KMCO 401(k) Plan
December 31, 2014 and 2013

Note A – Description of the plan

The following brief description of the KMCO 401(k) Plan (“the Plan”) is provided for general information purposes only. The Plan is sponsored by KMCO, LLC and certain of its related entities (collectively referred to as the “Plan Sponsor” or “Company”). Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan that provides retirement savings benefits to eligible employees of the Company through tax deferred voluntary contributions by employees and matching and discretionary profit sharing contributions by the Company. The Plan, which commenced effective July 1, 2012 and was amended and restated effective January 1, 2014, covers substantially all employees of the Company. Participation in the Plan is voluntary. Employees are eligible to participate in the Plan after the completion of one month (30 days) of service. An employee’s entry date is the first day of the first payroll period following the date they satisfy the eligibility requirements. Excluded from the class of eligible employees are union employees and certain nonresident aliens. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (“IRC”). The Company is the designated administrator of the Plan and MassMutual is the Trustee/Custodian of the Plan responsible for the management and control of the Plan’s assets which are held in individual participant investment accounts.

Plan Amendments

Effective January 1, 2014, the plan was amended and restated to redefine the time period for computing the employer matching contribution. The Plan Sponsor will make matching contributions equal to 50% of the participant’s contributions up to 6% of each participant’s eligible compensation. For purposes of computing employer matching contributions, compensation and deferrals are computed each payroll period as opposed to the plan year.

Participant accounts

Each participant’s account is credited with the participant’s contributions and allocations of (a) employer matching and discretionary profit sharing contributions and (b) Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Employee contributions

Participants may elect to contribute up to the maximum amount allowed for deferral under the IRC. The amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan. All new participants are automatically enrolled in the Plan with a pretax contribution by the participant of 6% of their eligible annual compensation unless otherwise elected. Participants who have attained age fifty (50) or older before the end of the tax year are eligible to make catch-up contributions up to the maximum amount allowed for deferral under the IRC. Participants may also designate all or a portion of their elective deferrals as Roth elective deferrals. Participants may discontinue their election to contribute at any time. Transfers from qualified plans are allowed under the provisions of the Plan. Additional after-tax voluntary contributions are not permitted.

The Plan also provides for a special deferral election that applies only to bonuses and does not affect the existing elections for all other Plan compensation.

December 31, 2014 and 2013

Employer contributions

The Company may, at its discretion, make matching contributions to the Plan. During 2014 and 2013, the Company matched 50% of the first 6% of the participants' eligible compensation contributed to the plan for a total of \$554,204 and \$454,305, respectively.

Additionally, each Plan year the Company may make discretionary profit sharing contributions in amounts determined by the Company. Discretionary profit sharing contributions are allocated to eligible participants based upon a discretionary percentage of the participant's compensation or a discretionary dollar amount. Eligible participants who are employed on the last day of the Plan year share in employer discretionary profit sharing contributions. During 2014 and 2013, the Company contributed \$512,865 and \$454,305, respectively, in discretionary profit sharing contributions.

ERISA and the IRC provide that plans such as the KMCO, Inc. 401(k) Plan cannot discriminate in favor of highly compensated individuals. To comply with these laws, certain highly compensated individuals may receive funds in the year that contributions were made in excess of the IRC Section 401(k) limit and all earnings attributable to such contributions. At December 31, 2014 and 2013, there were no corrective distributions payable to participants.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers investments in pooled separate accounts. Participants may change their investment mix during the year and such changes are subject to the restrictions made by the Company.

Vesting

Participants are fully vested in their employee contributions including rollovers plus actual earnings (losses) thereon. Vesting in the Company contributions and earnings thereon is based on years of service. A year of service is defined as 1,000 hours of service during any plan year. Additionally, a participant will become fully vested in the Company's contributions account upon reaching normal or early retirement age or in the event of death or total and permanent disability.

The vesting schedule for Company matching and discretionary profit sharing contributions is determined as follows:

<u>Years of Service:</u>	<u>Percentage</u>
Less than 1	0%
1	15%
2	30%
3	45%
4	60%
5	80%
6	100%

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will first be used to pay administrative expenses of the Plan. Any remaining amounts will be used to reduce future employer matching and discretionary profit sharing contributions for the Plan year. As of December 31, 2014 and 2013, the unallocated forfeiture balance was \$90,809 and \$14,827, respectively. The entire unallocated forfeiture balance was used to offset the employer discretionary matching contribution that was funded into the plan in 2015.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their account balance, whichever is less. No more than one (1) loan can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 5.25%, which were commensurate with local prevailing rates at the time the loans were initiated. Principal and interest is paid ratably through payroll deductions. All loans must be repaid within five (5) years, unless the loan is used to purchase a primary residence, for which loan terms may range up to fifteen (15) years.

Payment of Benefits

On termination of employment, disability, death, or normal retirement, a participant or designated beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested account balance, a direct rollover distribution to another plan which qualifies under section 401(a) of the IRC, or a combination of a cash distribution and direct rollover distribution. Participants may defer receipt of distribution until a later date unless their account balance is \$5,000 or less. If the vested account balance is \$5,000 or less, the Company will direct the Custodian that any amount exceeding \$1,000 be distributed to the participant, without consent, into an IRA for their benefit.

If an active participant has attained age fifty-nine and one-half (59½), they may elect to withdraw all or a portion of their account while still employed by the Company. Hardship distributions are available to participants who demonstrate an immediate and heavy financial need. In accordance with Internal Revenue Service ("IRS") regulations, participants must exhaust all other assets reasonably available to them prior to obtaining a hardship withdrawal. Participant's deferral contributions to the Plan will be suspended for six (6) months after the receipt of the hardship distribution.

Administrative Expenses

The Plan permits the payment of expenses incurred in connection with the administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Substantially all other costs of administering the Plan, including professional and other expenses, are paid by the Company. Administrative expenses totaled \$8,830 and \$8,638 for the years ended December 31, 2014 and 2013, respectively.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Accordingly, actual results may differ from those estimates.

Recent Accounting Pronouncements

In April 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2013-07, *Presentation of Financial Statements (Topic 205): Liquidation Basis of Accounting* ("ASU 2013-07"). ASU 2013-07 will require an entity to use the liquidation basis of accounting if liquidation is imminent. Liquidation will be considered "imminent" when (1) a liquidation plan has been approved by those with the authority to do so and the chance of the plan being blocked by other parties is remote or (2) a liquidation plan is imposed by other forces (e.g., involuntary bankruptcy). ASU 2013-07 is effective prospectively for interim or annual periods beginning on or after December 15, 2013. The adoption of this ASU did not impact the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan Sponsor is currently assessing the impact that ASU 2015-12 will have on the plan financial statements.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the plan administrator and in the period in which they are deducted, in accordance with salary deferral agreements.

Notes to the Financial Statements
KMCO 401(k) Plan
December 31, 2014 and 2013

Investment valuation and income recognition

Investments are reported at fair value and are measured in accordance with ASC 820, "*Fair Value Measurements and Disclosures*". Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes realized gains and losses on investments bought and sold during the year and unrealized appreciation (depreciation) of investments held at year-end. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2014, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan Document.

Risks and uncertainties

The Plan provides for various investment securities in pooled separate accounts. Investments, in general, are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note C - Information Certified by the Custodian (Unaudited) or Investments

At December 31, 2014 and 2013, the Plan's investments were held by MassMutual (the "Custodian"). The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a consistent framework for measuring fair value and expands disclosure requirements for fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date. Valuation of these instruments does not require a significant degree of judgment since valuations are based on quoted prices that are readily available in an active market.

Notes to the Financial Statements
KMCO 401(k) Plan
December 31, 2014 and 2013

Level 2: Significant observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instrument.

Level 3: Significant unobservable inputs that reflect modifications to observable related market data or our assumptions about pricing by market participants.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at the fair market value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quoted pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

December 31, 2014 and 2013

Note F – Related party transactions

Certain Plan investments in pooled separate accounts are managed by MassMutual. MassMutual has been designated as the custodian and, therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan has notes receivable from certain of its participants which are secured by the balances in the participants' accounts. Therefore, related transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Any purchases and sales of these investments are open market transactions at fair

market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. All other transactions which may be considered party-in-interest transactions relate to normal plan management and administrative services, and the related payment of fees.

Note G - Tax status

The underlying volume submitter plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note H – Qualified Non-Elective Contributions ("QNEC")

In September 2014, the Company made a Qualified Non-Elective Contribution ("QNEC") of \$8,264 to self-correct an operational failure for the Plan pursuant to Revenue Procedure 2015-27. Certain employees did not have their deferral elections withheld from fringe benefits and did not receive related employer matching funds. The QNEC are immediately 100% vested to the employees. The Company also made related market value adjustments to the accounts of the affected participants to provide for lost earnings on the QNEC funds. The QNEC has been recorded as a corrective employer contribution as of December 31, 2014 in the Statement of Changes in Net Assets Available for Benefits.

Note I – Subsequent Events

For the period ended December 31, 2014, the Company has evaluated subsequent events and transactions for potential recognition and disclosure through August 31, 2015, the date the financial statements were available to be issued.
