1. Description of Plan

The following brief description of the Flavorchem Corporation Employees' Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a Section 401(k) defined contribution plan with salary deferral provisions, which was established on January 1, 1975. Under the Plan, all employees of Flavorchem Corporation (the Company) who have met eligibility requirements participate in the Plan. The trustee of the Plan is Fidelity Management Trust Company (Fidelity). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Pre-tax or post-tax deferred savings contributions in the form of salary reductions by participants are allowed. The amount contributed is determined by the participant, subject to both statutory limitations and those defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a safe harbor employer contribution of 3% of each eligible employee's compensation. The safe harbor contribution for the 2013 plan year received by the Plan in 2014 totaled $290,052. In addition, the Company may make an annual discretionary contribution in an amount to be determined at the plan year end by the Board of Directors. Discretionary contributions are allocated to participant accounts based on eligible compensation. The Company made no discretionary contribution during the 2014 plan year.

Participant Accounts – Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, forfeitures of terminated participants' nonvested accounts, earnings, and gains and losses from the investment funds elected. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – A participant is fully vested in participant and Company safe harbor contributions, plus actual earnings, gains and losses thereon, at all times. Vesting in the Company's annual discretionary contribution and the earnings thereon is as follows:

Number of Completed Years of Service	Portion of Balance of Account Vested
Less than two years	None
Two years but less than three years	20%
Three years but less than four years	40%
Four years but less than five years	60%
Five years but less than six years	80%
Six years or more	100%

1. **Description of Plan** (cont'd)

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The Plan provisions restrict a participant from initiating a new loan if they already have an outstanding loan from this Plan. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 9.38%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – A participant's account balance may be withdrawn upon retirement, death, disability, or termination of employment as defined by the Plan. Benefits are payable in a single lump-sum amount equal to the value of the participant's account. Hardship distributions are also allowed by the Plan.

Forfeited Accounts – At December 31, 2014 and 2013, forfeited nonvested accounts totaled $2,105 and $4,851, respectively. This account will be credited to participant accounts based on eligible compensation. In 2014, eligible participant accounts were credited with $4,800 of forfeitures from terminated participants' nonvested accounts.

2. **Summary of Significant Accounting Policies**

Modified Cash Basis of Accounting – The accompanying financial statements have been prepared on the modified cash basis of accounting, which differs from accounting principles generally accepted in the United States of America but is a basis of accounting permitted by the Department of Labor and ERISA. Such accounting method includes recording investments at fair value and recording other additions and reductions when received or paid rather than as earned or incurred. Consequently, contributions to the Plan as well as interest and dividends are recorded only when received, as reported by the trustee. Unrealized gains and losses on investments are recorded in the current period.

The Plan invests in a common collective fund which holds fully benefit responsive investment contracts. The investment in the common collective fund is reported at fair value. However, contract value is the relevant measurement attribute for that investment because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the common collective fund as well as the adjustment of the common collective fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with the modified cash basis of accounting requires the administrator of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. **Summary of Significant Accounting Policies** (cont'd)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurement. Purchases and sales of securities are recorded on a settlement-date basis.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the cash basis. Related fees are recorded as administrative expenses and are expensed when they are paid. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Plan pays fees for advisory consulting services which are included in administrative expenses. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through August 28, 2015, the date the financial statements were available to be issued.

3. **Information Prepared and Certified by Trustee**

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Plan's trustee:

December 31, 2014:	
Mutual funds, at fair value	**$ 10,944,260**
Common/collective funds, at contract value	**844,954**
Notes receivable from participants	**276,161**
Dividend and interest income from investments	**696,801**
Interest on notes receivable from participants	**13,991**
Net depreciation in fair value of investments	**(68,435)**
December 31, 2013:	
Mutual funds, at fair value	$ 9,576,188
Common/collective funds, at contract value	803,405
Notes receivable from participants	283,357

4. **Investments**

The fair value of the Plan's investments that exceed 5% or more of the Plan's net assets available for benefits at December 31 are as follows:

	2014	2013
Dreyer Basic S&P 500 Stock Index Fund	$ **961,560**	$ N/A
Hartford Dividend & Growth Fund Class R5	**761,306**	660,696
Nuveen Mid Cap Index Fund Class I	**790,427**	694,527
PIMCO Total Return Institutional Fund	**2,926,220**	2,741,659
T. Rowe Price Growth Stock Adv Fund	**1,590,474**	1,453,054
Fidelity Advisor Stable Value Fund	**859,952**	818,994

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $68,435. All of the gains and losses were from mutual funds.

5. **Fair Value of Financial Instruments**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Level 1 – Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Valuations are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose significant inputs are observable.

Level 3 – Valuations are based on unobservable inputs for the asset or liability that reflect the reporting entity's own data and assumptions that market participants would use in pricing the asset or liability. These unobservable inputs are significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of valuation methodologies used for investments measured at fair value on the statement of net assets available for benefits, and the classification of such investments pursuant to the valuation hierarchy.

5. **Fair Value of Financial Instruments** (cont'd)

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. These assets are categorized in Level 1 of the fair value hierarchy.

The common/collective fund is valued at the NAV of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate the fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. The assets of the fund are invested in fixed income securities and money market funds. These assets can be redeemed daily and there are no withdrawal restrictions. These assets are categorized in Level 2 of the fair value hierarchy.

At December 31, 2014, the Plan's financial instruments measured on a recurring basis were categorized as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Bonds	$ 3,246,141	$ -	$ -	$ 3,246,141

Total	$ 10,944,260	$ 859,952	$ -	$ 11,804,212

5. **Fair Value of Financial Instruments** (cont'd)

At December 31, 2013, the Plan's financial instruments measured on a recurring basis were categorized as follows:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Bonds	$ 3,030,603	$ -	$ -	$ 3,030,603
Domestic:				
Large-Cap	2,630,804	-	-	2,630,804

Total	$ 9,576,188	$ 818,994	$ -	$ 10,395,182

6. **Related-Party and Party-in-Interest Transactions**

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments of $28,406 for advisory consulting services. As described in Note 2, the Plan also made direct payments to the third-party administrator of $3,275 which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

7. **Plan Termination**

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. The termination of the Plan is subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company's annual discretionary contribution portion of their account.

8. **Tax Status**

The Plan has adopted the Fidelity Management and Research Company Volume Submitter Profit Sharing Plan. The Internal Revenue Service has determined and informed Fidelity Management and Research Company, by a letter dated March 31, 2008, that the Volume Submitter Profit Sharing Plan is designed in accordance with applicable sections of the Internal Revenue Code.

8. **Tax Status** (cont'd)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal and state taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. **Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of change in net assets available for benefits per the financial statements at December 31, 2014 to Form 5500:

Net investment income from common/collective fund per the financial statements (included in dividends and interest)	$	9,362
Difference in gains and losses in fair market value and gains and losses in contract value of common/collective fund		(591)
Net investment loss from common/collective fund per Form 5500	$	8,771
