## **Note 1 - Description of Plan**

The following brief description of the Megadyne Medical Products, Inc. Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

### **General**

The Plan is a defined contribution plan covering qualified employees of Megadyne Medical Products, Inc. (the Employer / Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### **Eligibility**

Employees are eligible to participate in the Plan if they have completed one year of service and are 21 years of age. A year of service for purposes of eligibility is a consecutive 12-month period during which the employee has 1,000 or more hours of service.

### **Entry Date**

Employees may enter the Plan on January 1 or July 1 coinciding with or following the date they satisfy the Plan's eligibility requirements.

### **Contributions**

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Employer may make discretionary matching contributions equal to a percentage of the employee's individual elected deferral. Matching contributions were made during the 2014 plan year at 100% of the first 3% and 50% of the next 2% of base compensation that a participant contributed to the Plan. The Plan also provides for annual discretionary profit sharing contributions by the Employer for all eligible employees, with employees classified into five groups: Partners, Senior Management, Management, Salaried Employees and Hourly Employees. Employer contributions for the year ended December 31, 2014 totaling \$594,789 consisted of matching contributions of \$354,790 and profit sharing contributions of \$240,000. The profit sharing contributions are allocated to participant accounts subsequent to year-end.

### **Participant Accounts**

Each participant's account is credited with the participant's contributions and the Employer's matching contributions, as well as allocations of the Employer's discretionary profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings, account balances or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### **Investment Options**

Upon enrollment to the Plan, a participant may direct deferrals and employer contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

### **Vesting**

Participants are vested immediately in their contributions, Employer matching contributions and actual earnings thereon. Vesting in the Employer's discretionary profit sharing contribution portion of their accounts is based on years of continuous service as set forth in the following table:

| <u>Participant's<br/>Years of Service</u> | <u>Vested<br/>Percentage</u> |
|-------------------------------------------|------------------------------|
| Less than 1                               | 0%                           |
| 1                                         | 20%                          |
| 2                                         | 40%                          |
| 3                                         | 60%                          |
| 4                                         | 80%                          |
| 5 or more                                 | 100%                         |

### **Forfeitures**

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$145 and \$14,128, respectively. These accounts will be used to reduce future employer contributions or pay plan expenses. During the year ended December 31, 2014, employer contributions were reduced by \$14,000 from forfeited non-vested accounts.

### **Notes Receivable from Participants**

Participant loans are not allowed by the Plan.

### **Payment of Benefits**

Participants may elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the Plan document upon retirement, termination, death or disability. A terminated employee with a balance of less than \$1,000, may be automatically paid out by the Plan upon termination. Any terminated participants with a balance between \$1,000 and \$5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account. Distributions may be made at the participant's election prior to termination upon attainment of age 59 1/2 or hardship as defined in the Plan document.

### **Death Benefits**

The designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

## **Plan Termination**

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

## **Note 2 - Significant Accounting Policies**

### **Basis of Accounting**

The financial statements of the Plan are prepared using the accrual basis of accounting.

### **Use of Estimates**

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

### **Investment Valuation and Income Recognition**

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and other third parties.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

### **Payments of Benefits**

Benefit payments to participants are recorded upon distribution.

### Administrative Expenses

The Plan's expenses are paid by either the Plan or the Employer, as provided by the Plan document. Expenses that are paid directly by the Employer are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

### Subsequent Events

The Plan sponsor has evaluated subsequent events through September 02, 2015, the date which the financial statements were available to be issued.

### Note 3 - Investments

The Plan's investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013 are as follows:

|                                                         | 2014         | 2013         |

\* Investment balance less than 5% of the Plan's net assets for the applicable year.

During the year ended December 31, 2014, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$705,676.

The classification of investment earnings reported above and in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

#### **Note 4 - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts: Valued at fair value based on the net asset value (NAV) of the observable market prices of the underlying assets within that account less liabilities.

Group Annuity Contract: The fair value of the guaranteed investment contract is principally measured using a market value formula approach.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets for the period are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

### Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan Administrator has evaluated the transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014 there were no significant transfers in or out of levels 1, 2, or 3.

Fair Value Measurement and Disclosure (Topic 820): Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent) requires disclosures of certain attributes in entities that calculate a net asset value per share (or its equivalent) and do not have a readily determinable fair value. The following tables set forth the disclosure of the attributes at December 31, 2014 and 2013:

|                              | 2014       |                         |                         |                             |

### Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2014 and 2013, respectively and the significant unobservable inputs and the ranges of values for those inputs:

| 2014                   |              |                               |                                          |                                   |
|------------------------|--------------|-------------------------------|------------------------------------------|-----------------------------------|
| Instrument             | Fair Value   | Principal Valuation Technique | Unobservable Inputs                      | Range of Significant Input Values |
| Group annuity contract | \$ 3,100,799 | Market value formula          | Assumed interest rate<br>Experience rate | 1.25%<br>2.99%                    |
| 2013                   |              |                               |                                          |                                   |
| Instrument             | Fair Value   | Principal Valuation Technique | Unobservable Inputs                      | Range of Significant Input Values |
| Group annuity contract | \$ 2,632,171 | Market value formula          | Assumed interest rate<br>Experience rate | 0.69% - 5.15%<br>0.94% - 6.59%    |

The significant unobservable inputs used in the fair value measurement of the Plan's group annuity contract are the assumed interest rate and experiences rate. The assumed interest rate obtained by the Massachusetts Mutual Life Insurance Company (MassMutual) on new investments where a proxy is the Barclays Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration. The experience rate for the group annuity contract is the weighted average of the investment year interest rates for pension account funds. The weighting reflects the distribution of contract funds to the various investment years. Significant increases (decreases) in either of these inputs could result in a significantly different value.

### Note 5 - Group Annuity Contract

The Plan has a benefit-responsive group annuity contract (the Contract) with MassMutual Retirement Services. MassMutual Retirement Services maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. The Contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the Contract at December 31, 2014 and 2013 was \$3,100,799 and \$2,632,171, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting. The new and renewal rates as of December 31, 2014 and 2013 was 3.00%.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include but may not be limited to a participant termination of employment due to: (1) removal of a group of participants from Plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan Sponsor's business. Such events also include: (1) removal from the Plan of one or more groups or classifications of participants; (2) partial or complete Plan termination; or (3) Plan disqualification. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with the participants are probable of occurring.

|                                                | 2014  | 2013  |
|------------------------------------------------|-------|-------|
| Average yields                                 |       |       |
| Based on annualized earnings                   | 2.87% | 2.80% |
| Based on interest rate credits to participants | 2.87% | 2.80% |

#### **Note 6 - Information Certified by MassMutual**

The Plan Administrator has elected the method of compliance permitted by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified as complete and accurate by Massachusetts Mutual Life Insurance Company (MassMutual).

MassMutual has certified its statement of accounts as of December 31, 2014 and 2013, and for the year ended December 31, 2014. The statement of accounts includes beginning and ending balances of investments held, notes receivable from participants, and detail of transactions during the period, including investment earnings and interest income on notes receivable from participants.

#### **Note 7 - Tax Status**

The Plan uses a volume submitter plan document sponsored by Fort William LLC, which received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2008, stating that the volume submitter document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. The document has been amended since receiving the opinion letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

**Note 8 - Related Party and Party-in-Interest Transactions**

Certain Plan investments are shares of pooled separate accounts and a group annuity contract managed Massachusetts Mutual Life Insurance Company, the custodian as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

**Note 9 - Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**3** If you reported on line 2 receipt of indirect compensation, other than eligible indirect compensation, by a service provider, and the service provider is a fiduciary or provides contract administrator, consulting, custodial, investment advisory, investment management, broker, or recordkeeping services, answer the following questions for (a) each source from whom the service provider received \$1,000 or more in indirect compensation and (b) each source for whom the service provider gave you a formula used to determine the indirect compensation instead of an amount or estimated amount of the indirect compensation. Complete as many entries as needed to report the required information for each source.
