INDEPENDENT AUDITORS' REPORT

Plan Trustees
Glenn Thurman, Inc. 401(k) Profit Sharing Plan
Balch Springs, Texas

We were engaged to audit the accompanying financial statements of Glenn Thurman, Inc. 401(k) Profit Sharing Plan (the Plan), which are comprised of the statements of net assets available for benefits as of December 31, 2014 and 2013, the statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Great-West Life and Annuity Insurance Company, the asset custodian (custodian) of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedule referred to in Other Matter. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) (supplemental schedule) as of December 31, 2014, is required by ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Glenn Thurman, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan's prototype plan document and related adoption agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Glenn Thurman, Inc. and its wholly owned subsidiaries, Thurman Transportation, Inc., and GTI Energy Services, LLC (collectively, the Company or Employer). The Plan is designed to comply with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), and the Internal Revenue Code (IRC). The Plan was adopted to enable eligible employees to defer their compensation and share in Employer contributions in order to save and invest those funds for retirement. Great-West Life and Annuity Insurance Company (the Custodian) is responsible for asset custody, executing investment transactions and is responsible for record keeping. Pension Analysis Bureau, Inc. is the Plan's third party administrator (TPA) responsible for preparing the form 5500 and performing certain administrative transactions between the Plan and Custodian. During November 2014, the Plan was amended to become a Safe Harbor plan. The change is effective beginning January 1, 2015

Eligibility

All employees of the Company who have completed one year of service (more than 1,000 hours during a twelve month period) and are age 21 or older are eligible to participate in the Plan.

Employer contributions

The Company may make matching contributions as determined and authorized by the Company's board of directors. The Company has elected to match one hundred percent (100%) of employee contributions, limited to two percent (2%) of compensation from January 1, 2013 through the period ended March 31, 2014. Effective April 1, 2014, the Plan was amended to increase the employer match to three percent (3%) of compensation. Additional discretionary contributions may be made at the option of the Company's board of directors.

Employee contributions

Participants may contribute up to 100% of their annual compensation as defined in the Plan, but are limited to the maximum dollar amount allowable under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to IRC limits. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts

Each participant's account is credited with the participant's contributions, any employer contributions, and an allocation of investment interest and dividends, if any. Investment gains or losses applied to a participant's account are based on the units held by the participant in the applicable fund(s) or another method as prescribed by the plan document. Participants may direct their account balances into any of the investment options offered by the Plan.

Note 1 - Description of Plan - (Continued)

Vesting
Participants are immediately vested in their voluntary contributions and any earnings or losses thereon. Vesting in Company contributions and any earnings or losses thereon is based on years of continuous service as follows:

Years of Service	Vested Percentage
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 or more years	100%

Payment of benefits
The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Upon death, disability, or retirement, a distribution from the Plan will be made in one lump-sum payment equal to the value of the participant's vested account.

Administrative expenses
Administrative expenses cover the routine expenses for services of lawyers, accountants, third party administrators, and other advisors. The Plan requires that certain expenses related to the Plan be paid directly by the Employer, but permits certain expenses incurred to administer the Plan to be paid from Plan assets.

Certain Plan investments are shares of pooled separate accounts and a guaranteed interest account managed by affiliates of the Custodian for which certain fees paid to the Custodian for investment management services are incorporated into the expense ratios of the Plan's individual funds and paid directly from fund earnings, thus impacting Plan earnings.

Forfeitures
Forfeitures of terminated participants' non vested account balances may be used to reduce administrative expenses and to reduce Employer contributions. Forfeited accounts available for the Employer to reduce future administrative expenses and matching contributions totaled $699 and $14,595 at December 31, 2014 and 2013, respectively. Approximately $16,024 in forfeitures were applied to reduce matching contributions for the year ended December 31, 2014.

Note 1 - Description of Plan - (Continued)

Participant loans receivable

Loans may be made to participants at their request subject to certain statutory and Plan limitations on principal and repayment provisions. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. No more than two loans may be outstanding at any one time, with the second loan available only for the purchase of a principal residence. Loan terms may range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear an interest rate of 5.25% as of December 31, 2014, and a range from 5.25% to 7.00% at December 31, 2013, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Participant loans are recorded at their unpaid principal balance plus any unpaid accrued interest.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and present the net assets available for benefits and changes in those assets.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Accordingly, actual results could differ from those estimates. See discussion below of significant estimates used to measure fair value of investments.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances.

