MASCO CORPORATION
FUTURE SERVICE PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Masco Corporation ("Company") Future Service Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering salaried employees at various divisions and subsidiaries of the Company. Eligible employees participate in the Plan on January 1 following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended ("ERISA").

2. *Contributions.* The annual Company contribution is determined by the Company's Board of Directors in accordance with the provisions of the Plan. The Plan does not permit participant contributions, with the exception of rollovers from another qualified retirement plan. Company contributions are subject to certain limitations. Participants may direct employer contributions in one percent increments to any of the various investment options. These options are professionally managed mutual funds, the Masco Corporation Company Stock Fund, and a brokerage account which allows participants to buy, sell or trade most publicly listed common stocks, corporate and government bonds or certificates of deposit; these options vary in their respective strategies, risks and goals. Participants may change their investment options daily.

3. *Participant Accounts.* Each active participant's account is credited with an allocation of (a) the Company's contribution and (b) Plan earnings pursuant to the provisions of the Plan. Allocations are based on participants' earnings or account balances, as defined. Plan administrative expenses are paid by the Company and not charged to participants' accounts. Certain expenses may be incurred by individual participants for special services relating to their account. These costs are charged directly to the individual participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting and Forfeited Employer Contributions.* Vesting is generally based on years of service. A participant is 100 percent vested only after three years of vesting service commencing on date of hire. In addition, a participant is 100 percent vested upon attainment of normal retirement age (age 65), death or disability as defined under the Plan. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$148,758 and \$79,644, respectively. All forfeited amounts were used to reduce the Company's contribution.

5. *Voting Rights.* Each participant who has an interest in the Company Stock Fund is entitled to exercise voting rights attributable to the shares allocated to his or her Company Stock Fund account and is notified by the Trustee (Fidelity Management Trust Company ("Fidelity") as defined by the Plan) prior to the time that such rights are to be exercised. If the Trustee does not receive timely instructions, the Trustee itself or by proxy shall vote all such shares in the same ratio as the shares with respect to which instructions were received from participants.

FUTURE SERVICE PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

A. Description of Plan, concluded:

6. *Notes Receivable from Participants.* Generally, participants may borrow from the nonforfeitable portion of their company profit sharing contribution accounts and any rollover contribution accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from 1-15 years and are measured at their unpaid principal balance plus any accrued interest. The loans are collateralized by the balance in the participant's account and bear interest at a rate equal to the Prime Rate on the date of application for the loan. Principal and interest are paid ratably through monthly payroll deductions.

7. *Payment of Benefits.* After separation from service due to termination, death, disability, or retirement, generally a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a single lump-sum amount or in annual installments over a period not to exceed five years. In-service and hardship withdrawals, if applicable, are distributed in a single lump-sum payment.

8. *Transfers.* Effective March 20, 2015, the Plan was amended whereby all participants' accounts were spun off and merged into the Masco Corporation 401(k) Plan ("401(k) Plan") and the Masco Corporation Hourly 401(k) Plan ("Hourly 401(k) Plan"). As a result, the Plan is completely merged into the 401(k) Plan and the Hourly 401(k) Plan. Total transfers of net assets out of the Plan amounted to approximately \$163 million, as a result of this amendment.

9. *Other.* Effective January 1, 2014, Masco Bath Corporation was deleted as a currently participating employer and added as a formerly participating employer.

B. Summary of Significant Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America ("GAAP")) followed in the preparation of these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

MASCO CORPORATION
FUTURE SERVICE PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

B. Summary of Significant Accounting Policies, concluded:

Risks and Uncertainties

The Plan provides for various investments in mutual funds and other investment securities. Investments are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments are stated at fair value as determined by Fidelity Pricing and Cash Management Services, Inc. using quoted closing market prices at March 20, 2015 and at December 31, 2014 and 2013.

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis. Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) of those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable from participants are recorded as benefit payments based upon the terms of the Plan.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

D. Fair Value Measurements:

Accounting Policy. The Plan follows fair value guidance (ASC 820) that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

D. Fair Value Measurements, continued:

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 20, 2015 and at December 31, 2014 and 2013.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Brokerage account: Participant directed investments that could include common stocks, mutual funds, corporate or government bonds or other investments that are actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

E. Income Tax Status:

The Internal Revenue Service ("IRS") determined and informed the Company by a letter dated October 22, 2011 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 20, 2015 and December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.
