Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Transamerica Life Insurance Company and Fidelity Management Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2013 through May 14, 2013, and that Transamerica Life Insurance Company held the Plan's investments and executed investment transactions as of December 31, 2014 and 2013, and for the period May 15, 2013 to December 31, 2014. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2014, and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With the Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust

Notes to Financial Statements

Note 1 Plan Description

The following description of Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Skyline Technologies, Inc. (the "Company") who meet certain eligibility requirements. Effective March 26, 2013, employees became eligible to make participant contributions and to receive company discretionary matching contributions on the first day of the month following completion of two months of service and reaching the age of 21. Participants who are eligible to make participant contributions and receive matching contributions are also eligible to receive company discretionary profit sharing contributions if they complete at least 1,000 hours of service within the plan year and are employed on the last day of the plan year. Prior to March 26, 2013, there was no two-month service requirement for participant, matching, or profit sharing contributions. Management of the Company is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Effective March 26, 2013, participants are allowed to contribute up to 100% of annual compensation, as defined by the Plan, subject to limits established by the Internal Revenue Service (IRS). Prior to March 26, 2013, participant contributions were limited to 60% of annual compensation. Effective May 1, 2013, an eligible participant will be deemed to have made a deferral election of 6% of annual compensation if no election is made. The Plan allows participants to roll over distributions from other qualified retirement plans. Participants who have attained age 50 before the end of the plan year are also eligible to make catch-up contributions. The Company has the ability to make discretionary contributions to the Plan. The Company made a discretionary matching contribution equal to 30% of the first 10% of a participant's contribution into the Plan. Rollover contributions are not matched. In addition, the Company has the option of making a discretionary profit sharing contribution each year. No profit sharing contributions were made during 2014 and 2013.

Note 1 Plan Description (Continued)

Participant Accounts

All investments in the participants' accounts are participant directed. The Plan allows participants to select from a variety of investment options. Prior to May 15, 2013, this included a money market fund and various mutual funds. With the switch in trustees effective May 15, 2013, the Plan subsequently allowed participants to select from a variety of pooled separate accounts as well as a stable value fund as investment options.

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings or losses and is reduced by withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their elective contributions, rollover contributions, and actual earnings thereon. Effective February 1, 2013, participants are also 100% vested in the Company's discretionary contributions plus actual earnings thereon. Prior to February 1, 2013, the Company's discretionary contributions vested at a rate of 25% with each year of credited service, becoming fully vested after four years of credited service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Note terms may not exceed five years unless the note proceeds are used to purchase a primary residence. A participant may have only one note outstanding at a time, and notes cannot be refinanced. The notes are secured by the balance in the participant's account or other security if the loan is for the purchase of a primary residence. The notes bear a fixed rate of interest commensurate with the local prevailing rates at the time the note was issued. Interest rates on existing notes ranged from 3.25% to 4.25% at December 31, 2014. Principal and interest are paid through payroll deductions.

Note 1 Plan Description (Continued)

Payment of Benefits

Plan benefits are available at normal retirement (age 65), disability retirement, death, or termination of employment with vested interests. In-service distributions are permitted when a participant reaches age 59 1/2. Benefits are paid in a lump sum distribution. Hardship distributions are also available to participants who have incurred a hardship in accordance with the plan document. In addition, participants may withdraw funds from their rollover contributions account at any time. Distributions will be made as soon as administratively feasible.

Forfeited Accounts

Prior to February 1, 2013, plan forfeitures arose as the result of participants terminating service with the Company before becoming 100% vested in company contributions. Forfeitures were used to pay plan expenses or reduce the Company's contributions. At December 31, 2014 and 2013, there was no forfeited nonvested account balance. No forfeitures were used during 2014. In 2013, \$9,134 of forfeitures was used to reduce discretionary matching contributions.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust

Notes to Financial Statements

Note 2 **Summary of Significant Accounting Policies** (Continued)

Basis of Accounting (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Transamerica Stable Value Core Fund. The statements of net assets available for benefits present the fair value of the investment in this fund, which approximates contract value and, therefore, the adjustment of the investment in this fund from fair value to contract value relating to the investment contracts is not considered necessary. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of Estimates

The preparation of the accompanying financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the investment advisor and the trustees of the Plan. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust

Notes to Financial Statements

Note 2 **Summary of Significant Accounting Policies** (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make note repayments and the trustee deems the note to be in default, the note balance is reduced and a benefit payment is recorded upon the occurrence of a distributable event.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain third-party administrative service fees, audit fees, and investment advisor fees are paid out of plan assets. Fees related to the administration and maintenance of notes receivable from participants, as well as distributions fees, are charged directly to the participant's account and are included in administrative expenses. Certain investment-related expenses are included in net appreciation in fair value of investments. All other expenses are paid by the Company.

Starting May 15, 2013, the Plan receives a monthly service fee credit based on the account balance and other demographics of the Plan. These credits totaled \$54,240 and \$28,249 for 2014 and 2013, respectively, and are included in net appreciation in fair value of investments on the accompanying statements of changes in net assets available for benefits. No service fee credits were included in investments on the statement of net assets available for benefits at December 31, 2014. At December 31, 2013, \$18,059 of service fee credits were included in investments on the statement of net assets available for benefits. These service fee credits are first used to pay plan expenses with any remaining credits at year-end being allocated to participants. For 2014 and 2013, \$50,471 and \$10,190, respectively, of service fee credits were used to pay plan expenses. For 2014, \$21,837 of service fee credits were allocated to participants. No service fee credits were allocated to participants during 2013.

Note 3 Investments (Continued)

During the years ended December 31, 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold as well as those held during the year) appreciated in value as follows:

	2014	2013
Mutual funds	\$0	\$913,060
Pooled separate accounts	687,022	1,174,539
Stable value fund	56,583	30,261
Net appreciation	\$743,605	\$2,117,860

Note 4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets.
 - Quoted prices for identical or similar assets or liabilities in inactive markets.
 - Inputs other than quoted prices that are observable for the asset or liability.

Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Stable value fund: Value is derived from contract provisions and, therefore, contract value approximates fair value.

Pooled separate accounts: Valued at the latest quoted net asset value (NAV) of units held by the Plan as obtained by an insurance company. The NAV of each of the separate accounts is calculated in a manner consistent with GAAP for investment companies and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or domestic equity securities. Some of the separate accounts also invest in fixed maturity securities. The fair value of the underlying funds and securities is used to determine the NAV of the separate account, which is not publicly quoted. The fair value of the underlying mutual funds and equity securities is based on quoted prices in active markets for identical assets. The fair value of the underlying fixed maturity securities is based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust

Notes to Financial Statements

Note 4 Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

*The fair value of the investment has been established using the NAV of the investment.

(a) The fund investment seeks long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment advisor believes have the potential for growth. Growth stocks are stocks that the investment advisor believes have the potential for above-average capital appreciation. It normally invests at least 80% of net assets in securities of issuers in Europe and the Pacific Basin. The fund may invest a portion of its assets in common stocks and other securities of companies in countries with developing economies and/or markets.

- (b) The fund investment seeks long-term growth of capital and income. The fund invests primarily in common stocks of companies that appear to offer superior opportunities for capital growth and, most of which, have a history of paying dividends. It may invest significantly in securities of issuers domiciled outside the United States.
- (c) The fund investment seeks long-term growth of capital; future income is a secondary objective. The fund seeks to take advantage of investment opportunities generated by changes in international trade patterns and economic and political relationships by investing in common stocks of companies located around the world. In pursuing its primary investment objective, it invests primarily in common stocks that the investment advisor believes have the potential for growth. In pursuing its secondary objective, the fund invests in common stocks of companies with the potential to pay dividends in the future.
- (d) The fund investment seeks long-term total return and current income. The fund seeks to achieve its objective by investing primarily in a diversified portfolio of equity securities. Under normal circumstances, it will invest at least 80% of its assets in equity securities and at least 80% of its assets in dividend-paying securities. The fund may invest in securities of companies with any market capitalization but will generally focus on large-cap securities. It may also invest in convertible securities and nonconvertible preferred stock. The fund may invest up to 25% of its total assets in securities of foreign issuers.

