NOTE 1 - DESCRIPTION OF PLAN

The following description of the Kehoe Designs 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution 401(k) plan covering all employees of the company who are age twenty-one or older and who are not covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is maintained by Kehoe Designs, Inc. (the Company)

Contributions. Each year, the participants may contribute from 1% to 90% of their eligible earnings up to a maximum of pretax annual compensation not to exceed the limits set forth in the Internal Revenue Code.

Matching Contributions. The Company may make a discretionary matching contribution equal to a percentage of the amount of the salary reduction the employee elected to defer, to be determined each year by the Company. A participant must be employed by the Company on December 31 to receive the matching contribution, if any. During the year 2014, the Company did not make any such a matching contribution.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after four years of credited service. In addition, the participant is always 100% vested in the Employer's special discretionary contributions made to the Plan.

Investment Options. The Plan provides participants with thirty investment options. Plan participants may access their investments online and are allowed to change their investments options at any time.

Participant Loans. Effective February 1, 2011, the plan was amended to allow participant loans and the loan procedures were outlined in the Service Agreement. As of December 31, 2014 and 2013, participants had $7,931 and $11,143, respectively, in outstanding loan balances. Interest rates ranged from 5.25% to 9.32% and have maturity dates from November 2015 through December 2016.

Payment of Benefits. Benefits are payable to a participant or the participant's designated beneficiary upon the participant's termination or retirement from the Company or disability or death. Benefits may be payable as lump sum distributions or in installments.

Forfeited Accounts. Forfeitures of non-vested Company contributions are used to reduce administrative expenses or offset future employer contribution amounts. During 2014, the Plan had $191 in forfeited non-vested amounts available for reallocation.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The accounts of the Plan are maintained, and the accompanying financial statements have been prepared, on the modified cash basis of accounting. That basis differs from generally accepted accounting principles primarily because the Company has not recognized plan expenses owed and benefits payable and their related effects on net assets.

Use of Estimates in Preparation of Financial Statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of investment valuation.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based on the Plan document.

Investment Valuation and Income Recognition. Investments are stated at the fair value amounts certified by the Plan Trustee, State Street Bank and Trust Company, as of December 31, 2014 and 2013. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Administrative Expenses. Administrative expenses of maintaining the Plan consist primarily of investment fees paid to the Trustee and professional fees. The Plan pays all such administrative expenses. Fees related to the administration of loans from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments. Administrative expenses were $5,140 in 2014.

NOTE 3 – INVESTMENTS – UNAUDITED INFORMATION CERTIFIED BY TRUSTEE

The Plan has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the recordkeeper, as agent for the trustee, has certified to the completeness and accuracy of the investments as presented in the financial statements.

The accompanying statement of changes in net assets available for benefits reflects changes to the investments certified by the agent for the trustee during the year ended December 31, 2014.

At December 31, 2014 and 2013, the Plan's investments were held by the Trustee. The Schedule of Assets Held for Investment Purposes on page 11 is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Total Investments	$ 1,567,421		$ 1,480,010	

NOTE 4 - FAIR VALUE MEASUREMENT

Investment Valuation. The Plan's investments are stated at fair value. Quoted market prices are used to value shares of mutual funds traded on a national exchange.

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures, as amended by ASU 2010-06,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 – (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: The fair values of mutual fund investments are determined by obtaining daily closing prices on nationally recognized securities exchanges. (Level 1 inputs)

Collective trust funds: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Total	$ 1,332,322	$ 136,545	$ -	$ 1,468,867

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits relative to the Plan for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 – RELATED PARTY TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During the year ended December 31, 2014, transactions with parties-in-interest consisted of trustee and administration fees paid.

NOTE 9 – CHANGE IN PLAN TRUSTEE AND RECORDKEEPER

On January 2, 2013, the assets of the plan were moved from Fidelity Investments to new plan trustee, State Street Bank and Trust Company and record keeper, ADP. Each participant account and investment account was liquidated and the funds transferred to the new trustee. In order to accommodate the moving of the plan assets, there was a blackout period from December 27, 2012 through January 18, 2013, during which no plan assets could added, redirected, or distributed.

NOTE 10 – SUBSEQUENT EVENTS

Subsequent events were evaluated through September 1, 2015, which is the date these financial statements were available to be issued. As of that date, no material events occurred which require recognition or disclosure in the financial statements.
