1. DESCRIPTION OF THE PLAN

The following description of Holcomb Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan, established on July 1, 1997 and amended and restated effective February 1, 2011, to cover employees of The Holcomb Corporation and its wholly-owned subsidiaries as well as the following entities related through common ownership: Seascape Resort, Ltd, Palapas, Inc., and Seascape Wine & Spirits, Inc. (collectively the "Company" and "Plan Sponsor"). Employees, other than union employees and nonresident aliens, who have completed one year of service, as defined, including a minimum of 1,000 hours, and are age 21 or older are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA)

Contributions – Each year, participants may contribute a portion of their pretax annual compensation, as defined in the Plan, plus "catch-up" contributions for participants age 50 and older, up to the maximum amount allowed by the Internal Revenue Code ($17,500 per participant under age 50 in 2014 and 2013, and $23,000 per participant age 50 and older, in 2014 and 2013). The Company, at its discretion, may make matching contributions to the Plan. During 2014 and 2013, the Company made matching contributions equal to 100% of the first $200 of compensation that a participant contributed to the Plan. Additionally, the Company, at its discretion, may make profit sharing contributions to the Plan. Profit sharing contributions are allocated to eligible participants in the ratio that an eligible participant's compensation bears to the total of all eligible participants' compensation. The Company made no profit sharing contributions in 2014 or 2013.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant may elect to have his or her individual account invested in any combination of the investment options available under the Plan.

Notes Receivable From Participants - Participants may borrow from their accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan repayment terms shall not exceed five years with the exception of loans for the purchase of a primary residence for which repayment beyond five years is available. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid through payroll deductions with equal installments made each pay period.

Vesting - Participants are immediately 100% vested in their contributions and employer matching contributions plus actual earnings thereon. Additionally, participants are 100% vested in all contributions, plus actual earnings thereon, upon reaching Normal Retirement Age, as defined, and upon death or disability. Otherwise, profit sharing contributions vest based on years of service under the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures – Forfeitures are created when participants terminate employment before becoming fully vested in their benefits under the Plan. Forfeitures may be used to pay Plan administrative expenses or be used to reduce employer contributions. At December 31, 2014 and 2013 there were no forfeiture account balances. During 2014 and 2013 forfeitures were used to pay $8 and $190 of Plan administrative expenses, respectively.

Payment of Benefits - Upon retirement, termination, disability, or death, the vested value of the participant's account may be distributed in a lump sum payment. Partial withdrawals or installments are only permitted for required minimum distributions. With the Plan Administrator's approval, participants may withdraw all or part of their contributions in the event of financial hardship.

Investments – Participants direct the investments of their contributions and their portion of the Company's contributions into various investment options offered by the Plan.

Plan Trustee – Reliance Trust Company is the appointed Plan trustee and manages the funds on behalf of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements are prepared on the accrual basis of accounting.

Investments – The Plan's investments are stated at fair value as determined and reported by the Plan's trustee, Reliance Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Contributions - Company and participant contributions are recorded as additions to net assets available for benefits in the period the related payroll is paid by the Company to the employee.

Payment of Benefits – Distributions to participants are recorded when paid.

Income Taxes – Income taxes are not provided as the Plan is designed to be exempt from taxation under the Internal Revenue Code (IRC). The Internal Revenue Service issued a favorable determination letter dated March 31, 2008 with respect to the prototype plan agreement used to establish the Plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax council believe that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties – The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in value due to these risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits and the statement of changes in net assets available for Plan benefits.

Expenses – Administrative expenses of the Plan are paid by either the Plan or the Plan's Sponsor, as provided in the Plan Document. Fees paid by the Plan for investment management services are netted against net appreciation (depreciation) in fair value of investments.

Subsequent events have been evaluated through September 1, 2015 (date the financial statements were available for issuance).

3. INVESTMENTS

The Plan's investments in the following funds represented five percent or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013.

	2014	2013
Prudential Jennsion Mid Cap Growth R	$ 951,390	$ 874,189

Vanguard Prime Money Market Inv.	*	355,875

* Investment did not represent five percent or more of the Plan's net assets at December 31.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest priority level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methods used for investments measured at fair value:

Mutual funds – Valued at the quoted net asset value of shares held by the plan at year end.

Stable value fund – Valued at contract value (equal to the accumulated contributions made, less withdrawals and administrative expenses, plus interest credited), which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2014 and 2013:

The following tables set forth a summary of changes in the fair value of the Plan's level 3 investments for the years ended December 31, 2014 and 2013.

Balance, end of year	$ 347,401	$ -

The Plan's level 3 investments consist of Standard Stable Asset Fund A (the Fund) which seeks to provide liquidity and safety of principal, along with a competitive guaranteed rate of return. Standard Insurance Company invests the deposits of plan participants as part of its general account assets, which include its fixed income securities portfolio and its commercial mortgage loan portfolio. A participant's return is determined by a declared interest rate, which is reset quarterly, and will never be less than 1.0%.

For investment contracts that are fully benefit-responsive, contract value, rather than fair value, is the relevant measurement attribute. Contract value approximates fair value and represents contributions made, less withdrawals and administrative expenses, plus interest credited.

Daily liquidity is available for participant contributions and withdrawals at contract value regardless of market conditions. Certain events may limit the ability of the Plan to transact at contract value including termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs and changes in the Plan's withdrawal or transfer rules. There are no reserves against contract value for credit risk of the contract issuer or otherwise. During 2014 the average yield earned on investments in the Fund was approximately 2.21%.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all non-vested account balances would become 100% vested.

6. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan's investments are held by Reliance Trust Company. The Plan's administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information as of and for the years ended December 31, 2014 and 2013 was certified by the trustee as complete and accurate and was not subjected to auditing procedures:
