NOTE 1: DESCRIPTION OF PLAN

The following description of the Hogan Mfg., Inc. Money Purchase Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Hogan Mfg., Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Employees are eligible to participate on the first open enrollment date coinciding with or immediately following the date that eligibility requirements have been met. Employees are eligible for employer contributions after completing six months of service. Open enrollment dates are January 1, April 1, July 1, and October 1 of each year.

Contributions

The Company contributes 5% of each covered participant's annual compensation, including overtime and discretionary bonuses. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investments offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions; allocations of the Company's contributions, if applicable; Plan earnings; and administrative expenses. Allocations are based on participant compensation, deferrals, or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always fully vested in their own contributions and vest in Company contributions as follows: 10 percent after one year of credited service, increasing by 20 percent for each year of service thereafter. To earn a year of service, the participant must be credited with at least 1,000 hours of service during the Plan year. After six years of service participants are fully vested in Company contributions. Forfeited accounts are applied to reduce required employer contributions.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Notes receivable from participants

Participants may borrow up to one half of the present value of the vested balance of their Plan account, up to a maximum of $50,000. Loans must be repaid over no more than a five-year period with the exception of a loan for the participants' principal residence that may have a repayment period beyond five years. Loans bear interest at prime plus 2% and are generally payable in full upon the participant's termination or the occurrence of certain other events. Loans to participants are stated at the principal amount outstanding, which approximates fair value.

Payment of Benefits

Withdrawals are allowed in the event of termination, disability, death, retirement, or attainment of age 59½. Depending upon the event, the withdrawal may be subject to early withdrawal penalties imposed by the Internal Revenue Code (IRC) and the California Taxation Code. Payments will be made in the form of a lump sum amount or in installments. Upon termination of service for any reason, accounts with vested benefits less than $5,000 will be distributed in a lump sum.

Administrative Expenses

Administrative expenses recorded in the Plan represent custodial fees and other third-party administration fees paid directly by the Plan to the respective service provider. The Company pays the administrative costs of the Plan associated with Plan communication and auditing.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisors, custodians, and insurance company. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

In preparing the accompanying financial statements, management has considered events that have occurred after December 31, 2014, through August 24, 2015, the date these financial statements were available for issuance.

Use of Estimates

In preparing the financial statements in accordance with accounting principles generally accepted in the United States of America, management makes estimates and assumptions which affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

NOTE 3: INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

Information contained in the accompanying financial statements and supplemental schedules that was certified by the custodian as to completeness and accuracy includes:

- Details (cost, market, and contract value) and summaries of investments held at December 31, 2014 and 2013;

- Summaries of investment income and transactions for the year ended December 31, 2014.

NOTE 4: INVESTMENTS (UNAUDITED)

Investments exceeding 5% of the Plan's net assets as of December 31 include the following:

	2014	2013
DFA Global Equity Portfolio Fund	$ 1,970,251	$ 1,905,541
DFA Global Allocation 60/40 Fund	1,666,129	2,026,766

DFA Global Allocation 25/75 Fund		479,366

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $17,915 as follows:

Mutual funds	$ (18,765)
Collective investment trust	850
	$ (17,915)

NOTE 5: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1) Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2) Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5: FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3) Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed Brokerage Account: Valued at the closing price reported on the active market on which the individual securities are traded.

Collective Investment Trust: Individual assets of the synthetic investment contracts are generally valued as follows: fixed income securities, and futures and options are valued at fair value based on market values obtained from independent pricing services, quotes by dealers who are market makers in these securities, or by a methodology approved by the Trustees. Commercial paper and other investments with less than 60 days to maturity when purchased are valued at amortized cost, which approximates fair value. Investments in regulated investment companies or collective investment trusts are valued at the net asset value per share on valuation date. Accrued interest on underlying investments is added to the fair value of the investment for presentation purposes. The fair value of wrap contracts is determined using the market approach discounting methodology which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of yearend. These investments are not exchange traded.

NOTE 6: COLLECTIVE INVESTMENT TRUST

The Plan's collective investment trust is a separately managed account within the Plan's trust managed by The Bank of New York Mellon. The Plan's investment policy allows the trust to invest in global wraps. Global wrap contracts operate similarly to guaranteed investment contracts (GICs), except that the Plan purchases government-backed, asset-backed, mortgage-backed, or corporate bonds, which are held in the Plan's trust. To enable the Plan to realize a specific known value for the assets, if it needs to liquidate them to make benefit payments, global wrap contracts utilize a benefit-responsive "wrapper" contract with a third party insurance carrier that provides market and cash flow protection to the Plan. The "wrapper" contract enables the Plan to execute participant transactions without regard to the appreciation or depreciation in the day-to-day value of the underlying assets.

The effective yield on these contracts represents the crediting rate, less the "wrapper" fee paid to the insurance carrier. Global wraps do not expire as assets are sold or mature, instead the wrap remains intact and the maturity of the contract is open-ended. The underlying investments are valued at quoted redemption values on the last business day of the Plan's year end. The fair value of the collective investment trust equals the total of the fair value of the underlying assets plus the total wrap rebid value. Net assets are adjusted to contract value, which represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The following summarizes the stable value fund's global wrap contracts at December 31, 2014:

Contract Issuer	Major Credit Ratings	Fair Value of Underlying Assets	Adjustment from Fair Value to Contract Value	Contract Value
American General Life Insurance Wrap	AA+	$ 147,555,263	(267,933)	$ 147,287,330
United of Omaha Wrap	AA+	69,509,111	(95,430)	69,413,681
Pacific Life Wrap	AA	151,111,115	(3,870,378)	147,240,737
Athene Annuity and Life Company Wrap	A-	121,349,710	(706,971)	120,642,739
Prudential Life Wrap	AA	134,862,539	(2,361,673)	132,500,866
		$ 624,387,738	(7,302,385)	$ 617,085,353

NOTE 6: COLLECTIVE INVESTMENT TRUST (CONTINUED)

Wrap contracts accrue interest using a formula called the "crediting rate." Wrap contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the fund's current market value at the fund's current yield to maturity for a period equal to the fund's duration. The crediting rate is the discount rate that equates the estimated future market value with the fund's current contract value. Crediting rates are reset periodically based on cash flow and market value of underlying securities. The wrap contract provides a guarantee that the crediting rate will not fall below 0%.

The crediting rate, and hence the fund's return, may be affected by many factors, including purchases and redemptions by participants. The precise impact on the fund depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than their contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under those circumstances, cash flows from new investors will tend to lower the crediting rate and fund's return, and redemption by participants will tend to increase the crediting rate and the fund's return.

If the fund experiences significant redemptions when the market value is below the contract value, the fund's yield may be reduced significantly, to a level that is not competitive with other instrument options. This may result in additional redemptions, which would tend to lower the crediting rate further. If redemptions have insufficient assets to meet redemption requests, the fund would require payments from the wrap issuer to pay further shareholder redemptions.

The average yield on the Plan's global wrap contracts was 1.36% for all contract issuers in 2014.

The stable value fund and the wrap contracts purchased by the fund are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the Plan (typically this would include withdrawals for benefits, loans, or transfers to non-competing funds within the Plan). However, the wrap contracts limit the ability of the fund to transact at contract value upon the occurrence of certain events. These events include:

- The Plan's failure to qualify under Section 401(a) or Section 401(k) of the IRC.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Any substantive modifications of the Plan or the administration of the Plan that is not consented to by the wrap issuer.
- Complete or partial termination of the Plan.
- Any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on the fund's cash flow.

NOTE 6: COLLECTIVE INVESTMENT TRUST (CONTINUED)

- Merger or consolidation of the Plan with another plan, the transfer of Plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor.
- Any communication given to participants by the Plan sponsor or any other Plan fiduciary that is designed to induce or influence participants not to invest in the fund or to transfer assets out of the fund.
- Exclusion of a group of previously eligible employees from eligibility of the Plan.
- Any early retirement program, group termination, group layoff, facility closing, or similar program.
- Any transfer of assets from the fund directly to a competing option.

At this time, management does not consider the occurrence of these events to be probable.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time. In the event of Plan termination, all accounts become fully vested and non-forfeitable. Plan assets would first be used to pay any expenses properly charged to the Plan. The remainder would then be distributed to participants in a lump sum.

NOTE 8: TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under IRC, Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognizes tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013, to the Plan's Form 5500:

	2014	2013
Net assets available for benefits per the financial statements	$ 8,473,802	$ 8,740,578
Benefit claims payable	(9,081)	-
Net assets available for benefits per the Form 5500	$ 8,464,721	$ 8,740,578

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2014, to Form 5500:

Benefits paid to participants as reported	$ 928,654
Change in benefits claims payable per Form 5500	9,081
Benefits paid to participants per Form 5500	$ 937,735

Benefits paid to participants are recorded on the Form 5500 for benefit payment requests that have been received by the Plan prior to year end, but not yet distributed by the custodian as of that date.
