DIAMOND PRODUCTS 401(k) AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Diamond Products 401(k) and Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) and profit sharing plan covering substantially all full-time employees of Diamond Products Limited (the “Company”) who are not covered by collective bargaining agreements, have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to contribute up to the lesser of 99% of eligible annual compensation, as defined in the Plan, or the maximum amount allowed by law. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100% of the first 4% of the compensation that a participant contributes to the Plan. The Company's matching contribution and the discretionary profit sharing contribution (made at the option of the Company's Board of Directors) are invested in the same portfolio of investments as directed by the participant. For the years ended December 31, 2014 and 2013, the Company did not make a discretionary profit sharing contribution.

Participant accounts

Each participant's account is credited with the employee's elective deferrals (if any), and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferrals as well as the Company's matching contribution plus actual earnings thereon. Vesting in the discretionary profit sharing contribution, plus earnings thereon, is based on years of continuous service. A participant is 100% vested in their discretionary profit sharing contribution after six years of credited service.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Payment of benefits

Generally, distributions to retired participants will begin as soon as practicable after the participant's retirement date. The participant may elect among various forms of benefit payments. Benefit payments to deceased, terminated or disabled participants are made as directed by the participant, subject to certain restrictions. Participants may receive in-service distributions after reaching age 59 ½.

Notes receivable from participants

Participants may request loans from the Plan for financial hardship purposes in an amount not to exceed the lesser of (a) \$50,000 or (b) one-half of the value of the vested portion of the participant's account balance. Loans are generally for a period not exceeding five years except for the purchase of a participant's primary residence, for which the plan administrators may permit a longer repayment period. Loans bear interest at an agreed upon percentage based on prevailing market rates, subject to applicable usury limits.

Forfeitures

Participants with a break-in-service greater than five years or who have their benefit distributed, forfeit the non-vested portion of their account. At the Company's discretion, these amounts may be used to reduce employer contributions to the Plan. During the year ended December 31, 2014, employer contributions were reduced by \$334 from forfeited non-vested accounts. At December 31, 2014, forfeited non-vested accounts totaled \$10.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

The administrative expenses of the Plan are paid by the Company, except for fees charged for participant loans. For the year ended December 31, 2014, loan fees totaled \$760.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE – UNAUDITED

DWS Trust Company, the trustee of the Plan, holds the Plan's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided and certified to be complete and accurate by the trustee. The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the information summarized below has not been audited by independent accountants.

NOTE 4 – FAIR VALUE MEASUREMENTS

The Fair Value Measurement Topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB codification guidance are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Mutual funds – valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust fund – valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invests in the Federated Capital Preservation Fund, which is a benefit-responsive investment contract. The Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and adjusted for the difference between the fair value and contract value as reported to the Plan by DWS, the trustee. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was \$3,202,651 and \$3,013,302, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average yields:	<u>2014</u>	<u>2013</u>
Based on actual earnings	1.10%	1.21%
Based on interest rate credited to participants	1.14%	1.46%

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and units in a common/collective trust managed by DWS Trust Company. DWS Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

DIAMOND PRODUCTS 401(k) AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – INCOME TAX STATUS

The form of the Plan has received a determination letter dated December 10, 2001 from the Internal Revenue Service stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the Plan is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

NOTE 10 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through July 30, 2015, which is the date the financial statements were available to be issued.
