MEISTER MEDIA WORLDWIDE PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid directly by Meister Media Worldwide, Inc. (the "Company") and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events – The Company has evaluated subsequent events through September 18, 2015, the date the financial statements were available to be issued.

Note 2. Plan Description

The following is a summary of certain provisions of the Plan. Participants should refer to the Plan agreement for more complete information.

General – The Plan is a defined contribution plan, established December 31, 1958, covering all employees of the Company who meet the minimum service requirements. Employees are eligible to participate in the Plan on the first of every month after attaining three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is sponsored and administered by the Company.

Contributions – Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan, subject to certain limitations of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan, including a self-directed option. Participants can invest in equities, fixed income instruments, registered investment companies, and cash equivalents held in a brokerage account under the self-direction option. During 2014 and 2013, the Company made safe harbor non-elective employer contributions to the Plan of 3%. The Company may make additional non-elective employer contributions at the Company's discretion, but no additional contributions were made during 2014 or 2013.

Note 2. Plan Description (Continued)

Participant Accounts – Each participant's account is credited with the participant's contribution and the Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with certain transaction fees and other administrative expenses are paid by the Sponsor. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are at all times vested in their elective and voluntary contributions, as well as safe harbor non-elective employer contributions, and earnings thereon. Participants vest in additional employer contributions over a six year graduated schedule of 20% vesting beginning after the second year of service.

Payment of Benefits – A participant, upon retirement, termination, disability, or the attainment of age 59½ or a participant's beneficiary upon the participant's death, may elect to either roll over the funds or receive a lump-sum amount equal to the value of his or her account, or receive an annuity. The Plan allows for in-service distributions prior to the participant's normal retirement age. In the case of a severe financial hardship, the Administrator, in its sole discretion, may direct distribution of all or a portion of the participant's account, subject to certain restrictions.

Forfeitures – At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$18,850 and \$19,288, respectively. These accounts will be used to reduce future employer contributions.

Note 3. Unaudited Information (Continued)

Changes in net assets not audited include the following:

	<u>2014</u>	<u>2013</u>
Interest and dividends	\$449,153	\$358,616
Net appreciation in fair value of investments:		
Registered investment companies	(105,704)	552,212
Participant-directed brokerage accounts:		
Equities and other	239,893	481,400
Registered investment companies	(36,092)	38,718
Corporate bonds	10,164	(15,823)

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities.
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data. Includes corporate bonds, which are based on market values for investments with similar ratings and maturity dates.
- Level 3 – Unobservable inputs in which little or no market data exists.

The following is a description of the valuation methodologies used for plan assets measured at fair value:

- Investments in the participant-directed brokerage accounts consist of common stock, preferred stock, cash equivalents, and corporate bonds. The fair values of common stock, preferred stock, and cash equivalents are determined based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1. The fair values of corporate bonds are determined based on market values for investments with similar ratings and maturity dates, and are classified as Level 2.
- The fair values of registered investment companies are determined based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2013 to 2014. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of funds managed by Fidelity Investments. The Plan also pays certain administrative fees to Fidelity Management Trust Company ("Fidelity"). Fidelity is the Trustee, as defined by the Plan, therefore, these transactions qualify as party-in-interest. The Plan paid \$475 and \$550 in fees to Fidelity during 2014 and 2013, respectively.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 7. Income Tax Status

The prototype on which the Plan is based obtained a determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2014, the Plan's tax years from 2011 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note 8. Risk and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