Investments valuation and income recognition

Participants direct the investment of their contributions into a variety of investment options offered by the Plan, including several pooled separate accounts and a fixed account. The Plan's investments are stated at estimated fair value as determined by the Custodian (see Note 3). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Note 2 - Summary of Significant Accounting Policies - (Continued)

Payment of benefits
Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid.

Adoption of New Accounting Rules
On May 1, 2015, the Financial Accounting Standards Board (FASB) issued updated guidance related to fair value measurement and the disclosures for investments in certain entities that calculate net asset value (NAV) per share (or its equivalent). The updated guidance applies to reporting entities that elect to measure the fair value of certain investments using the NAV per share (or its equivalent) of the investment as a practical expedient. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of when the investment is redeemable with the investee at NAV. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. The presentation for investments valued using the practical expedient will be presented as a single reconciling item between the fair value of investments reported on the statement of net assets and the amounts reported in the fair value hierarchy table. The amendment is effective for the Plan for fiscal years beginning after December 15, 2015, and shall apply retrospectively to all periods presented. Earlier application is permitted.

In July of 2015 the FASB issued a new Accounting Standards Update (ASU) that simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts, plan investment disclosures, and measurement date practical expedient. The guidance is contained in ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. These amendments are effective for all Plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. This ASU should not change total net assets available for benefits; however, it may affect the presentation of the financial statements and the information contained in the disclosures. The Plan's administrator is currently evaluating the impact the updated guidance related to fair value measurement and the ASU will have on the Plan's financial statement disclosures, but does not expect the effect to be material.

Note 3 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. US GAAP also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Three levels of inputs may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time and the methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair value. Although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

Plan investments held in pooled separate accounts (PSAs) are stated at net asset value (as a practical expedient) which is calculated by the Custodian, based on quoted market prices of the PSAs' underlying investments, less any fees charged by the Custodian and are classified in level 2 of the fair value hierarchy.

The guaranteed interest account is valued, as reported by the issuer, based on the fair value of the underlying investments plus contributions and interest credits, less any fees paid by the fund for its expenses, and are classified within level 3 of the valuation hierarchy (Note 5).

Note 3 - Fair Value Measurements - (Continued)

The following tables present the Plan's fair value hierarchy for those assets measured at estimated fair value as of December 31:

Note 3 - Fair Value Measurements - (Continued)

Pooled Separate Accounts –The goal of the PSAs is to provide a high level of performance through competitive investment strategies and experienced portfolio management teams as follows:

Asset Allocation Funds - The investment objective aims to balance risk and reward by apportioning a portfolio's assets according to an individual's goals, risk tolerance and investing horizon.

Bond Funds - The objective is to invest primarily in bonds and other debt securities by allocating assets among developed and high-quality emerging markets, incorporating inflation-linked bonds and emerging market currencies to proactively protect against the threat of rising interest rates.

Global and International Funds - The investment objective of the international stock options is to provide long-term growth of capital by investing in value oriented companies in developed markets located outside of the United States.

Large-Cap Funds - The investment objective of the large capitalization options is to provide long-term growth of capital primarily using domestic large capitalization securities with a value oriented style of management.

Small and Mid-Cap Funds - The investment objective of the small capitalization options is to provide long-term growth of capital primarily using domestic small-cap securities with a value oriented style of management. The investment objective of mid-capitalization options are to provide long-term growth of capital by primarily investing 80% of its net assets in securities of mid-capitalization companies, companies similar to those in major midcap value indexes, emphasizing the securities' value, business health, and business momentum.

Guaranteed Interest (Fixed) Account – The investment seeks to achieve investment income consistent with the preservation of principal, primarily through investments in federal and other government bonds, corporate bonds and commercial mortgages. These assets are commingled with the general assets of the Custodian.

Note 4 - Investments

The Plan's investments, at fair value, representing 5% or more of the Plan's net assets available for benefits, are as follows at December 31:

	2014	2013
Great-West Lifetime 2025 Portfolio – I T1	$ *	$ 199,276
Key Guaranteed Portfolio Fund	536,387	493,773
Great-West Moderately Conservative Profile II	222,713	171,521
Great-West S&P 500 Index	229,647	*
Oakmark Equity & Income II	238,916	195,555
Oakmark International II	*	143,976
PIMCO Total Return Admin	487,326	469,848

* Investment did not represent 5% or more of net assets available for benefits as of year-end.

Note 5 - Contracts with Insurance Company

Accounting Standards define the circumstances in which an investment contract, or similar instrument, is considered fully benefit-responsive, and requires such contracts to be reported at fair value on the statements of net assets available for benefits with a corresponding adjustment to reflect net assets and investments at contract value.

The Plan has a Group Annuity Contract (the contract) with the Custodian under which the Custodian maintains certain participant directed contributions in a guaranteed interest account (GIA) which is commingled with the general assets of the Custodian. The GIA can be terminated by the Custodian if the total fair value of the investments or the annual contribution amounts falls below minimum levels as stated in the contract. The GIA can also be terminated by either the Company or Custodian for additional reasons as defined in the contract. Certain events, such as the premature termination of the GIA by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the Custodian. The plan administrator believes the occurrence of such events (which would also limit the Plan's ability to transact at contract value with Plan participants) is not probable. The GIA is fully benefit-responsive, as defined by U.S. GAAP, and as such, is reported in the Plan's financial statements at fair value.

The average yield for the GIA for the year ended December 31, 2014 was 1.25%. The crediting interest rate for the contract for both years ended December 31, 2014 and 2013 was 1.25% and 1.26%, respectively. The crediting interest rate ranges from 1.0% to 3.0% and is determined and reset by the Custodian every six months, but may not be less than 1.00%. Because the crediting interest rate resets frequently and did not change significantly from year to year, the contract value for the guaranteed interest account approximates fair value at December 31, 2014 and 2013.

Note 6 - Information Prepared and Certified by Custodian (Unaudited)

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of ERISA. Accordingly, as permitted under such an election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following investment information, and related activity, certified by the Custodian as accurate and complete, except for comparing such information to corresponding information included in the Plan's financial statements and supplemental schedule. The Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of December 31:

	2014	2013
Investments, at fair value:		
Cash, interest bearing	$ 699	$ 26,541
Pooled separate accounts, at fair value	2,382,727	1,985,665
Guaranteed interest account, at estimated fair value	536,387	493,773
Participant loans	134,823	144,084
Total	$ **3,054,636**	$ **2,650,063**

Note 6 - Information Prepared and Certified by Custodian (Unaudited) - (Continued)

	2014
Investment income:	
Interest and dividends	$ 6,495
Interest on participant loans	6,289
Net appreciation in fair value of investments	111,811
	$ **124,595**

Note 7 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would have various options for the disposition of their 100% vested accounts as defined in the plan document.

Note 8 - Income Tax Status

Effective January 1, 2009, the Plan adopted the prototype plan document sponsored by the TPA. The TPA received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which states that the prototype plan document satisfies the applicable provisions of the IRC. The Plan has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting standards require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 9 - Parties-in-Interest

Parties-in-interest are defined by ERISA as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. As such, transactions conducted by the Custodian and its affiliates and the Company, on behalf of the Plan, qualify as party-in-interest transactions. The Plan's sponsor pays certain expenses on behalf of the Plan. The Plan Sponsor incurred $3,238 in expenses related to services rendered by the TPA.

The Custodian retains as compensation, any interest on amounts earned while certain transactions are pending. This applies to both contributions and distributions.

Note 10 - Subsequent Events

On January 1, 2015, an amendment was enacted to switch the Plan to a Safe Harbor match. The Company match became 100% of total employee contribution up to 3% of compensation, plus the next 2% at 50% of compensation. All participants were immediately vested 100% in the new Safe Harbor matching contributions, but matches made prior to January 1, 2015 are still subject to the original vesting schedule.

Effective January 1, 2015, an amendment was enacted to remove the age requirement in determining eligibility for participation in the Plan. The requirement for completing one year of service remains unchanged.

The Plan Administrator has evaluated subsequent events through September 21, 2015, the date the financial statements were available to be issued.
