NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Electro Technik Industries, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Electro Technik Industries, Inc. (the "Company") and its subsidiaries Res-Net Microwave, Inc., Raycom Electronics, Inc., Hytronics Corp. and Arizona Capacitors, Inc. who have one year of service and are age twenty-one or older as defined in the Plan. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 ("ERISA"), as amended.

Administration of Plan Assets

Principal Life Insurance Company, for the purpose of administration of investments and record keeping, holds all of the assets. The agreement with Principal Life Insurance Company provides for the investments and contributions to be self-directed by the participants and accounted for in separate funds. Certain administrative functions are performed by employees of the Company. No compensation is remitted to the Company for these services. Administrative expenses, recordkeeping fees and audit fees are paid by the Company. Fees for distributions, loans and other participant related activity are charged directly to the participants. Administrative expenses of $1,369 and $391 were incurred by the Plan for the plan years 2014 and 2013.

Notes Receivable from Participants

Participants may borrow the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with bank interest rates, as required by the plan document.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Benefit Payments

Under terms of the Plan, participants are eligible to receive retirement benefits in a cash lump sum distribution (1) upon reaching age 59-1/2, (2) in the event of undue financial hardship, (3) upon selecting early retirement, (4) upon the death or disability of the participant or (5) upon termination of service for other reasons.

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Contributions

Each year participants may contribute a portion of eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make matching contributions at the discretion of the Company's Board of Directors. Company matching is based on a percentage of the participant's contribution up to a maximum of 6 percent of compensation. The Company made no matching contributions for 2014 or 2013.

Forfeitures

At December 31, 2014 and 2013, there were no forfeited non-vested accounts. These accounts would have been used to reduce future Plan expenses and employer contributions. In 2014 and 2013, no forfeitures were applied to administrative expenses or used to reduce employer contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts

Tax Status

The Internal Revenue Service ("IRS") determined and informed the Principal Life Insurance Company by a letter dated March 31, 2008 that the Principal Financial Group Prototype Non-standardized Profit Sharing Plan adopted by the Plan effective March 1, 2010 is designed in accordance with applicable sections of the Internal Revenue Code. In 2014, the IRS has determined and informed the Principal Life Insurance Company by a letter dated March 31, 2014 that the Principal Financial Group Prototype Non-standardized Profit Sharing Plan (restatement to the new pre-approved 2nd submission prototype plan for the second six-year cycle) adopted by the Plan effective September 14, 2014 is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has not applied for its own determination letter from the Internal Revenue Service. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America ("U.S. GAAP") require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements.

NOTE 1: DESCRIPTION OF THE PLAN (Continued)

Tax Status (Continued)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") establishes the source of authoritative U.S. GAAP recognized by the FASB to be applied by nongovernmental entities. On the effective date, the ASC superseded all then-existing standards. The FASB updates the ASC through the use of FASB *Accounting Standards Updates* ("ASUs").

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. GAAP.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosures regarding fair value measurements. Shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Purchases and sales of investment are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Distributions to participants are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as a distribution based upon the terms of the Plan document.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts during the reporting periods. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that a change in the values of investment securities will occur in the near term and that these changes could materially affect amounts reported in the financial statements.

Subsequent Events

Management of the Plan applies the provisions of ASC 855, *Subsequent Events*, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before the financial statements are issued. See Note 5, *Subsequent Events.*

NOTE 3: INVESTMENT IN RETIREMENT PLAN (UNAUDITED)

Financial Information Certified By Trustee (Unaudited)

Guaranteed Fixed Income Account	**4,180**	196
Total	**$ 112,307**	$ 291,285

NOTE 4: FAIR VALUE MEASUREMENTS

Management of the Plan applies ASC 820, *Fair Value Measurements*, which establishes a framework for measuring fair value and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of the input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following tables present the fair value of the investments recorded at fair value on a recurring basis, segregated among the appropriate levels within the fair value hierarchy for the years ended December 31, 2014 and 2013, respectively:

Total investments	$ 1,915,112	$ -	$ 1,611,447	$ 303,665

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methodologies used for these items, as well as the general classification of such items pursuant to the fair value hierarchy of ASC 820:

Separate Accounts: The unit values of separate accounts are calculated based on the net assets of the underlying securities. Inputs used to determine the total net asset value per unit were all observable. A separate account is considered a level 2 because its net asset value per unit is not a publicly quoted price. There are no unfunded commitments related to these investments, and there are no significant restrictions on the ability to sell the investments. Significant strategies of separate accounts are to invest in investment vehicles that act similarly to mutual funds.

Guaranteed Interest Accounts: The guaranteed interest account is considered a level 3 investment as none of the parameters for calculating fair value are available publicly. The fair value is provided by the trustee and reviewed by management. The fair value is determined by making adjustments to the contract value that takes into account the current rates of interest available in the marketplace for similar guaranteed interest accounts. Management reviews the fair value provided by the trustee at year end for reasonableness.

A summary of changes in the fair value of level 3 assets is as follows:

Guaranteed Interest Account		**2014**		2013
Beginning balance	**$**	**303,665**	$	331,938
Total realized gain/(losses)		**1,431**		(3,162)
Interest credited		**2,749**		3,358
Purchases		**130,357**		59,842
Sales		**(214,537)**		(88,311)
Ending Balance	**$**	**223,665**	$	303,665

NOTE 4: FAIR VALUE MEASUREMENTS (Continued)

The following table represents the Plan's level 3 financial instruments, the valuation technique used to measure the fair value of those financial instruments, and the significant unobservable inputs and ranges of the values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Guaranteed interest account	$ 223,665	Market value adjustment	Composite Guaranteed Rate	.72%-1.97%	Y

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of levels 1, 2, or 3. For the year ended December 31, 2013, management of the Plan reclassified the separate account funds because the accounts do not have a publicly available net asset value per share.

NOTE 5: SUBSEQUENT EVENTS

Management of the Plan evaluated all events or transactions that occurred after December 31, 2014 through August 26, 2015, the date the financial statements were available to be issued.
