1. DESCRIPTION OF THE PLAN

The following description of the *Tri Tool Inc. 401(k) Plan* (the Plan) provides only general information. Participants should refer to the Plan agreement and its amendments for a more complete description of the Plan's provisions.

General

The Plan, a tax-exempt trust, was established for the benefit of employees of Tri Tool Inc. and its wholly-owned subsidiary, Tri Tool Power Services Inc. (collectively, the Companies), not covered under collective bargaining agreements.

The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments.

Eligibility

All employees, except for leased employees, who are at least 18 years of age and have completed one month of service are eligible to participate in the Plan.

Plan Amendments

Effective January 1, 2015, the Plan was formally amended to increase the deferral rate for auto-enrolled employees from 3% to 6%. In addition, effective February 1, 2015, the one month service requirement was eliminated. Employees are now eligible to participate in the Plan as soon as it is administratively feasible.

Contributions

Participant contributions are made on a voluntary basis and are made through payroll withholdings. The employer is required to match employee contributions at a rate of 20% of the employee's deferral up to a maximum of $4,000 annually. The employee's deferrals are limited to the lesser of (a) 75% of the employee's compensation or (b) $17,500 for 2014 and 2013. Participants who are at least 50 years of age by the end of the year may make an additional catch-up contribution of $5,500 for 2014 and 2013. The employer will also match the additional catch-up contribution. The Plan allows for post-tax Roth contributions.

The Plan utilizes an automatic enrollment feature which enrolls employees, who do not elect out of the Plan, at a deferral rate of 3% of eligible compensation (see Plan Amendments above).

1. DESCRIPTION OF THE PLAN (CONTINUED)

Rollovers

Rollovers can be made directly from another qualified plan or if not a direct rollover, it must be received by Fidelity Management Trust Company, the trustee, within 60 days of receipt of distribution. Rollover contributions to the Plan may be made before becoming a participant. However, employees may not become a participant in the Plan and become entitled to make pre-tax contributions and share in employer contributions until the Plan's eligibility and entry date requirements are met.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Companies' contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary salary deferral contributions and in the employer contributions plus actual earnings thereon.

Investment Options

Participants may allocate their contributions among various self-directed investment options. The Plan offers various mutual funds, cash equivalents and a common collective trust.

Notes Receivable from Participants

Participants are allowed to borrow a portion of their account balance subject to certain statutory limitations. These loans are secured by the participant's account balance. Generally, the term of the loan cannot exceed five years. However, if the loan is for the purchase of a principal residence, the Plan administrator may permit a longer repayment term. The interest rate charged is determined by the Plan administrator and is based on interest rates charged on similar types of loans by other lenders. Interest is 100% credited to the participant's account. The maximum number of loans a participant may have outstanding at any one time is two.

Payment of Benefits

Benefits become payable when a participant retires, becomes disabled, terminates employment or dies. The amount of the benefit is the total vested amount in the participant's account determined as of the date of termination.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits (Continued)

Benefits amounting to $5,000 or less may be paid in a lump sum distribution, as soon as practical, following the participant's retirement, disability, termination or death. If the value of the benefit exceeds $5,000, the participant may elect to defer payment. However, benefit payments must begin before April 1st of the year following the year in which the participant attains age 70½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at their fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4, *Fair Value Measurements*, for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Investments in common collective trust funds include the Putnam Stable Value Fund. The Putnam Stable Value Fund invests in fully benefit-responsive investment contracts, including primarily guaranteed and synthetic investment contracts issued by banks, insurance companies and other issuers. The Putnam Stable Value Fund is recorded at fair value (Note 4). However, since these contracts are fully benefit-responsive, an adjustment is made to reflect this investment at contract value, which represents cost plus accrued income less redemptions. The fair value of the guaranteed investment contracts is generally determined by discounting the scheduled future payments required under the contract. The fair value of wrap contracts reflects the discounted present value of the difference between the current wrap contract cost and its replacement cost, based on issuer quotes. For assets other than investment contracts, including securities underlying synthetic investment contracts, fair value generally is reflected by market value at the close of business on the valuation date.

At December 31, 2014 and 2013, the average yield for the Putnam Stable Value Fund was approximately 1.93% and 1.94%, respectively. At December 31, 2014 and 2013, the crediting interest rate for the Putnam Stable Value Fund was approximately 2.03% and 1.86%, respectively.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Investment expenses incurred by the manager of the funds and directly related administrative expenses are deducted from the earnings of the Plan. Loan processing fees are paid by the participants through reduction in their investment balances. All other expenses of maintaining the Plan are paid by the Companies.

Subsequent Events

The Plan has evaluated all subsequent events through September 14, 2015, the date the financial statements were available to be issued.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements

The Financial Accounting Standards Board (FASB) recently issued a new Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient* that simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts, plan investment disclosures, and measurement date practical expedient. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. This ASU should not change total net assets available for benefits; however, it may affect the presentation of the financial statements and the information contained in the disclosures.

Part I - Fully Benefit-Responsive Investment Contracts (Topics 962 and 965) - Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive investment contracts. Currently, FASB ASC 962 and 965 require fully benefit-responsive investment contracts to be measured at contract value, and also require an adjustment to reconcile contract value to fair value, when these measures differ, on the face of the plan's financial statements. The amendments in Part I apply only to reporting entities within the scope of Topics 962 and 965 that classify investments as fully benefit-responsive investment contracts as defined in the FASB Master Glossary.

Part II - Plan Investment Disclosures (Topics 960, 962, and 965) - Part II eliminates the current U.S. GAAP requirements for plans to disclose individual investments that represent 5 percent or more of net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period still is required to be presented in the aggregate, but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and nonparticipant-directed investments) of the plan to be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Currently under ASC 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in FASB ASC 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required.

Part III - Measurement Date Practical Expedient (Topics 960, 962, and 965) - Part III provides a practical expedient to permit the plan to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. If a plan applies the practical expedient and a contribution, distribution, and/or significant event occurs between the alternative measurement date and the plan's fiscal year-end, the plan should disclose the amount of the contribution, distribution, and/or significant event.

3. INFORMATION PROVIDED AND CERTIFIED BY THE TRUSTEE

4. FAIR VALUE MEASUREMENTS

The Plan's financial assets and liabilities that are carried at fair value are classified for disclosure purposes, based on a hierarchy that gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The levels of the fair value hierarchy are as follows:

Level 1: Inputs for the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted market prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan is responsible for the determination of fair value. The Plan has not historically adjusted the prices obtained from the pricing services.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ended December 31, 2014 and 2013.

Mutual Funds: Each fund determines its net asset value (NAV) as of close of business of the New York Stock Exchange.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Investments in Common Collective Trusts: Valued at NAV of units held by the Plan at year end.

The Putnam Stable Value Fund is recorded at fair value and adjusted to contract value. See Note 2, *Investment Valuation and Income Recognition* under Summary of Significant Accounting Policies for further discussion.

Fidelity BrokerageLink: Primarily valued at quoted market prices.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Level 1	Level 2	Level 3	Total

Gains and losses (realized and unrealized) included in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013, are reported in net realized and unrealized appreciation (depreciation) in fair value of investments.

The Plan reviews the fair value hierarchy classification on an annual basis. Changes in the ability to observe valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy. The Plan's policy is to recognize transfers into and out of levels within the fair value hierarchy as of the actual date of the event or change in circumstances. There were no transfers between levels of the fair value hierarchy during the years ended December 31, 2014 and 2013. When a determination is made to classify an asset or liability within Level 3, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement. The Plan had no Level 3 assets at December 31, 2014 or 2013.

5. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the trustee; therefore, these transactions qualify as party-in-interest transactions.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, the accrued benefit to participants would be the value of their account balance. The net assets of the Plan would be distributed to the participants.

7. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Companies by a letter dated October 21, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. ADMINISTRATION

The Plan is administered by an Administrative Committee. The trustee serves as an administrative agent to manage the day-to-day activities of the Plan.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. EXCESS CONTRIBUTIONS

Amounts payable to the Plan participants for contributions made in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions of $22,754 in 2014. There are no excess contributions payable at December 31, 2014.
