the year ended December 31, 2014 the Plan's participation is measured at its fair value at the beginning of the valuation period plus net external cash flow (contributions, distributions, etc.) experienced by the Plan during the valuation period. Investment income, net realized gain (loss) on investments and net unrealized appreciation (depreciation) of investments are allocated to each participating plan based upon its accumulated monthly balance for each investment option.

Notes receivable from Plan participants represent participant loans and are measured as their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Repayments of principal and interest are recognized in the period in which payroll deductions are processed. The Company has deemed distributions $40,694 and $31,790 for defaulted participant loans as of December 31, 2014 and 2013, respectively. The 2014 amount is included in benefit payments on the statement of changes in net assets available for benefits – modified cash basis for the year ended December 31, 2014.

The Trust records purchases and sales of securities on a trade-date basis. Net investment gains from the Plan's interest in the Trust records all interest, dividends and appreciation of investments for the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Trust's gains and losses on investments bought and sold as well as held during the year.

In accordance with the Plan Accounting – Defined Contribution Pension Plans Topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts held in the Stable Value Fund of the Trust as well as the adjustment of the fully benefit-

responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits
Benefit payments are recorded when paid.

Administrative Expenses
Expenses for the administration of the Plan are paid for by the Plan.

Use of Estimates
The preparation of financial statements in conformity with the modified cash basis of accounting requires the administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events
The Plan has evaluated subsequent events through September 15, 2015, the date the financial statements were available to be issued.

Recently Issued Accounting Standards
In July 2015, the FASB issued an accounting standards update which:

a) requires that fully benefit-responsive investment contracts be measured, presented and disclosed only at contract value.
b) eliminates:
    i. the need to disaggregate the investments in accordance with the Fair Value Measurements topic of the FASB ASC, and requires disaggregation based only on general type,
    ii. the requirement to disclose individual investments that represent 5% or more of the net assets available for benefits
    iii. the requirement to disclose net appreciation disaggregated by general investment type
c) provides a practical expedient to permit plans to measure investments and investment related accounts as of a month-end date that is closest to the plans' fiscal year end, when the fiscal year period does not coincide with a month end.

In May 2015, the FASB issued an accounting standards update which removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient.

These standards updates are effective for fiscal years beginning after December 15, 2015, with early adoption permitted. The adoption of these standards updates is not expected to have a material impact on the Plan's financial statements.

NOTE 3 – CERTIFIED INVESTMENT INFORMATION

Fair Value Measures

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Trust uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 - Observable inputs such as quoted prices in active markets;
- Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 - Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

Money market funds: Valued at the closing price reported on the active market on which the individual securities are traded held by the Trust at year end.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded held by the Trust at year end.

Common collective trusts: Valued at the trust's net asset value, which is based on the underlying investments traded on the active or inactive markets held by the Trust at year end. Investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

Participant managed accounts: Valued at the closing price reported on the active market on which the underlying securities are traded held by the Trust at year end.

The following tables set forth, by level within the fair value hierarchy, the fair value of the investments held in the Trust as of December 31:

NOTE 5 – INVESTMENT CONTRACTS

An investment under the Trust is the Stable Value Fund, which has entered into benefit-responsive guaranteed investment contracts and wrapper contracts with various financial institutions. The financial institutions maintain the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

As described in Note 2, because the guaranteed investment contracts held by the Trust are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Trust by the manager of the Stable Value Fund, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers.

The Stable Value Fund has purchased wrapper contracts from the financial institutions. The wrapper contracts amortize the realized and unrealized gains and losses on the underlying fixed income

investments, typically over the duration of the investments, through adjustments to the future interest crediting rate (which is the rate earned by participants in the fund for underlying investments). The issuers of the wrapper contracts provide assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include termination of the Plan, a material adverse change to the provisions of the Plan, if the Trust elects to withdraw from a wrapper contract in order to switch to a different investment provider, or if the terms of a successor plan (in the event of the spin-off or sale of a division) do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract. The events described above that could result in the payment of benefits at market value rather than contract values are not probable of occurring in the foreseeable future.

The wrapper contracts do not permit the issuers to terminate the contracts unless the Plan loses its qualified status, has incurred material breaches of responsibilities, or material and adverse changes occur to the provisions of the Plan.

Average yields for the Trust are as follows:	2014	2013
Based on actual earnings	1.40%	1.36%
Based on interest rate credited to participants	1.64%	1.52%

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 – RISKS AND UNCERTAINTIES

The various investment options are in professionally managed funds that purchase stocks and bonds of publicly traded companies, U.S. Government obligations as well as money market funds. Such investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 8 – TAX STATUS

The Plan obtained its latest determination letter on September 19, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter; however, the Plan's management believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013 and for the year ended December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan files the United States Federal Form 5500 annually.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by J.P. Morgan Chase & Co., formerly a related company to the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees are paid by the Trust for asset custody and management to parties-in-interest.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

NOTE 11 – TRANSFERS

During the year ended December 31, 2014, certain Plan participants who work for the Company changed their compensation arrangement from an hourly compensation arrangement to a salary compensation arrangement causing those individuals to cease participation under the Plan and become participants of the Diversified Holdings Group Employee Savings Plan ("DHG Plan"). As a result, their account balances were transferred from the Plan to the DHG Plan. Assets transferred from the Plan during 2014 amounted to $177,602.

During the year ended December 31, 2014, certain Plan participants who work for the Company changed their compensation arrangement from a salary compensation arrangement to an hourly compensation arrangement causing those individuals to cease participation under the DHG Plan and become participants of the Plan. As a result, their account balances were transferred from the DHG Plan to the Plan. Assets transferred to the Plan during 2014 amounted to $429.
