LAKE MICHIGAN CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND DECEMBER 31, 2013

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Lake Michigan Credit Union 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the credit union who have completed six months of service and are age 18 or older. It is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of their pre-tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The credit union matches 50% of the employees' contributions up to 3% of compensation.

Participant Accounts

Each participant's account is increased with the participant's contribution and allocation of (a) the credit union's contributions and (b) Plan earnings based on participant account balances. Forfeited balances of terminated participants are used to reduce future employer contributions to the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vested

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the credit union's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service.

Participants earn 100% vesting percentages in employer contributions after five years of service. The vesting percentage prior to 2001 was a tiered seven-year vesting.

Participants also become 100% vested upon: (a) attainment of retirement age 65, (b) death, or (c) disability.

Payments of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time not to exceed the participant's life expectancy, or the life expectancy of the participant's designated beneficiary.

LAKE MICHIGAN CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND DECEMBER 31, 2013

Upon attaining age 59½, a participant is entitled to an in-service distribution for all or a portion of the vested account balance.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Financial Statements are prepared using the accrual basis of accounting. Employer contributions and income from investments are recorded when earned. Expenses are recorded in the accounting period in which they are incurred.

Investments

Investments in mutual funds, which are traded on a national securities exchange, are valued based on published quotations on the last business day of the year. Securities not traded as such are valued at the latest available and appropriate bid price on that date. Fund investments are valued based on the market value of the underlying investments as of the last business day of the year.

Realized gains and losses on investment transactions are recorded as the difference between proceeds received and carrying value. Net unrealized appreciation or depreciation in the fair market value of investments is recorded as the change in carrying value of the investment portfolio from the beginning of the year or date of purchase to the end of the year.

Estimates

The preparation of Financial Statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3: PLAN TERMINATION

Although management has not expressed any intent to do so, management has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 4: TAX STATUS

The Internal Revenue Service has determined and informed the credit union that the Plan and related trust are designed in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code and, therefore, is exempt from federal income taxes.

NOTE 5: PLAN EXPENSES

The credit union is responsible for the payment of certain administrative and professional costs incurred by the Plan during the years ended December 31, 2014 and December 31, 2013.

NOTE 6: INFORMATION CERTIFIED BY CUSTODIAN

For 2014 and 2013, the financial information included in the Plan's Financial Statements has been derived from information certified as complete and accurate by the Custodian, CUNA Mutual Group, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 7: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and December 31, 2013.

LAKE MICHIGAN CREDIT UNION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND DECEMBER 31, 2013

- *Common stocks, corporate bonds, and U.S. government securities.* Values at the closing price reported on the active market on which the individual securities are traded.
- *Mutual Funds.* Valued at the net asset value of shares held by the plan at year-end.
- *Participant loans.* Valued at amortization cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the plan's assets at fair value as of December 31, 2014 and December 31, 2013.
