**Note 3 Fair Value Measurements** *Continued*

Fair value of Investments:

Fair value Measurements: Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices these are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Valuation of Mutual funds: Valued at the unit value held by the plan at year end, which approximates the net value of the actively traded mutual funds.

**Note 3 Fair Value Measurements** *Continued*

Valuation of Guaranteed Investment contracts:

Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

In determining the reasonableness of the methodology, the investment committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The fund will invest primarily in diversified fixed-income mutual funds and separately managed bond accounts run by investment subsidiaries of Great-West Life & Annuity Insurance Company, and in book value stabilizing agreements offered by high-quality financial institutions. The fixed-income portfolios are managed to provide high current income consistent with a "AA" minimum average credit quality objective. The stabilizing agreements are designed to offset price fluctuations associated with fixed-income investments by smoothing the effect of any gains or losses on the assets and to offer participants daily liquidity at book value.

The Unit Value of the Sub-account will be defined as the Unit Value of the Underlying Trust as adjusted to account for underlying Trust distributions. Withdrawals from the Sub-account will be made at the prevailing declared Unit Value as determined by the Company.

## Note 5 Administration of Plan Assets

Officers or employees of the Company perform certain administrative functions. No officer receives any compensation from the Plan for these services.

## Note 6 Investments

Great-West Retirement Services acts as custodian of the Plan's investments. Investments in pooled separate accounts are stated at fair market value as determined by reference to quoted market prices in active markets. The realized gain or loss on investments is determined using the fair value at the beginning of the year of its cost is acquired during the year, plus reinvested earnings. Investments are subject to risk due to market fluctuations.

The following presents the market value of investments that represents 5% or more of the Plan's net assets available for benefits:

**Note 7 Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

**Note 8 Tax Status**

The Plan obtained its latest determination letter in February 2006 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Services. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in

**Note 8 Tax Status** *Continued*

progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

**Note 9 Subsequent Events**

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through September 21, 2015.

**Note 10 Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Note 11 Contingencies**

The Plan has a sufficient amount in the ERISA compliance bond. No claims under this bond are known by plan sponsor or plan administrator.

**Note 12 Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of net assets available for benefits and statement of changes in net available for benefits per the financial statements and form 5500 at December 31, 2014 and 2013:
