NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following is a description of the Thornton Tomasetti, Inc. 401(k) Profit Sharing Plan (the "Plan") which provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible nonunion employees of Thornton Tomasetti, Inc. (the "Sponsor") who have attained the age of twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Effective April 29, 2009, the employer matching contributions were made discretionary. The discretionary contribution is made by a board of directors' resolution for each Plan year. For Plan year 2014 and 2013, Sponsor contributed a matching contribution to the Plan equal to 50% of employee contributions up to 7% of employee compensation, for employees who are not student interns, co-op students, or seasonal employees. Participants may contribute amounts from 1% to 60% of total pay on a payroll reduction basis, up to the prescribed IRS annual contribution level. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. On January 1, 2007, the sponsor adopted a provision to allow for participants to make Roth 401(k) deferrals into the Plan as permitted by the Internal Revenue Code.

Effective March 3, 2008, the Sponsor adopted an automatic enrollment provision, in which all participants are automatically enrolled for a 3% contribution on their respective plan entry dates, which will increase by an additional 1% in each subsequent Plan year to a maximum of 10%, unless employees elect to opt out of the automatic enrollment. Effective March 26, 2012 the starting automatic enrollment amount was increased to 5% on a participant's entry date.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Sponsor's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Upon enrollment in the Plan, a participant may direct employee contributions to any of the investment options offered under the Plan. Participants may change their investment options at their discretion.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is vested 20 percent for each year of service after the completion of two years, being 100 percent vested after six years of credited service.

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION (Continued)

Notes Receivable from Participants

Participants may borrow against their vested interest up to 50 percent of their balance up to a maximum of $50,000, subject to the provisions set forth for the Plan. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator, and are generally payable in installments over periods ranging from one to five years (unless the loan is used for the purchase of a primary residence, in which case the repayment period may be up to ten years). Principal and interest is paid ratably through monthly payroll deductions. A loan that is considered in default is reported as a deemed distribution which is a taxable event for the participant.

Payment of Benefits

On termination of service, the entire participant's available amount is paid as a lump-sum as soon as it is administratively feasible following termination of employment. A participant may also have the option to postpone payment of his account balance until the first day of the Plan year following the calendar year in which the participant attains the age of 70-1/2.

Forfeited Accounts

Forfeited nonvested accounts can be used to reduce future employer contributions or administrative expenses in accordance with Plan provisions. At December 31, 2014 and 2013, unused forfeited nonvested accounts totaled $4,028 and $61,846, respectively. During 2014, employer contributions and administrative expenses were reduced by $251,389 from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements have been prepared on accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recognized on the ex-dividend date. Net appreciation/(depreciation) includes the Plans gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment and Administrative Expenses

Certain expenses of maintaining the plan are paid directly by the Company and excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/(depreciation) of fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through September 15, 2015, the date the financial statements were available to be issued.

3. INVESTMENTS – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE AS COMPLETE AND ACCURATE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee. The following table presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Fidelity Contrafund K	$ 15,036,266	$ 14,603,948
Fidelity Growth Co K	18,510,242	15,308,011
Fidelity Investment Grade Bond Fund	-	4,830,197
Spartan 500 Index Adv	9,749,713	7,577,540
Less than 5% assets	60,777,879	50,842,173
Total Investments	$ 104,074,100	$ 93,161,869

During 2014, the Plan's investments (including mutual fund interest, dividends, gains and losses on investments bought and sold, as well as investments held during the year) appreciated in value by $7,792,159. The Plan also received a revenue credit from Fidelity to offset current and prior fees incurred resulting in $13,940 of additional income.

3. INVESTMENTS – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE AS COMPLETE AND ACCURATE (Continued)

Notes Receivable from participants of $930,844 and $897,382 in 2014 and 2013, respectively, and interest income on notes receivable from participants of $46,540 in 2014 have also been certified by trustee.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, "Fair Value Measurements" provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds:

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (Continued)

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, all participants will become 100 percent vested in their accounts. Any unallocated assets of the plan should be allocated to participant accounts and distributed in such a manner as the company may determine.

6. TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401 (a). The plan has not received a determination letter specified to the plan itself; however, the plan administrators believe that the plan was designed and was being operated in compliance with the applicable requirements of the IRC, and therefore believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments represent shares in mutual funds or other investments administrated by the Fidelity Management Trust Company. The Fidelity Management Trust Company is the Trustee, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Dividend income received by the Plan is net of fees charged by the trustee or its affiliates. The investment fees incurred by the Plan during 2014 have been offset by the Fidelity Participant Revenue Credit program, whereby any credit in excess of Fidelity fees have been paid back directly to the Plan participants. The credit, excess of fees incurred, for 2014 is included in investment income and amounted to $13,940 for the year ended December 31, 2014.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

The following is a description of the Thornton Tomasetti, Inc. 401(k) Profit Sharing Plan (the "Plan") which provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible nonunion employees of Thornton Tomasetti, Inc. (the "Sponsor") who have attained the age of twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Effective April 29, 2009, the employer matching contributions were made discretionary. The discretionary contribution is made by a board of directors' resolution for each Plan year. For Plan year 2014 and 2013, Sponsor contributed a matching contribution to the Plan equal to 50% of employee contributions up to 7% of employee compensation, for employees who are not student interns, co-op students, or seasonal employees. Participants may contribute amounts from 1% to 60% of total pay on a payroll reduction basis, up to the prescribed IRS annual contribution level. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. On January 1, 2007, the sponsor adopted a provision to allow for participants to make Roth 401(k) deferrals into the Plan as permitted by the Internal Revenue Code.

Effective March 3, 2008, the Sponsor adopted an automatic enrollment provision, in which all participants are automatically enrolled for a 3% contribution on their respective plan entry dates, which will increase by an additional 1% in each subsequent Plan year to a maximum of 10%, unless employees elect to opt out of the automatic enrollment. Effective March 26, 2012 the starting automatic enrollment amount was increased to 5% on a participant's entry date.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Sponsor's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Upon enrollment in the Plan, a participant may direct employee contributions to any of the investment options offered under the Plan. Participants may change their investment options at their discretion.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is vested 20 percent for each year of service after the completion of two years, being 100 percent vested after six years of credited service.

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION (Continued)

Notes Receivable from Participants

Participants may borrow against their vested interest up to 50 percent of their balance up to a maximum of $50,000, subject to the provisions set forth for the Plan. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator, and are generally payable in installments over periods ranging from one to five years (unless the loan is used for the purchase of a primary residence, in which case the repayment period may be up to ten years). Principal and interest is paid ratably through monthly payroll deductions. A loan that is considered in default is reported as a deemed distribution which is a taxable event for the participant.

Payment of Benefits

On termination of service, the entire participant's available amount is paid as a lump-sum as soon as it is administratively feasible following termination of employment. A participant may also have the option to postpone payment of his account balance until the first day of the Plan year following the calendar year in which the participant attains the age of 70-1/2.

Forfeited Accounts

Forfeited nonvested accounts can be used to reduce future employer contributions or administrative expenses in accordance with Plan provisions. At December 31, 2014 and 2013, unused forfeited nonvested accounts totaled $4,028 and $61,846, respectively. During 2014, employer contributions and administrative expenses were reduced by $251,389 from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements have been prepared on accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recognized on the ex-dividend date. Net appreciation/(depreciation) includes the Plans gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ.

NOTES TO FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment and Administrative Expenses

Certain expenses of maintaining the plan are paid directly by the Company and excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/(depreciation) of fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through September 15, 2015, the date the financial statements were available to be issued.

3. INVESTMENTS – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE AS COMPLETE AND ACCURATE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee. The following table presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Fidelity Contrafund K	$ 15,036,266	$ 14,603,948
Fidelity Growth Co K	18,510,242	15,308,011
Fidelity Investment Grade Bond Fund	-	4,830,197
Spartan 500 Index Adv	9,749,713	7,577,540
Less than 5% assets	60,777,879	50,842,173
Total Investments	$ 104,074,100	$ 93,161,869

During 2014, the Plan's investments (including mutual fund interest, dividends, gains and losses on investments bought and sold, as well as investments held during the year) appreciated in value by $7,792,159. The Plan also received a revenue credit from Fidelity to offset current and prior fees incurred resulting in $13,940 of additional income.

3. INVESTMENTS – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE AS COMPLETE AND ACCURATE (Continued)

Notes Receivable from participants of $930,844 and $897,382 in 2014 and 2013, respectively, and interest income on notes receivable from participants of $46,540 in 2014 have also been certified by trustee.

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, "Fair Value Measurements" provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds:

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (Continued)

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, all participants will become 100 percent vested in their accounts. Any unallocated assets of the plan should be allocated to participant accounts and distributed in such a manner as the company may determine.

6. TAX STATUS

On March 31, 2008, the IRS stated that the prototype adopted by the plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401 (a). The plan has not received a determination letter specified to the plan itself; however, the plan administrators believe that the plan was designed and was being operated in compliance with the applicable requirements of the IRC, and therefore believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments represent shares in mutual funds or other investments administrated by the Fidelity Management Trust Company. The Fidelity Management Trust Company is the Trustee, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Dividend income received by the Plan is net of fees charged by the trustee or its affiliates. The investment fees incurred by the Plan during 2014 have been offset by the Fidelity Participant Revenue Credit program, whereby any credit in excess of Fidelity fees have been paid back directly to the Plan participants. The credit, excess of fees incurred, for 2014 is included in investment income and amounted to $13,940 for the year ended December 31, 2014.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.
