401(k) PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

Note 1 – Description of the Plan

Advanced Cabling Systems, L.L.C. (the Company or Employer) sponsors the Advanced Cabling Systems, L.L.C. 401(k) Profit Sharing Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for nonresident aliens who receive no compensation from the Employer which constitutes U.S. source income, and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Company. Certain officers of the Company serve as the Plan trustees. Voya Retirement Insurance and Annuity Company (the Custodian or VRIAC) serves as the custodian of the Plan, processes and maintains the records of the participant data and holds the Plan's assets.

Eligibility

Nonexcluded employees who have reached 18 years of age and have completed three consecutive full calendar months of employment are eligible to participate in the Plan. Participants are automatically enrolled in the Plan on the first day of the calendar quarter after satisfying eligibility requirements.

Contributions

Each year, participants may contribute up to 100% of pretax compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Eligible employees are automatically enrolled in the Plan with a 3% employee deduction. Eligible employees who do not wish to participate in the Plan may affirmatively elect to opt out, or they may elect a different contribution percentage.

The Plan also provides for discretionary Employer matching contributions. During 2014, the Company matched 100% of deferrals up to 6% of a participant's annual eligible compensation. Employer matching contributions are based on deferrals made each payroll period. Discretionary Employer matching contributions are only given to eligible participants who have completed at least 1,000 hours of service during the Plan year and are employed on the last day of the Plan year, or those participants who have died, become disabled or have retired during the Plan year.

Additional Employer discretionary contributions and qualified nonelective contributions (QNEC) may be contributed by the Employer at the discretion of the Company's board of directors. No additional Employer discretionary contributions or qualified nonelective contributions were made in 2014.

Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and Employer matching contributions, as well as allocations of Employer discretionary and qualified nonelective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and QNEC, plus actual earnings thereon. Vesting in Employer matching and discretionary contributions is based upon years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than one year	0%
One, but less than two	20%
Two, but less than three	40%
Three, but less than four	60%
Four, but less than five	80%
Five years or more	100%

Participants automatically become 100% vested upon: 1) normal retirement (attainment of age 65); 2) disability; or 3) death. Participants who terminate for any other reason are entitled to the vested amount of their accounts.

Notes receivable from participants

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000, reduced by the highest outstanding loan balance during the preceding 12-month period, or 50% of their vested account balance. The loans are secured with 50% of the participant's account and bear interest at a rate of 4.25%, which is based on prime rate plus 1% on the date of origination. Only one loan may be outstanding at any given time. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon retirement, termination, disability or death, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Additionally, participants may take an in-service distribution upon reaching the age of 59½. In-service distributions may also be taken from specific account balances by participants who have participated in the Plan for least 60 months, or if amounts being withdrawn have been held in the Plan for at least two years. Upon termination, automatic

distributions are required for balances of less than \$1,000. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 70½.

Participants who were automatically enrolled in the Plan have the option to withdraw their deferrals without penalty within 90 days of their automatic enrollment date.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws.

Forfeitures

Forfeitures are first used to pay Plan administrative expenses then to reduce Employer contributions. For the year ended December 31, 2014, forfeitures in the amount of \$26,257 were utilized to reduce Employer matching contributions. The Plan had \$7,175 and \$2,504 in unallocated forfeitures at December 31, 2014 and 2013, respectively.

Administrative expenses

The Plan allows certain administrative expenses to be paid from Plan assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the Custodian and investment advisor. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. An allowance for credit losses of \$3,171 has been recorded as a result of a loan in default as of December 31, 2014. There was no allowance for credit losses recorded as of December 31, 2013. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of benefits

Benefit payments are recorded when paid. There was \$3,758 of benefits requested but not paid as of December 31, 2014.

Subsequent events

The Plan administrator has evaluated subsequent events through September 21, 2015, the date the financial statements were available to be issued.

Effective January 1, 2015, the Plan adopted a new volume submitter profit sharing/401(k) plan document. There were no changes to the Plan's key provisions.

Note 3 – Information Certified by the Plan's Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statement of net assets available for benefits as of December 31, 2014;
- Net investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014;
- Investment information included in the footnotes and on the supplemental schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

Investment	2014	2013
VRIAC VY Invesco Equity and Income Portfolio	\$ 627,134	\$ 503,703
VRIAC Fidelity VIP Contrafund Portfolio	203,914	154,486
VRIAC VY T. Rowe Price Growth Equity Portfolio	181,343	141,413
VRIAC VY Oppenheimer Global Portfolio	106,366	89,884
VRIAC Fidelity VIP Growth Portfolio	-	83,575

For the year ended December 31, 2014, the Plan's pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$101,815.

Note 5 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2014 and 2013. During the year ended December 31, 2014, there were no transfers of financial instruments into or out of Level 3. Following is a description of the valuation methodologies used for assets measured at fair value:

Fixed account – The Plan entered into a contract with the Custodian that includes a fixed account that guarantees interest. The value of the fixed account is determined by the daily crediting of interest which is subject to minimum contractual guarantees. Participants transact at contract value unless the contract discontinues, then the contract would be valued at the net surrender value by applying the contract's market value adjustment formula to the contract value. The market value adjustment includes observable inputs of a standard guaranteed crediting rate of 3% and a seven-year treasury rate.

Participants are restricted to a limitation of 10% transfer on the fixed account each year for the first four years. The investment may be redeemed with a notice period of 90 days.

Pooled separate accounts – Stated at fair value as determined by the issuer of the pooled separate accounts based on the fair market of the underlying investments. There are no restrictions on redemptions from the pooled separate accounts, and there are no unfunded commitments as of December 31, 2014.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

Note 6 – Related Party and Party-in-Interest Transactions

Certain administrative expenses, totaling approximately \$6,900 were paid by the Company on behalf of the Plan for the year ended December 31, 2014. The Company does not expect reimbursement from the Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

The Plan's investments are managed by the Custodian. These transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Employer contribution portion of their account.

Note 8 – Tax Status

The Company adopted a volume submitter profit sharing plan (VSPS Plan) sponsored by ASC Institute LLC. The Internal Revenue Service has determined and informed the VSPS Plan sponsor by a favorable opinion letter dated March 31, 2008, that the VSPS Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the Code). The VSPS Plan's opinion letter is being relied on by the Plan. Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt. The Plan administrator believes the Plan is no longer subject to income tax examinations for years ended prior to 2011.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:
