NOTE 1 DESCRIPTION OF THE PLAN

Organization

The Norcom Realty and Affiliates 401(k) Plan (the "Plan") is a defined contribution plan covering all eligible employees of Norcom Realty Corp. and SE Independent Delivery Services, Inc. (collectively referred to as the "Company", the "Employer", or the "Plan Sponsor"). The Plan was established on January 1, 2000, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The following brief description of the Plan provides only general information. Participants should refer to the Summary Plan Description or Plan Document for a more complete description of the Plan's provisions.

General

The Plan covers all eligible employees, as defined by the Plan Document. To participate in the Plan, employees must complete one half year of credited service, as defined in the Plan Document, and attain the age of 21.

During the year ended December 31, 2014, there were approximately $131,000 of assets transferred out of the Plan and approximately $22,000 of assets were transferred into the Plan for employees who transferred to or from other affiliated plans.

Contributions

Participants in the Plan may contribute up to 50% of their annual pretax compensation, not to exceed $17,500, the maximum allowed by the Internal Revenue Code (the "Code") for 2014. The Plan also allows for post-tax contributions to a Roth 401(k). In addition, the Plan permits participants age 50 or over during the Plan year to make additional "catch-up contributions" to the Plan of up to $5,500 for 2014. Participants may also contribute amounts representing distributions from other qualified retirement plans.

The Company may make a discretionary profit sharing contribution, which may vary from year to year. The Company's Board of Directors determines the Company's matching contributions to the Plan, which shall not be in excess of 8% of each eligible participant's compensation in any Plan year. As of the last day of each Plan year, the total Company matching contribution and profit sharing contribution to the Plan for that year will be allocated to the account of each eligible participant who is still employed on the last day of the year or who terminated employment due to death, disability, or retirement during the Plan year. For the year ended December 31, 2014, the Employer matching contribution was approximately $70,000.

Investment Options

Upon enrollment, a participant may direct participant and Employer contributions to any of the Plan's fund options. Participants have a choice of 15 investment options as of December 31, 2014. Participants may also redirect their contributions or exchange their existing fund account balances on any business day.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocation of Employer contributions and Plan investment results. Allocations are based on compensation or a ratio of the participant's specific account balance to the total of all participants' account balances, as specified in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Notes Receivable From Participants
Participants may borrow from their account balances a minimum of $1,000 to a maximum of the lesser of one half of the vested account value or $50,000. The note must be repaid in at least quarterly installments, amortized over a term of no more than four years, unless the note is for the purchase of a primary residence, in which case a reasonable repayment period is determined at the time of the note. A participant may not have more than one loan outstanding at any point in time. The notes are secured by the balance in the participant's account and bear interest at 4.25% - 7%, which is commensurate with bank interest rates at the inception of the notes, as required by the Plan Document. Principal and interest are paid ratably through payroll deductions. The Plan provides for a single, lump-sum repayment at any time.

Vesting
Participant's contributions, including rollover contributions, and actual earnings thereon, are 100% vested. Employer contributions and actual earnings thereon are incrementally vested over six years of credited service.

Payment of Benefits
Upon death, disability, retirement, or termination of service, participants or their designated beneficiaries may receive a lump-sum payment amount equal to the vested amount of their account.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right to amend or discontinue the Plan at any time subject to the provisions of ERISA. Upon termination of the Plan, the account of each participant will be 100% vested.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting and in conformity with generally accepted accounting principles in the United States ("GAAP").

Use of Estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates that affect the amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments

The Plan's investments, comprised of mutual funds, common/collective trust funds, common stocks, and cash and equivalents are stated at fair value as reported by Bank of America, N.A. (the "Trustee"), on the last business day of the Plan year. Investments in mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

The common/collective trust funds are valued at the Net Asset Value (the "NAV") of units managed by State Street Global Advisors, the investment management division of State Street Bank and Trust Company. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. See fair value measurements footnote at Note 4.

The fully benefit-responsive investment contract is stated at fair value and then adjusted to contract value in the statements of net assets available for benefits. The contract is presented on a contract value basis in the statement of changes in net assets available for benefits. See investment contract footnote at Note 5.

Purchases and sales of securities are recorded on a trade-date basis. Gain or loss on sales of securities is based on average cost. Dividend income is recorded on the ex-dividend date. Interest income is recognized as earned on the accrual basis.

In the statement of changes in net assets available for benefits, the Plan presents the net depreciation in the fair value of its investments. This consists of the realized gains or losses and the unrealized appreciation / (depreciation) on those investments.

Benefit Payments

Benefits are recorded when paid.

Forfeitures

Forfeitures of terminated non-vested accounts are used to reduce Employer contributions.

There was no forfeiture balance at December 31, 2014 or 2013.

Plan Expenses

Record-keeping fees and audit fees are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payments to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Excess Contributions

The statements of net assets available for benefits include a liability for contributions of certain participants in excess of amounts allowed under Sections 401(k) and 401(m) of the Code that will be refunded to the participants.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan Document.

Subsequent Events

In accordance with Financial Accounting Standards Board Accountancy Standards Codification "FASB ASC" Topic 855, *Subsequent Events,* the Plan evaluated subsequent events through August 3, 2015; the date the financial statements were available for issue.

NOTE 3 INVESTMENTS

During 2014, the Plan's investments (including investments purchased, sold, as well as held during the year) depreciated in fair value as determined by quoted market prices as follows:

Investments, at fair value	$ 4,080,806	$ 3,646,966

*Investment did not represent 5% or more of the fair value of the Plan's net assets.

NOTE 4 FAIR VALUE MEASUREMENTS

In accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*, the Plan assessed the guidelines for measuring fair value. These guidelines provide a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. FASB ASC 820 establishes three levels of fair value hierarchy that are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in inactive markets. Inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data are also included. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following methods and assumptions were used to estimate fair value of each class of assets that are recognized at fair value.

Mutual funds and common stocks
The investments are public investment vehicles valued using the NAV provided by the administrator of the Fund. The NAV is based on the value of the underlying assets owned by the Fund, minus the liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Common/collective trust funds
These investments are public investment vehicles valued using the NAV provided by the administrator of the Fund. The NAV is based on the value of the underlying assets owned by the Fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within the Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Cash and equivalents
The cash and equivalents balance is carried at cost which approximates fair value due to the short term nature. As such, this balance is classified within Level 1 of the valuation hierarchy.

As of December 31, 2014 and 2013, the Plan's participant-directed investments measured at fair value on a recurring basis by the fair value hierarchy levels described above are as follows:

	December 31, 2014			
	Fair Value Hierarchy			
	Level 1	Level 2	Level 3	Total

NOTE 5 INVESTMENT CONTRACT

The Invesco Stable Value Retirement Trust Fund (the "Fund") is a collective trust fund which invests in a diversified portfolio of stable assets which include, but are not limited to, units of collective trust funds consistent with the Fund's objective of stable value, bonds, notes, and alternative, synthetic and separate account guaranteed investment contracts (GIC's). In determining fair value, the trustee considers such factors as the benefit-responsiveness of the investment contracts, the ability of the parties to the investment contracts to perform in accordance with the terms of the contract and, the likelihood of default by the issuer of an investment security.

In a traditional GIC, the issuer takes a deposit from the Fund and purchases investments that are held in the issuer's general account. The issuer is contractually obligated to repay the principal and a specified rate of interest guaranteed to the Fund.

In a wrap contract, the underlying investments are owned by the Fund and held in trust for Plan participants. The fund purchases a wrap contract from a high quality insurance company or bank. The wrap contract amortizes the realized and unrealized gains and losses on the underlying bonds, typically over the duration of the bonds, through adjustments to the future interest crediting rate. All wrap contracts provide for a minimum interest crediting rate of zero percent.

Wrap contracts' interest rates typically reset on a monthly or quarterly basis. Most wrap contracts use a formula that is based on the characteristics of the underlying bond portfolio. Over time, the interest rate formula amortizes the Fund's realized and unrealized market value gains and losses over the duration of the underlying bonds. Changes in market interest rates affect the yield to maturity and the market value of the underlying bonds. As a result, these changes can have a material impact on the contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying bonds, which also impacts the interest crediting rate. The resulting gains and losses in the market value of the underlying investments relative to the contract value are represented on the Statements of Net Assets Available for Benefits as the "Adjustment from fair value to contract value for fully benefit-responsive investment contracts", which was approximately $9,000 and $4,000 as of December 31, 2014 and 2013, respectively.

The average yield earned by the entire Fund, which is calculated by dividing the annualized earnings of all investments in the Fund by the fair value of all investments in the Fund, was 1.53% for the year ended December 31, 2014. The average yield earned by the entire Fund, with an adjustment to reflect the actual interest rate credited to participants, was 1.59% for the year ended December 31, 2014.

In the event that the Plan is terminated, there is a material adverse change to the provisions of the Plan, or the Company elects to withdraw from the fund in order to switch to a different investment provider, the amount withdrawn from the fund would be payable at fair value rather than at contract value. The Plan administrator, however, believes that the occurrence of such event is not probable.

The issuer may terminate the contract upon receiving short notice of the Plan's loss of its qualified status, incurable material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the issuer could terminate the GICs at the hypothetical market value based upon a contractual formula while it could terminate the wrap contract at the market value of the underlying bonds.

NOTE 6 INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 22, 2013, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable

requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is subject to income tax examinations for up to three years after income tax returns are filed.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of compliance as permitted by Section 29 CFR 2520.109(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the Trustee of certain Plan assets, has certified to the completeness and accuracy of the funds held by them in the reflected statement of changes in assets available for benefits for the year ended December 31, 2014 and the schedule of assets held for investment purposes as of December 31, 2014.

NOTE 9 PARTIES IN INTEREST

Certain Plan investments are funds managed by the Trustee. Transactions involving these investments are considered to be party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of approximately $1,000 which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Plan's operations.

RECONCILIATION OF FINANCIAL STATEMENT TO FORM 5500
