Note 1. Plan Description

The following description of Cincinnati Tool Steel Company Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan covering all employees of Cincinnati Tool Steel Company (the Company). Employees must be 19 years of age and have completed one year of service in which the employee was credited with at least 1,000 hours to be eligible for the Plan. Participants may enter the Plan on January 1, April 1, July 1, and October 1 of each plan year as of the plan restatement on November 1, 2014. Prior to the restatement, Plan participants were eligible to enter the Plan on January 1 and July 1. Additionally, beginning November 1, 2014, each newly eligible employee will be automatically enrolled with 2% of earnings withheld and contributed to the Plan on their first entrance date, unless such employee makes a formal election not to contribute to the Plan or makes a specific alternative election. Existing employees that were deferring less than 2% were automatically enrolled with 2% of earnings withheld on January 1, 2015. Participants must be employed at the end of the plan year in order to receive a share of the Company's discretionary match and profit sharing contribution. The Plan is subject to the provisions of ERISA.

Contributions: Participant contributions are allowed up to 100% of compensation within IRS limits. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The employer matching and profit sharing contributions are discretionary as determined by the Board of Directors of the Company each year. The Company approved contributions totaling $285,000 which were split between match contributions of approximately $185,000 and a profit sharing contribution of $100,000 during 2014. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions as well as allocations of: 1) Company matching and profit sharing contributions and 2) plan earnings, and are charged with an allocation of administrative expenses. Allocations are based on eligible participant compensation and account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participant contributions and earnings thereon vest immediately. Vesting in the remainder of their accounts is based on years of service. A participant is 100% vested after six years of credited service.

Investment options: Participants may direct their account balances into various investment options offered by the Plan. Participants may elect to change their investment options on a daily basis.

Payment of benefits: On termination of service for any reason, a participant with $5,000 or more in vested benefits may elect to receive either a lump-sum amount equal to the vested value of their account or periodic payments over their life expectancy. A participant with less than $5,000 in vested benefits may receive the value of the vested interest in their account as a lump-sum distribution. Participants are not eligible to receive their vested employer contribution balance until five years after their date of termination, unless the termination is due to retirement or death. Effective November 1, 2014, participants are not eligible to receive their vested employer contribution balance until three years after their date of termination, unless the termination is due to retirement or death. Participants who have not separated from service and have reached normal retirement age of 65 may receive in-service distributions.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may only obtain loans for medical expenses, purchase of a principal residence, tuition expenses, death of participant's spouse or dependents, prevention of eviction from a participant's principal residence or expenses for the repair of damage to the employees' principal residence that would qualify for the casualty deduction. Note terms range from 1 to 5 years or up to 30 years for the purchase of a primary residence. The notes have maturities ranging from April 2015 through July 2042. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The interest rates on the outstanding notes range from 1.25% to 5.25%. Principal and interest are paid ratably through payroll deductions.

Forfeited accounts: At December 31, 2014 and 2013, forfeited nonvested accounts totaled approximately $5,500 and $5,600, respectively. Forfeitures are allocated to eligible participant accounts based on eligible compensation and, effective November 1, 2014, may also be used to pay reasonable Plan expenses. Total forfeitures allocated to participants in 2014 were approximately $5,600.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the Plan's trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Note 2. Significant Accounting Policies (Continued)

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this ASU will have on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented. The amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: Plan management has evaluated subsequent events through September 14, 2015, the date on which the financial statements were available to be issued.

Note 3. Information Certified or Provided by Reliance Trust, Current Trustee of the Plan, and by FasCore, LLC as Agent for JPMorgan Chase Bank, N.A., the Former Trustee of the Plan

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by FasCore, LLC (FasCore), as agent for JPMorgan Chase Bank, N.A. (Chase), the former trustee of the Plan, as of December 31, 2013 and by Reliance Trust (Reliance), the current trustee of the Plan, as of December 31, 2014, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from FasCore and Reliance that the information provided to the Plan Administrator by FasCore and Reliance related to the following assets is complete and accurate. Accordingly, as permitted by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31, 2014*	December 31, 2013**
Shares of registered investment companies, at fair value	$ 7,033,313	$ 6,615,150
Collective investment trust, at contract value	694,389	655,704
Notes receivable from participants	95,076	101,948

*Assets certified by Reliance

**Assets certified by FasCore, as agent for JPMorgan Chase Bank, N.A.

FasCore, as agent for Chase, and Reliance certified to the completeness and accuracy of a total of $323,930 of net appreciation in the fair value of investments and $299,100 of interest and dividends related to the aforementioned Plan assets for the year ended December 31, 2014.

Note 4. Investments

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (ASC) 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Collective investment trust: This investment is valued based on the net asset value (NAV) of units of the collective investment trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Shares of registered investment companies: This investment is valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The following tables present the Plan's fair value hierarchy for those assets measured at fair value as of December 31, 2014 and 2013:

	2014

Asset category:

(a) The fund's primary objective is to seek the preservation of principal, while providing current income and liquidity. The fund invests in a highly diversified fixed income strategy by investing in other collective trust funds and a separate account which may include U.S. Treasury and agency securities, mortgage-backed securities, asset-backed securities, commercial mortgage-backed securities, private mortgages, corporate debt and short-term investments.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of the transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Level 3.

Note 6. Related Party Transactions

Certain plan investments are shares of registered investment companies managed by JP Morgan Funds, an affiliate of JPMorgan Chase Bank, N.A., and a collective investment trust managed by JPMorgan Chase Bank, N.A., the plan trustee through November 1, 2014, and, therefore, these transactions within these plan investments qualified as party-in-interest transactions. Fees paid to JPMorgan Chase Bank, N.A., or its affiliates, by the Plan for administrative expenses amounted to approximately $4,000 in 2014.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

Note 8. Income Tax Status

The Plan has adopted a nonstandardized form of a prototype plan sponsored by Great-West Trust Company, LLC, an affiliate of FasCore, LLC, recordkeeper of the Plan. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter, however, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local authorities for years before 2011.
