DRUG SAFETY ALLIANCE, INC 401(k) P/S PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2014

1. Description of Plan

The following description of the Drug Safety Alliance, Inc. 401(k) P/S Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) covering all employees of Drug Safety Alliance, Inc. who meet eligibility requirements. This Safe Harbor Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan permits the Company to appoint an advisory committee to assist in the administration of the Plan. The advisory committee has the responsibility for making all discretionary determinations under the Plan and for giving distribution directions to the custodian.

Eligibility

Employees become eligible to participate upon ninety days of employment. Upon meeting eligibility requirements, the participant will enter the Plan on the following pay period. To become eligible for employer contributions, an employee must attain the age of twenty-one.

Contributions

Each year, participants may contribute up to 86% of pretax annual compensation, as defined in the Plan, subject to limitations specified in the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may make deferrals to the Plan on an after-tax basis in accordance with Roth 401(k) provisions of the Economic Growth and Tax Reconciliation Act of 2001. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant account is credited with the Participant's contribution and allocation of (a) the Company's contribution, if any, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested amount.

Vesting

Participants are 100% vested immediately in their contributions (pre-tax or rollover amounts) plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on six years of continuous service, with no vesting in year one. A participant vests 20% for each year and is 100% vested after five years of credited service.

Notes Receivable From Participants

Participants may obtain a loan from their fund accounts in the Plan up to 50% of their vested account balance or \$50,000, whichever is less, with a minimum of \$500. Three loans may be outstanding at any time. Loan transactions are treated as transfers from the participant-designated investment funds to the participant's account and bear interest at a fixed rate commensurate with current market rates determined by the plan administrator. The interest rates on the loans outstanding are between 4.25% and 10.00%. Principal and interest are paid ratably through biweekly payroll deductions. Loans bear a reasonable interest rate as reflected by prime rate as published in the Wall Street Journal on the 14th of each month, plus two percentage points.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant becomes fully vested in their account balance. For termination of service for any other reason, a participant is entitled to receive the vested percentage of their account balance. The Plan has provisions for hardship withdrawals under certain circumstances as approved by the administrator.

Forfeitures

Forfeitures of nonvested accounts are retained in the Plan and are used to reduce future Company contributions and administrative expenses. Nonvested forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for what portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes, therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative expenses

Certain administrative expenses incurred in the operation of the Plan are paid by the Company, and are not reflected in the accompanying financial statements.

Payment of Benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through August 26, 2015, the date the financial statements were available to be issued.

3. Fair Value Measurements:

Financial Accounting Standards Board (“FASB”) Accounting Standard Codification (“ASC”) No. 820, “Fair Value Measurements and Disclosures” provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 : Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 : Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no methodologies used at December 31, 2014.

Common collective trust: Valued at fair value, based on quoted redemption values on the last business day of the plan year.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds	\$3,286,020			\$3,286,020
Common Collective Trusts		\$62,407		\$62,407
Total assets at fair value	\$3,286,020	\$62,407		\$3,348,427

4. Information Certified by the Trustee (Unaudited).

The December 31, 2014 Statements of Net Assets Available for Benefits, the investment activity included on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certifies includes total investments of \$ 3,242,365 at December 31, 2014 and the related income of \$ 237,517 for the year ended December 31, 2014.

The table below presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2014</u>
T. Rowe Price Ret. 2040 R	\$ 281,043
T. Rowe Price Ret. 2030 R	288,939
T. Rowe Price Ret. 2025 R	229,594
T. Rowe Price Ret. 2020 R	368,309
Wells Fargo Asset Allocation R	181,836
T. Rowe Price Ret. 2045 R	281,773
T. Rowe Price Ret. 2050 R	214,550
Alger Cap App Instl Fund R	333,114

Investment income for the year ended December 31, 2014 is as follows:

Net Appreciation in Fair Value of Investments	\$ 47,012
Interest Income on Notes Receivable from Participants	\$ 2,650
Dividends	\$ 158,725

During the year 2014, the Plan's investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated in value by \$ 47,012 as follows:

Common collective trusts	\$ 2,492
Registered investment companies	\$ 44,520

5. Investment in Stable Value Assets

The Plan invests in stable value assets that include traditional bank or insurance company-issued guaranteed investment contracts or synthetic investment contracts.

Stable value asset investment is fully benefit-responsive. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan terminations or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or the plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

6. Related Party Transaction

ADP Retirement Services is the trustee and custodian of the plan and, therefore, these transactions qualify as party-in-interest.

7. Plan Administrative Costs

During 2014, the Company elected to pay most of the Plan's administrative costs and not seek reimbursement from the Plan.

8. Plan Termination

Although it has not expressed any intention to terminate the Plan, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Under no circumstances may the Company take ownership of any of the Plan's assets as a result of such termination.

9. Tax Status

The Plan uses a prototype document sponsored by Automatic Data Processing, Inc.

The Internal Revenue Services (IRS) has determined and informed Automatic Data Processing, Inc. by a letter dated March 31, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself, however, the plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon Examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk, associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2014:

	2014
Net assets available for benefits per the financial statements	\$ 3,422,300
Adjustment from fair value to contract value for fully benefit responsive investment contracts	\$ 2,065
Net assets available for benefits per the Form 5500	\$3,424,365

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2014, per the financial statements to net income reported in the 2014 Form 5500:

Increase in net assets available for benefits per the Financial Statement	\$ 237,517
Adjustment from fair value to contract value for fully benefit responsive investment contracts	<u>\$ 2,065</u>
Net income per Form 5500	<u>\$ 239,582</u>
