PIVOT INTERIORS, INC. SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

December 31, 2014

Note 1 - Description of plan:

The following description of the Pivot Interiors, Inc. (the "Company") Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1988, was merged on April 1, 2000 with the plan of Coordinated Resources, Inc. ("CRI") and was last amended on January 1, 2010. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all employees of Pivot Interiors, Inc. (the "Company") who have attained the age of 21.

The Plan Sponsor is Pivot Interiors, Inc. ("Plan Sponsor").

The Company retains the services of third parties to assist in the administration of the Plan. Through December 31, 2014, the Plan's third party administrator and record keeper was Massachusetts Mutual Life Insurance Company ("Mass Mutual") and State Street served as the custodian for the Plan's assets. On January 1, 2015, the Company switched the third party administrator and record keeper and custodian from Mass Mutual and State Street to Fidelity Investments ("Fidelity").

As a result of the change of custodians at year end, the assets were liquated and as of December 31, 2014 the cash was in transit. During this time the Company underwent a blackout period from December 29, 2014 through January 14, 2015, during which participants could not view their funds as they were in the process of transferring the funds to Fidelity. Under the new Plan there were no significant changes in the structure of the Plan, just new investment options.

Eligibility - Except for excluded employees, all employees who have reached twenty-one years of age are eligible to participate in the Plan. Employees may enter the Plan on the first day of the month following the date of hire. An employee may elect not to participate in the Plan.

Participant contributions - Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their account balances into various investment options offered by the Plan. Participants may change their investment options daily. Prior to the year-end transfer the Plan offered various separate investment accounts (pooled separate accounts) and one guaranteed investment contract as investment options for participants.

Note 1 - Description of plan (continued):

Employer matching contributions - The Company may contribute an amount equal to 50% of elective deferrals, up to a maximum matching contribution of $1,500.

The Company may also contribute an additional amount determined at its sole judgment, which will be allocated to all participants, and is distributed based on the participants' compensation as a ratio of all other eligible participants' compensation. For the years ended December 31, 2014 and 2013, the Company made no discretionary contributions.

Participant accounts - Each participant's account is credited with the participant's contribution, employer's contribution, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the valuation of the participant's vested account at the date immediately preceding the commencement of processing the distribution.

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. All Plan investments are units of funds managed by the custodian, therefore, these investments and all investment transactions are party-in-interest transactions. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Vesting - Participants' contributions and rollovers from other qualified plans are 100% vested at all times. The Company's matching contributions are also 100% vested upon the participants' entry date. The Company's discretionary profit sharing contributions vest at a rate of 20% per year starting with the second full year of service. A full year of service is defined as completing 1,000 hours of service at any time during a Plan year.

At December 31, 2014 and 2013, forfeited non-vested accounts totaled approximately $11,000 and $45,000, respectively. These accounts may be used to reduce administrative fees and future employer contributions. In 2014, forfeited non-vested accounts of approximately $34,000 were used to fund employer matching contributions. In 2013, forfeited non-vested accounts of approximately $118,000 were used to fund employer matching contributions.

Benefits paid to participants - On termination of service due to death, disability, retirement or separation from service, participants may receive benefits in a lump sum or installments, in accordance with the Plan.

Note 1 - Description of plan (continued):

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. Loan terms may not exceed five years, except for loans used for a purchase of a primary residence, which may be repaid over a longer period, as defined by the Plan. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant notes fund. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the pooled separate accounts and guaranteed investment contract are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Company.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Significant accounting policies (continued):

Investment valuation and income recognition - As described by GAAP, investment contracts held by a defined contribution plan are required to be reported at fair value.

Prior to the year-end transfer, the Plan's investments were stated at their fair value except for its investment contract which was stated at contract value (Note 5). The custodian has stated that the best estimate of fair value for the investments which would be considered fully benefit-responsive was contract value, as participants may withdraw investment assets at contract value without restriction, and investment assets are marked-to-market on a daily basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments - The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies are recorded in the accompanying financial statements as net appreciation in fair value of investments.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Recent accounting pronouncement - In May 2015, the FASB issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under ASC 820. ASU 2015-07 is effective for the Plan retrospectively for the year ending December 31, 2016 with early adoption permitted. The Plan is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

Note 2 - Significant accounting policies (continued):

Recent accounting pronouncement (continued) - In July 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. In Section I, the amendment designates contract value as the only required measure for fully benefit-responsive investment contracts. In Section II, the amendment eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The net appreciation or depreciation in investments for the period should be presented in the aggregate, but is no longer required to be disaggregated and disclosed by general type. The amendment also requires that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Finally, in Section III, the amendment provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The ASU is effective for fiscal years beginning after December 15, 2015, should be applied retrospectively for all financial statements presented, and early application is permitted. The Plan is currently evaluating the impact of the adoption of the ASU on the financial statements.

Note 3 - Fair value measurements:

The Plan performs fair value measurements in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Note 3 - Fair value measurements (continued):

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Due to the transfer of the Plan's investments not being complete as of year-end, they will be considered cash-in-transit. As a result of all investments measured at fair value on a recurring basis, the cash-in-transit balance of $23,096,761 has been determined to all be classified as Level 1, at December 31, 2014.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2013 (Level 1, 2, and 3 inputs are defined above):

	Fair Value Measurements Using Input Type			
2013	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Large cap	$ -	$ 12,134,113	$ -	$ 12,134,113
Mid-cap	-	1,529,030	-	1,529,030
Small cap	-	799,929	-	799,929
Guaranteed investment contract	-	-	4,330,273	4,330,273
Bonds	-	1,631,092	-	1,631,092
Money market funds	-	16,036	-	16,036
Total investments measured at fair value	$ -	$ 16,110,200	$ 4,330,273	$ 20,440,473

Note 3 - Fair value measurements (continued):

The Plan's valuation methodology used to measure the fair values of the pooled separate accounts were derived from quoted market prices of the underlying assets in the pooled separate accounts as substantially all of these instruments have active markets. The Plan's valuation methodology used to measure the fair values of the separate account guaranteed investment Contract ("SAGIC") bases its determination of the fair value of its SAGIC on the liquidation value of the contract, which is equal to the fair value of the underlying separate account (the SAGIC contract utilizes the underlying separate account as an investment vehicle and provides certain book value guarantees) because there is judgment involved in concluding that the fair value of the SAGIC contract is equal to its liquidation value. Mass Mutual has classified the SAGIC contract as a level 3 asset. The underlying separate account supporting SAGICs can be any of the following:

- Capital Preservation
- Core Bond
- Core Bond II
- Diversified Bond
- Diversified Bond II

The valuation of the underlying separate account held at Mass Mutual for each client's SAGIC is the sole input to the fair value.

The following table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended:

	2014	2013
Balance as of January 1,	$ 4,330,273	$ 5,132,961
Total realized/unrealized gains (losses) including changes in net assets	434,906	(215,375)
Issuances, purchases and settlements, net	(4,765,179)	(587,313)
Balance as of December 31,	$ -	$ 4,330,273

Unrealized gains / (losses) from the SAGIC are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

As discussed above, the SAGIC fair value is measured based on the fair values of the underlying assets which the SAGIC is invested in. The valuation of the underlying SAGIC held at Mass Mutual is the sole input to the fair value which is based on units of participation in the underlying SAGIC and the respective unit value.

Note 4 - Investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by State Street, the custodian of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodian as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013.
- Notes receivable from participants as shown in the Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013.
- Investment and other income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014 and 2013.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

The fair value of individual investments that represents 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013 are as follows:

	2014	2013
Fixed Interest Fund	$ -	$ 4,330,273
RetireSMART Moderate	-	2,282,414
Balanced (American)	-	1,741,456
MM S&P 500 Index/(Northern Trust)	-	1,498,972
Select PIMCO Total Return	-	1,112,130
RetireSMART Conservative	-	829,074
Cash	23,096,761	Less than 5%

For the years ended December 31, 2014 and 2013, the Plan's investments, including investments purchased and sold, as well as held during the year, net appreciated in fair value from pooled separate accounts of $1,304,767 and $2,403,181 respectively.

Note 5 - Investment contract with insurance company:

During the year ended December 31, 2013, the Plan held an investment in a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. As of December 31, 2014, the Plan no longer held this investment, as a result of the transfer.

As described in Note 2, because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract was presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. The interest rate was 3.10% at December 31, 2013. The average yield for the year ended December 31, 2013 was 3.10%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

Mass Mutual does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 - Income tax status:

The Plan obtained its latest determination letter on May 11, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan trustee believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7 - Party-in-interest transactions:

All Plan investments are managed by Mass Mutual. Mass Mutual is the third party administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. At December 31, 2013, the Plan held investments available for benefits of approximately $20,440,000 in Mass Mutual funds. There were no balances at December 31, 2014 with a party-in-interest.

Note 8 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will automatically become fully vested in their accounts.

Note 9 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

Note 10 - Reconciliation of financial statements to Schedule H of Form 5500:

The following is a reconciliation of net assets per the financial statements to Schedule H of the Form 5500 at December 31, 2014 and 2013:
