ICF 401(K) PLAN

Notes to the Financial Statements

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - DESCRIPTION OF PLAN

ICF International, Inc. (the "Company"), established a defined contribution plan, the ICF 401(k) Plan (the "Plan"), last amended and restated January 1, 2007, to provide retirement benefits to all eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The following provides a general description of the Plan.

The Company also offers a defined contribution plan for all full time employees, the ICF Retirement Savings Plan ("RSP Plan"). During 2014, the Company elected to merge the Plan into the RSP Plan, effective January 1, 2015. On December 31, 2014, the Plan transferred account balances for active participants in the amount of $4,884,799 to the RSP Plan. The remaining assets of the Plan were transferred in early 2015.

Eligibility and Contributions - Upon employment, on-call employees are eligible to participate in the Plan. Participants may elect to make a pre-tax and/or after-tax contribution of up to 70 percent of their compensation (as defined by the Plan) to the Plan subject to annual statutory limitations.

Vesting - Participants vest immediately in their pre-tax and after-tax contributions, rollover contributions, and any earnings thereon.

Distributions - Participants may make withdrawals from their vested account balances upon attaining age 59½, retirement, death, disability, hardship, or termination of employment, as defined by the plan agreement and Section 401(k) of the Internal Revenue Code ("IRC").

Upon termination of service, if the vested value of the participant's account is $1,000 or less, the participant's benefits will be paid in a lump-sum unless the Vanguard Fiduciary Trust Company (the "Trustee" or "Vanguard") is instructed within 90 days of termination by the participant electing to make a direct rollover. If the vested value is more than $1,000, but less than or equal to $5,000, the balance of the participant's account will automatically be rolled over by the Plan into an individual retirement account with the Trustee unless the Trustee is instructed within 90 days of termination by the participant electing to make a direct rollover or receive a lump-sum payment. If the vested portion of the participant's account is more than $5,000, the participant may elect a direct rollover, lump-sum payment, installment payments not to exceed a period of ten years, or to leave the account in the Plan. If no request is made and the account is greater than $5,000, the participant's account will remain in the Plan.

Administrative Expenses - A portion of the administrative costs associated with the Plan are paid by the Company. Recordkeeping and investment management fees of approximately $12,000 are netted against net appreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

Participant Accounts - The Plan maintains an account for each participant. Each participant's account is credited with the participant's contributions and an allocation of plan earnings or losses. Participant contributions are allocated among separate investment funds as elected by the participant. Participants may change percentages contributed to the Plan and may redirect contributions and transfer existing balances between investment accounts on a daily basis. The account balances may be charged for fees related to transactions.

Investment Options - Upon enrollment in the Plan, a participant may direct contributions into a variety of investment options. Participants may change their investment options daily.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

The following summarizes the investment funds that calculate fair value based on the net asset value ("NAV") offered by the Plan as of December 31, 2014 and 2013:

Stable Value

Wells Fargo Stable Value Fund - This fund pursues its objective by actively managing a diversified portfolio of investment contracts, and the associated portfolio of underlying assets. The fund generally invests up to 95 percent of its assets in GICs, Separate Account GICs, and Security Backed Investment Contracts. The fund will generally not invest more than 3 percent of its total assets in the GICs of a single issuer at the time of purchase. The underlying assets include, but are not limited to, U.S. Treasury securities; U.S. Agency securities; asset-backed securities; certificates of deposit; corporate securities; sovereign/supranational securities; mortgage-backed securities; municipal securities; derivative instruments; money market instruments; and collective funds investing primarily in the permissible securities aforementioned above. As of December 31, 2014, the Plan was no longer invested in the fund.

Vanguard Retirement Savings Trust III - This fund pursues its objective by actively managing funds conservatively in trusts mandated for stable value funds. The fund is generally diversified among U.S. Treasury securities, high-quality mortgage-backed securities, corporate bonds, and asset-backed securities. As of December 31, 2014, the Plan was no longer invested in the fund.

Life Cycle/Target Date

Vanguard Target Retirement Trust II Funds (2010 through 2060) - The funds are simple funds which seek to build appropriate asset allocation from preselected stock and bond portfolios. The allocation between funds and asset classes automatically becomes more conservative over time. The trusts handle investment selection, asset allocation, and rebalancing through retirement. One hundred percent of assets are invested in index funds. The trusts invest in Vanguard mutual funds using an asset allocation strategy designed for investors planning to retire and leave the workforce in or within a few years of the target year. The trusts' indirect bond holdings are a diversified mix of short-, intermediate-, and long-term U.S. government, U.S. agency, and investment-grade U.S. corporate bonds; inflation-protected public obligations issued by the U.S. Treasury; mortgage-backed and asset-backed securities; and government, agency, corporate, and securitized investment-grade foreign bonds issued in currencies other than the U.S. dollar (but hedged by Vanguard to minimize currency exposures). The trusts' indirect stock holdings are a diversified mix of U.S. and foreign large-, mid-, and small-capitalization stocks.

Vanguard Target Retirement Income Trust II - The fund is a simple fund which seeks to build appropriate asset allocation from preselected stock and bond portfolios. The trust handles investment selection, asset allocation, and rebalancing through retirement. One hundred percent of assets are invested in index funds. The trust invests in Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. The trust's indirect bond holdings are a diversified mix of short-, intermediate-, and long-term U.S. government, U.S. agency, and investment-grade U.S. corporate bonds; inflation-protected public obligations issued by the U.S. Treasury; mortgage-backed and asset-backed securities; and government, agency, corporate, and securitized investment-grade foreign bonds issued in currencies other than the U.S. dollar (but hedged by Vanguard to minimize currency exposures). The trust's indirect stock holdings are a diversified mix of U.S. and foreign large-, mid-, and small-capitalization stocks. As of December 31, 2014, the Plan was no longer invested in the fund.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for further information regarding fair value.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

The investments held in the various mutual funds and the common collective trusts have been valued at fair values as determined by the Trustee or the registered investment company, as appropriate, based on quoted market value or using the market approach based on market prices of similar contracts. The Plan's investment that is held in an investment contract with Vanguard as of December 31, 2014 is reported as described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. These contracts are included in the statements of net assets available for benefits based on the contract value as reported to the Plan as reported by the Trustee, which approximates fair value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The fair value of these contracts is determined using the NAV of the funds. The NAV is determined by each fund's trustee using the fair value of the underlying securities within the fund at year-end.

Net appreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year. Fees netted against net appreciation in fair value of investments represent fees charged by the Trustee and sponsoring mutual fund companies for services provided in connection with recordkeeping and investment management.

The Plan invests in common collective trusts that determine fair value using the NAV of the funds. The NAV is determined by each fund's trustee using the fair values of the underlying securities.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the reported amounts of assets, liabilities, additions and deductions, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments - Benefit payments are recorded when paid.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2015 (non-public for years beginning after December 15, 2016) with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures; and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 16, 2015, the date the accompanying financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or inputs that are corroborated by market data. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and are not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - FAIR VALUE MEASUREMENT - CONTINUED

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds - The fair values of mutual funds are based on quoted market prices on active markets of the shares held by the Plan at year end. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

Common Collective Trusts - The fair values of the common collective trusts are determined based on the fair values of the underlying investments or the NAV. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The common collective trusts, stable value funds, in which the Plan invests are comprised primarily of assets for which the fair value is based on contractual terms of the underlying investments, for which there are observable inputs. Accordingly, these fair value measurements are classified as having used Level 2 inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below presents the balances of assets measured at fair value on a recurring basis by level within the hierarchy as of December 31, 2014.

NOTE 4 - INVESTMENTS - UNAUDITED - CONTINUED

During 2014, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Net Appreciation in Fair Value of Investments:		
Mutual funds	$	125,194
Common collective trusts		73,210
	$	198,404

NOTE 5 - PARTY-IN-INTEREST

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard. Vanguard acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

NOTE 6 - PLAN TAX STATUS

The Plan obtained a prototype plan determination letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable sections of the IRC. Although the Plan has been amended since the date of the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 7 - INVESTMENT CONTRACT

In 2013, the Plan entered into a benefit-responsive investment contract with Vanguard. Vanguard maintained the assets of the contract in one or more separate accounts. The contracts are credited with earnings at interest rates that reflect the performance of the underlying portfolios. The guaranteed investment contracts issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by Wells Fargo and Vanguard, represent contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary that cause a significant withdrawal from the Plan), or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 7 - INVESTMENT CONTRACT - CONTINUED

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
