Note 1 - Description of the Plan

The following description of the Employment Enterprises, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established effective January 1, 2011, is a defined contribution single employer plan designed to encourage and assist in providing a regular savings program for eligible employees of Employment Enterprises, Inc. and its affiliated companies (collectively referred to as the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan's assets are held in the custody by Delaware Charter Guarantee & Trust Company and Principal Life Insurance Company, the Custodians of the Plan.

Eligibility

The minimum service requirement for participation is 12 months and 1,000 hours, having attained age 21. Participants may enter the Plan the first day of each calendar quarter after the date they become eligible.

Contributions

Participants may contribute from 1% to 40% of compensation, up to annual limitations as provided by the Internal Revenue Code. The Company, at its discretion, may contribute a matching contribution and/or profit sharing contribution on behalf of each participant. The matching contribution for each participant may not exceed $1,000 a year. During 2014, the matching contribution equaled 30% on the first 80% of participant's elective deferral per payroll period.

Participant accounts

Each participant's account is credited with the participant's elective deferral contribution, an allocation of the Company's contribution, if any, and an allocation of Plan earnings or losses and is charged with an allocation of and/or actual administrative fees. Contributions to participant accounts are allocated across a selection of investment options at the discretion of the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately and fully vested in their participant elective accounts at all times. The Company's employer contributions become 100% after five years of service with the Company as set forth below:

Years of service	Percentage
Less than 2	0%
At least 2, but less than 3	25%
At least 3, but less than 4	50%
At least 4, but less than 5	75%
5 or more	100%

Investment options

Participants may invest their contributions and associated earnings among various investment options. At December 31, 2014, investment options consist of eight pooled separate accounts, 13 registered investment companies, and one short-term guaranteed interest account. Participants may make changes and exchanges among the investment options at any time.

Payment of benefits

On termination of service due to death, disability or retirement, or attainment of age 59 1/2, participants are entitled to receive benefits. Distributions from the Plan may be deferred up until the normal retirement date. However, payments must begin no later than April 1st following the calendar year in which a participant attains age 70 1/2 years. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In certain hardship situations, as described in the Plan, participants may withdraw all or part of their account balances while actively employed.

Forfeitures

Forfeitures may be applied to pay Plan expenses, reduce any matching contributions, or reduce any profit sharing contributions. During 2014, forfeitures of $2,956 were used to reduce employer contributions. At both December 31, 2014 and 2013, no forfeitures were unallocated.

Participant notes receivable

Each participant may borrow the minimum of $1,000 up to a maximum of $50,000 or 50% of his or her vested interest in the Plan, whichever is less. The term of the loans may not exceed five years, except for loans to purchase a primary residence, which may not exceed 15 years. Only one loan per participant is permitted to be outstanding at one time. The loans are secured by the balances in each participant's account and bear interest at a reasonable rate of interest as determined by the Plan Administrator.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results may differ from these estimates.

Investment valuations and income recognition

Shares of registered investment companies ("mutual funds") are reported at fair value based on the quoted market price of the fund, which represents the net asset value ("NAV") of the shares held by the fund at year-end. Investments in insurance company pooled separate accounts are measured based on the NAV of the underlying managed assets as reported to the Plan by Principal, which approximates fair value. The pooled separate accounts do not have a finite life, unfunded commitments or restrictions on redemptions. The investment strategies of the pooled separate accounts are designed to earn investment income related to the nature of the type of investment as described in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Earnings from investments are recorded as earned using the accrual method of accounting. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The accounting guidance for fully benefit-responsive investment contracts requires investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the guidance, the statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Excess contributions payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative expenses
Administrative expenses include certain fees paid by participants, such as related loan fees. Certain investment management fees and other charges paid to the Custodians are offset against performance in net realized and unrealized appreciation in fair value of investments and are not separately reflected as administrative expenses.

Payment of benefits
Benefits are recorded when paid.

Risks and uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events
Material subsequent events have been considered for disclosure and recognition in these financial statements through September 17, 2015.

Note 3 - Investment contract with insurance company
The Plan has a contract, which is fully benefit-responsive, with Principal. The Principal Fixed Income Guaranteed Option ("PFIGO") is a benefit-responsive group annuity contract. The methodology for calculating the interest crediting rate is defined in Article I, Section II of the contract under the term "Composite Crediting Rate." Under the terms of the existing contract, the crediting rate is currently reset on a semiannual basis.

Changes in future interest crediting rates will not affect the amount reported on the statements of net assets available for benefits representing the adjustment for the portion

of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value as fair value is considered book value less an early withdrawal charge.

The PFIGO is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets as would be found in a stable value fund. As a result, the average yield earned by the Plan is the yield earned (i.e., interest credited) on the group annuity contract.

The interest crediting history for the contract is as follows:

Time Period	Rate
December 1, 2013 - May 31, 2014	2.00%
June 1, 2014 - November 30, 2014	2.00%
December 1, 2014 - May 31, 2015	2.00%

By definition, the PFIO group annuity contract is an insurance contract. As a result, the Plan may enter into transactions according to the terms defined in the contract at any time. The terms and methods under which the contract may transact are defined in Deposits and Funds (Article II), Fees (Article III), Benefits and Other Payments (Article IV) and Termination (Article V) in the contract. Article V of the contract defines the circumstances and amounts for which the contract may be terminated by the Plan. The issuer, Principal, has the right to no longer receive deposits under Article VI, Section 3. However, the circumstances for termination of the contract are still subject to Article V. Participants should refer to the contract agreement for a more complete description of the contract's provisions.

Effective July 2013, the Plan changed its position on fair value measurement of its Principal Fixed Income Option Guaranteed Investment Contract. Participant transactions are executed using contract value without adjustment (Level 3) unless there is a termination of the contract. The Plan has no intent to terminate the contract and therefore, the fair value is equal to the contract value at December 31, 2014 and 2013.

Note 4 - Fair value

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

Assets measured at fair value on a recurring basis:	Fair value	Level 1	Level 2	Level 3

Note 5 - Financial information certified by custodians (unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2014 and 2013 and investment transactions (individually and in summary) and investment income for the year ended December 31, 2014, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodians of the Plan.

Note 6 - Investments

Individual Plan investments that represent 5% or more of fair value of the Plan's net assets available for benefits as of December 31 are as follows:

Description of Asset	As of December 31, 2014	2013
LargeCap S&P 500 Index Separate Account-R3	$ 306,142	$ 278,717
Fixed Income Guaranteed Option at contract value (fair value $224,006 and $211,005, respectively)	224,006	211,005
PIMCO Real Return R Fund	168,161	156,262
MFS Utilities R2 Fund	133,000	105,641
PIMCO Total Return R Fund	*	102,476

* Investment did not represent five % or more of net assets available for benefits.

During 2014, the fair value of the Plan's participant-directed investments (including gains and losses on investments bought, sold, and held during the year) appreciated by $74,036 as follows:

Registered investment companies	$	52,841
Pooled separate accounts		21,195
Total	$	74,036

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to suspend or discontinue contributions at any time and to terminate the Plan in whole or in part, subject to the provisions of ERISA. In the event of complete or partial Plan termination, the Custodians shall determine whether the assets of the Plan shall be liquidated and distributed or whether the assets shall continue to be held in trust and distributed in accordance with the terms of the Plan.

Note 8 - Tax status

The Plan obtained its latest opinion letter on its prototype plan on March 31, 2008, in which the Internal Revenue Service stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.