Note 5 Net Asset Value Per Unit (Continued)

- (e) The fund investment seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI ACWI ex-USA Index (the "Index") over the long term. The fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The fund's returns may vary from the returns of the Index. From time to time, SSgA may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index.
- (f) The fund investment seeks to match the performance of the S&P 500[®] Index by investing in stocks that make up the index. The S&P 500[®] Index, considered a large-capitalization benchmark, consists of a sample of leading U.S. companies in leading industries and accounts for more than 75% of the market value of all publicly traded stocks in the United States. Investing in large-capitalization stocks is the most efficient way to participate in earnings from large U.S. companies. These stocks have the potential for more stable earnings than small- or mid-capitalization stocks, and their prices tend to be less volatile. This fund is intended for long-term investors seeking to capture the earnings and growth potential of large U.S. companies.
- (g) The fund investment seeks long-term capital growth through investment in stocks. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in the common stock of a diversified group of growth companies. It generally seeks investments in stocks of large-capitalization companies. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives. It may sell securities for a variety of reasons such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

Note 6 **Information Certified by Plan Trustees**

The plan administrator has elected the method of annual reporting compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's trustees, Transamerica Life Insurance Company from May 15, 2013 to December 31, 2014, and Fidelity Management Trust Company from January 1, 2013 to May 14, 2013, have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- (a) Investments, as shown in the statements of net assets available for benefits.
- (b) Net appreciation in fair value of investments and interest and dividends, excluding interest income on notes receivable from participants for the period May 15, 2013 to December 31, 2014, as shown in the statements of changes in net assets available for benefits.
- (c) Investment information as disclosed in Note 3 and on Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

Note 6 **Information Certified by Plan Trustees** (Continued)

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 7 **Party-in-Interest Transactions**

Certain plan investments were units of a money market fund and mutual funds managed by Fidelity Management Trust Company, the trustee, as defined by the Plan through May 14, 2013.

In addition, certain plan investments are units of pooled separate accounts and a stable value fund managed by Transamerica Life Insurance Company, the trustee, as defined by the Plan starting May 15, 2013. Therefore, these transactions qualify as party-in-interest transactions. Oarsman Capital, Inc. serves as an investment advisor for the Plan and, therefore, fees paid to Oarsman Capital, Inc. qualify as party-in-interest transactions. Fees paid by the Plan to the trustees for administrative expenses and the investment advisor for investment advisory services amounted to \$37,018 and \$15,033 for the years ended December 31, 2014 and 2013, respectively. Certain investment-related fees are included in net appreciation in fair value of investments since they are paid through revenue sharing rather than a direct payment.

The Plan paid audit fees to Wipfli LLP in the amount of \$18,500 for the year ended December 31, 2014, which qualifies as a party-in-interest transaction exempt from the prohibited transaction rules of ERISA.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Skyline Technologies, Inc. 401(k) & Profit Sharing Plan & Trust

Notes to Financial Statements

Note 8 Prohibited Transaction

Under DOL Reg. 2510.3-102(b), the Company is required to remit employee contributions to the Plan at the earliest date such amounts can be reasonably segregated from the Company's general assets, but no later than the 15th business day of the month following the date that participant contributions are withheld by the Company. As reported on Schedule H, Line 4a - Schedule of Delinquent Participant Contributions, certain contributions for payrolls during the plan year ended December 31, 2014, totaling \$231, were not remitted within the 15-day requirement. This transaction constitutes a prohibited transaction as defined by ERISA and was corrected during the 2014 plan year. No prohibited transactions were noted for the 2013 plan year.

Note 9 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the assets of the Plan would be distributed in accordance with plan provisions.

Note 10 Tax Status

On March 16, 2010, the IRS declared the prototype used by the Plan is qualified pursuant to Section 401 of the Internal Revenue Code. Plan management believes any amendments and events since the effective date of the last IRS determination letter do not affect the qualified status of the Plan. Accordingly, the Plan is exempt from federal and state income taxes under current provisions of their respective laws.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

Note 11 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
