DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 - PLAN DESCRIPTION

The following description of the Franciscan University of Steubenville Defined Contribution Retirement Plan (Plan) provides only general information. Plan participants should refer to the Plan document for a complete description of the Plan.

The Plan is a contributory defined contribution plan covering most full-time and certain part-time employees of Franciscan University of Steubenville (University). Student employees are ineligible to participate. Adjunct professors, coaches and employees working less than 1,000 hours annually are eligible to participate, but are ineligible to receive matching contributions. Effective March 1, 2012, a group contract with new investment options was added and the former contract was frozen to future contributions. All eligible employees are able to participate upon hire. Additionally, the University will make matching contributions after the employee completes one month of service. Amendments were executed reflecting these actions, and a Summary Plan Description was distributed to all employees.

Each year, participants may contribute a portion of pretax annual compensation equal to 5% of annual compensation (nondeductible), subject to certain limitations under the Internal Revenue Code (IRC). Plan participants who are age 50 or older are permitted to make catch-up contributions to the Plan in accordance with the IRC. Participants may designate a portion of their elective deferral contributions as Roth elective deferral contributions. Such Roth elective deferral contributions are includible in the participant's gross income. Contributions are applied to group retirement annuity certificates issued to each participant under the group retirement trusts established by the Teachers Insurance Annuity Association (TIAA) and/or the College Retirement Equities Fund (CREF). The funds are held, invested and disbursed by TIAA-CREF. Participants have the option of transferring fund balances among CREF accounts or to a TIAA annuity prior to retirement. The University will make matching contributions based upon participants' years of service ranging from 2.5% to 10%. The Plan maintains an individual account for each participant, which is adjusted to reflect contributions, gains, losses and other activity. Effective June 1, 2013, the Plan began recognizing predecessor employer service with an institution of higher education for purposes of the allocation of employer contributions to the Plan. The recognition of predecessor employer service applies only to individuals newly hired on or after June 1, 2013.

Each participant's account is credited with the participant's contributions, University contributions, plus his or her pro rata share of Plan earnings or losses based upon participant account balances and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts. Amounts contributed by Plan participants and the earnings thereon are fully vested and nonforfeitable. Participants become 100% vested in the University's matching contribution and earnings thereon after five years of service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>

2	20%
3	40%

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 - PLAN DESCRIPTION (Continued)

Forfeited nonvested accounts used to reduce future employer contributions totaled \$3,435 for the year ended December 31, 2014.

Benefits provided by the Plan are paid from assets available for benefits at retirement, disability, death or termination of employment. Payment may be in the form of a lump-sum payout of the participant's account balance, purchase of an annuity or periodic cash payments or may be rolled over to another qualified plan.

Normal retirement age is 55. Upon reaching retirement age, or earlier termination of service at any age, a participant is entitled to and may elect to receive benefits from TIAA and/or CREF annuity accumulations under any of the following options: lump sum (with restrictions), lifetime annuity, partial payments, and installment payments not to exceed the life expectancy of the participant. Effective June 1, 2013, the Plan was amended to permit in-service withdrawals from salary deferrals only, available when a participant attains age 59-1/2. Also, the Plan began permitting hardship withdrawals from salary deferrals subject to certain restrictions. All benefits under the Plan are fully funded. Benefit annuities are provided solely through group retirement annuity certificates as selected by the participants; therefore, these benefits are not subject to, or covered by, federally funded termination insurance. (See Note 4.)

NOTE 2 - A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by management in the preparation of the accompanying financial statements follows:

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

Use of Estimates - The preparation of the financial statements in accordance with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The TIAA Traditional Non-Benefit Responsive Annuity, TIAA Real Estate, CREF accounts and TIAA-CREF annuity accounts are fully participating. Payments to variable annuity accounts buy accumulation units, or shares of participation, during the pay-in stage. The TIAA variable annuity account and CREF variable annuity accounts' accumulation units are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefit payments are recorded when paid.

DECEMBER 31, 2014 AND 2013

NOTE 2 - A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Operating Expenses - Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Investment-related expenses of \$17,577 were paid by the Plan for the year ended December 31, 2014, and are included in net appreciation in fair value of investments.

Risks and Uncertainties - The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Recent Accounting Pronouncements - In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient (ASU 2015-12), which reduces the complexity in employee benefit plan reporting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. Currently, fully benefit-responsive investment contracts are required to be measured at contract value with a reconciliation of contract value to fair value, when these measures differ, on the face of the plan financial statements. Part II eliminates the requirement to disclose individual investments representing 5% or more of net assets available for benefits for both participant-directed investments and nonparticipant-directed investments. Additionally, net appreciation or depreciation in investments for the period is no longer required to be disaggregated and disclosed by general type, however, should still be presented in the aggregate. Part II also requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. ASU 2015-12 is effective for nonpublic entities for fiscal years beginning after December 15, 2015. A reporting entity should apply the amendments to Parts I and II retrospectively to all periods presented, while Part III should be applied prospectively. Early application is permitted. The Plan administrator is currently assessing the impact of ASU 2015-12.

Subsequent Events - Management has evaluated subsequent events through September 23, 2015, the date on which the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Fair Value Measurement topic are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

FRANCISCAN UNIVERSITY OF STEUBENVILLE
DEFINED CONTRIBUTION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 3 - FAIR VALUE MEASUREMENT (Continued)

Level 2 - Inputs to the valuation methodology include: (i) quoted prices for similar assets or liabilities in active markets; (ii) quoted prices for identical or similar assets or liabilities in inactive markets; (iii) inputs other than quoted prices that are observable for the asset or liability or (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

TIAA CREF Funds - Valued using market quotations or prices obtained from independent pricing services.

CREF Funds and TIAA Real Estate - Valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing.

TIAA Traditional Non-Benefit and Benefit Responsive Annuities - Valued at the respective contract value, which approximates fair value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contract, less any withdrawals.

TIAA Stable Value Account - Contract value equals the accumulated cash contributions, interest credited, and transfers, if any, less any withdrawals and transfers, if any.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENT (Continued)

The Plan's assets at fair value, set forth by level, within the fair value hierarchy as of December 31 are as follows:

TIAA Traditional Non-Benefit Responsive Annuity II	-	-	244,133	244,133
TIAA Stable Value	-	-	136,980	136,980
Total assets at fair value	\$ 32,425,551	\$ 1,814,175	\$ 14,822,169	\$ 49,061,895

The University evaluated the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits. During the year ended December 31, 2014, the Plan administrator obtained additional information on the valuation methodologies of the TIAA Real Estate Fund, and, as a result, it was moved to Level 2 from Level 3. For comparative purposes, amounts related to the TIAA Real Estate fund for 2013 have been reclassified to Level 2 within the fair value hierarchy.

The valuation of the Plan's investments in the TIAA Traditional Annuity Accounts and TIAA Stable Value Account requires significant judgment due to the absence of quoted market prices inherent lack of liquidity and heavy reliance on Level 3 inputs. There is, however, a liquidity guarantee by the TIAA general account (i.e., TIAA ensures that the TIAA Traditional Annuity Accounts and TIAA Stable Value account have funds available to meet participant redemption, transfer or cash withdrawal requests executed at quoted unit values). The TIAA Traditional Annuity Accounts and TIAA Stable Value Account balances are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. When the accumulated value is converted to an annuity, it is converted to a present value annuity based upon the participant's life expectancy.

NOTES TO FINANCIAL STATEMENTS

NOTE 3 - FAIR VALUE MEASUREMENT (Continued)

Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate, which correlates closely with TIAA Traditional Annuity's and TIAA Stable Value Account's historical crediting rates.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments at December 31, 2014, significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range (Weighted Average)
TIAA Traditional Non-Benefit Responsive Annuity	\$14,529,660	Discounted cash flow	Risk-adjusted discount rate applied *	3.3% - 5.0%
TIAA Traditional Non-Benefit Responsive Annuity II	\$559,307	Discounted cash flow	Risk-adjusted discount rate applied *	3.6% - 5.4%
TIAA Traditional Benefit Responsive Annuity II	\$324	Discounted cash flow	Risk-adjusted discount rate applied *	2.9% - 4.6%
TIAA Stable Value Account	\$164,954	Discounted cash flow	Risk-adjusted discount rate applied *	1.0% - 3.0%
* Unobservable inputs include discount rate applied.				

The University has various processes and controls in place to ensure that fair value is reasonably estimated. The Retirement Plan Committee, which reports to the Board of Trustees, sets the valuation policies for Plan assets and is responsible for the determination of fair value.

The Retirement Plan Committee (i) compares price changes between periods to current market conditions, (ii) compares trade prices of securities to fair value estimates, (iii) compares prices from multiple pricing sources and (iv) performs ongoing due diligence to confirm that independent pricing services use market-based parameters for valuation. Valuation approaches are reviewed on an ongoing basis and revised as necessary based on changing market conditions to ensure that values represent a reasonable exit price.

NOTE 4 - BENEFIT ANNUITIES

Upon retirement, a participant's accumulation units can be converted to annuity units based on the participant's age, his or her elected income option and the current value of the annuity units. The dollar value of the annuity, and therefore the amount of each payment, is adjusted annually based on investment performance, mortality and expense provisions.

NOTE 5 - CERTIFIED INVESTMENTS (UNAUDITED)

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by TIAA-CREF for TIAA, CREF and TIAA-CREF Investment Products, or as agent for J.P. Morgan Chase Bank, N.A. This certification extends to investments recordkept by TIAA-CREF, for which J.P. Morgan Chase Bank, N.A. acts as the directed trustee and/or custodian.

NOTE 6 - INVESTMENTS (UNAUDITED)

NOTE 6 - INVESTMENTS (UNAUDITED) (Continued)

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

TIAA-CREF Funds	(120,322)
TIAA Real Estate	<u>224,378</u>

Net appreciation in fair value of investments represents the net unrealized appreciation/depreciation in investments, as well as realized gains and losses, which are calculated on a weighted-average basis for each fund.

NOTE 7 - TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b).

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The University pays for interest and penalties related to uncertain tax positions, if incurred. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 - RELATED-PARTY TRANSACTIONS

The Plan invests in shares of funds managed by TIAA, CREF and TIAA-CREF. TIAA-CREF is the Plan recordkeeper; therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan in whole or in part, subject to the provisions of Employee Retirement Income Security Act of 1974.
