NOTE 1 – PLAN DESCRIPTION

The following description of the Plan provides general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General – The Plan is a defined contribution plan covering all eligible employees of the Company and its two wholly owned subsidiaries, Lindell Bank and Trust Company and First Illinois Bank. The Plan is subject to the provisions of ERISA. Employees (other than leased or temporary employees) that have attained the age of 21 and are not covered by a collective bargaining agreement become eligible to participate in the Plan after being employed for six months and completing 500 hours of service.

(b) Contributions – Each participant may elect to make contributions to the Plan of 1% to 100% of the participant's compensation for such fiscal year, as long as such contributions do not exceed the maximum permissible by the Internal Revenue Code. The amount of employer contributions, if any, is discretionary and determined by the Board of Directors of the Company and is based upon amounts contributed by the participants. During 2014 and 2013, the Company elected to match participant contributions equal to 50% of the first 6% of deferred compensation.

The Company may make additional discretionary contributions annually, which are allocated to each participant based upon each participant's deferred compensation. During 2014, Lindell Bank and Trust Company and First Illinois Bank made additional discretionary contributions equal to 1.5% of eligible compensation to those employees who contributed 6% or more of their eligible compensation. During 2013, Lindell Bank and Trust Company and First Illinois Bank made additional discretionary contributions equal to 1.5% and 1.0%, respectively, of eligible compensation to those employees who contributed 6% or more of their eligible compensation.

(c) Participants' Accounts – Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined.

(d) Vesting – Participants are 100% vested in any portion of their account resulting from their contributions and any rollover contributions. Employer contributions are subject to vesting as follows:

Years of service	Vesting percentage
Less than two	—%
Two	20%
Three	40%
Four	60%
Five	80%
Six or more	100%

If a participant terminates employment before full vesting, the nonvested portion of the participant's account is forfeited and used to reduce the Company's matching and discretionary contributions.

(e) Forfeitures – During 2014, forfeitures of $2,454 were applied to reduce the Company's matching and discretionary contributions. No forfeitures were applied in 2013.

(f) Payment of Benefits – The Plan provides that upon retirement, disability, or death of a participant, the participant will become 100% vested and the participant's account shall be paid under one or more of the optional forms available under the Plan.

(g) Costs of Plan Administration – Fees and expenses incurred in the administration of the Plan are paid by the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

(a) Basis of Presentation – The accompanying financial statements have been prepared on the accrual basis of accounting and present the assets available for plan benefits and changes in those assets.

Investment contracts held by a defined contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan. The statements of assets available for plan benefits would normally present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value; however, the fair value and the contract value were equal at December 31, 2014 and no adjustment was required. The statements of changes in assets available for plan benefits are prepared on a contract-value basis.

(b) Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts. Accordingly, actual results may differ from those estimates.

(c) Trustee Certifications – The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Administrator has obtained certifications from the Trustees that all of the information provided by the Trustees and included in the accompanying financial statements and schedule is complete and accurate. Information as to investments, earnings from investments, and related information in the accompanying schedule is presented in reliance solely upon these certifications.

(d) Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, as described more fully in note 3.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(e) Payment of Benefits – Benefits are recorded when paid.

(f) Subsequent Events – The Plan has evaluated subsequent events through August 18, 2015, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets and have the highest priority.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 and Level 2 inputs are not available. The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end (Level 1 inputs). The contract with the insurance company is valued at the amount the Plan would receive if the contract were terminated, which is contract value less an early withdrawal charge (Level 2 inputs).

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

2014	Quoted market prices in active market for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total

NOTE 4 – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013:

	2014	2013
American Funds Europacific Growth Fund	$ 721,267	893,996
American Funds Growth Fund of America	–	1,198,974

Janus Balanced Fund	971,397	842,618
JP Morgan Core Bond Fund	1,010,291	–
Victory Munder MidCap Core Growth Fund	646,841	–

The Plan's investments (including gains and losses in investments bought and sold, as well as held during the year) appreciated in value by $559,784 and $1,060,842 during 2014 and 2013, respectively.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan maintains a benefit-responsive group annuity contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the funds in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because the group annuity investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the assets available for plan benefits attributable to the investment contract. The investment contract is presented in the statements of assets available for plan benefits at fair value, with an adjustment to contract value in arriving at net assets available for plan benefits. Contract value, as reported to the Plan by Transamerica represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, and such interest rate is reviewed on a semiannual basis for resetting. The rate paid on the investment contract for 2014 was 0.80%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents including complete or partial plan termination or merger with another plan, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption from ERISA. The Plan

Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 6 – RELATED PARTY TRANSACTIONS

Plan investments include shares of mutual funds managed by Transamerica Life Insurance Company, the Trustees of the Plan. Therefore, these investment activities qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are netted against investment income and vary based upon mutual fund type.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, participants become 100% vested in their accounts. The Company may elect to have all assets transferred to another qualified plan in which all participants who would have otherwise received a distribution will have an interest, and each person's interest will be nonforfeitable as to amounts attributable to assets transferred on his or her behalf.

NOTE 8 – FEDERAL INCOME TAXES

The Internal Revenue Service issued its latest determination letter on May 30, 2008, which indicated that the prototype plan adopted by the Company qualified under the provisions of Section 401(a), and the trust is exempt from federal income taxes under the provisions of Section 501(a) of the Internal Revenue Code, as amended. The Plan has been subsequently amended. The amended plan information has not been submitted to the Internal Revenue Service for a letter of determination that the Plan continues to qualify as exempt from federal income taxes. However, in the opinion of the Plan Administrator, the Plan and its underlying trust have operated within the terms of the Plan and remain qualified under the applicable provisions of the Internal Revenue Code.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for plan benefits.

NOTE 10 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

In 2014, Schedule H to Form 5500 was prepared using the cash basis instead of the accrual basis of accounting.
