Germania Companies
Employees Profit Sharing and Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of Plan

The following description of the Germania Companies Employees Profit Sharing and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Germania Farm Mutual Insurance Association (the "Company") who are age twenty-one or older. Participants are automatically enrolled into the Plan thirty days after date of hire and upon meeting the Plan's eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Each year, the Company makes matching contributions to the Plan in an amount determined by the Board of Directors. Also, the Company makes discretionary contributions in an amount determined by the Company's Board of Directors to all eligible participants hired or rehired by the Company on January 1, 2009 and thereafter. The Company is under no legal obligation to make a contribution during any specific year. Participants make voluntary contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain limitations. Participants direct the investment of Company contributions and their contributions into various investment options offered by the Plan. The Plan currently offers twenty-two investment options for participants, including an option for participant-directed brokerage accounts.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's matching contribution and discretionary contribution (where applicable), and (b) Plan net earnings. Allocations are based on the participant's annual earnings or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Employees Profit Sharing and Savings Plan

Notes to Financial Statements
(Continued)

(1) Description of Plan (continued)

(d) Vesting

Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon. Company discretionary contributions are 20% vested each year and fully vested at five years.

(e) Payment of Benefits

Upon termination of service, a participant may elect to receive (1) a lump-sum amount equal to the value of his or her account, (2) periodic installments, or (3) partial cash payments.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(c) Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for further discussion of fair value measurements.

Common collective trusts that hold fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(c) Investments (continued)

participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(f) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(3) Investments

The following table presents the fair values of investments, all of which are participant directed. Investments that represent five percent or more of the Plan's net assets are separately identified.

During 2014 and 2013, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $767,374 and $3,610,423, respectively, as follows: mutual funds - $751,701 and $3,521,625; and participant-directed brokerage accounts - $15,673 and $88,798.

(4) Information Certified by the Trustee

The financial information included in the Plan financial statements, except for contributions, benefits paid directly to participants, administrative expenses, and the fair value and adjustment from fair value to contract value of the common collective trust, have been derived from information certified as complete and accurate by the trustee of the Plan in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer discretionary contributions.

Germania Companies
Employees Profit Sharing and Savings Plan

Notes to Financial Statements
(Continued)

(6) Tax Status

The Plan is using a standardized prototype profit-sharing plan document. In a letter dated March 31, 2014, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code Section 401(a). Although the Plan has been amended since receiving the acceptability letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(7) Party-In-Interest Transactions

The Plan invests in an interest in a common collective trust managed by Transamerica Retirement Solutions Corporation. Transamerica Retirement Solutions Corporation provides administration services to the Plan. Therefore, this transaction qualifies as a party-in-interest transaction.

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(8) Fair Value Hierarchy and Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Germania Companies
Employees Profit Sharing and Savings Plan

Notes to Financial Statements
(Continued)

(8) Fair Value Hierarchy and Measurements (continued)

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at year-end.

Common collective trust: Valued at the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Participant-directed brokerage accounts: Includes money market accounts which are valued at quoted market prices which represent the NAV of shares held by the Plan at year-end, and common stocks which are valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014 and 2013:
