A. DESCRIPTION OF PLAN

The following description of the GPI Hourly Savings plan (For Represented Employees), formerly known as Riverwood International Hourly Savings Plan (the "Plan"), provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan and is sponsored by Graphic Packaging International, Inc. (the "Company"). Legacy Riverwood and Graphic full-time hourly employees whose employment is covered by the terms of a collective bargaining agreement are eligible to participate in the Plan on the first payroll date following employment or immediately upon re-employment if previously employed. Legacy Altivity full-time hourly employees whose employment is covered by the terms of a collective bargaining agreement are eligible to participate in the Plan on the first payroll date after meeting the service and age requirements, if applicable, as defined by the Plan. Rehires are eligible to participate immediately upon rehire if they have already met the service and age requirements, if applicable, as defined by the Plan. If the employee is a covered employee, such employee is eligible to participate in the Plan after completing at least 1,000 hours and meeting the applicable age and service eligibility requirements as defined by the Plan. Effective January 1, 2009, the Altivity Packaging Savings Plan for Union Hourly Employees merged into the Plan and the Plan was amended and restated. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 30, 2014, the Company completed the sale of their multi-wall bag business to Mondi Group. The divested assets included 9 converting plants located throughout the United States and the Pine Bluff, Arkansas kraft paper mill. The divestiture affected approximately 1,700 employees company-wide of which approximately 1,100 were participants in the Plan. As a result, as of June 30, 2014, the Plan was amended to allow multiple employers to participate in the Plan, specifically Mondi Group, so that the participants affected by the divestiture could continue to participate in the Plan. On December 15, 2014, Mondi Group transferred the assets of the participants affected by the divestiture to a newly established plan for the affected participants, and the Plan was amended back to single employer plan.

Effective January 1, 2015, the Plan has been restated to incorporate all prior amendments.

Contributions. Each year, legacy Graphic participants may contribute up to 25% of their pre-tax annual compensation to the Plan. Each legacy Riverwood and legacy Altivity location has different participant pre-tax and after-tax contribution rate percentage maximums. Any participant who is age 50 by the end of the Plan year may contribute additional "catch-up" contributions. Participants may also contribute in the form of a direct rollover, amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to maximum annual contribution limits.

The Company contribution is based on matching of pre-tax contributions, as defined by the Plan. In addition, several locations are eligible for Supplemental Employer Contributions, Special Employer Contributions and Employer Automatic Contributions pursuant to the collective bargaining agreements in effect for each location, as defined by the Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings or losses. Participant accounts are charged with withdrawals and investment fees which are netted against the revenue allocated to them and certain loan and distribution fees. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their elective deferrals, rollover contributions plus actual earnings thereon. Vesting in employer contributions varies based on the type of employer contribution which varies by location, as defined by the Plan.

Payment of Benefits. A participant is entitled to a distribution of 100% of his or her account balance upon retirement, death, or disability. Upon termination of service for any other reason or if the participant has attained the age of 59 1/2, a participant may elect to receive the value of the vested portion of their account either as a lump-sum amount or in the form of installment payments. A participant may take a distribution in the event of financial hardship if all requirements are met as specified by the Plan document.

Notes Receivable from Participants. In accordance with the Plan, certain participants may borrow from their accounts in amounts equal to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The Plan prohibits loans from being made out of the participant's Supplemental Employer Contribution portion of the participant's account. The loans are secured by the balance in the participant's account and bear varying rates of interest, which are commensurate with local prevailing rates as determined by the Plan administrator. The loans can have up to a maximum term of 57 months, unless the loan is to be used in conjunction with a purchase of a principal residence and in that case the loan can have a maximum term of 25 years. Interest rates range from 4.25% to 10.50% per annum on loans outstanding as of December 31, 2014. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts. For the plan year ended December 31, 2014, forfeitures of $51,057 were used to reduce employer contributions. As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $5,561 and $28,314, respectively. These accounts are available to reduce future employer contributions to the Plan or pay the Plan's administrative expenses.

Administrative Expenses. With the exception of certain administrative costs, substantially all costs of administering the Plan are paid by the Company. These costs include legal, accounting and administrative fees.

Transfers to (from) Plan. Transfers of Plan assets to the GPI Savings Plan during 2014 totaled $88,105 Transfers of Plan assets to the Mondi group during 2014 totaled $13,198,910. See Note A, General.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principles and policies which significantly affect the determination of net assets available for plan benefits and results of operations are summarized below.

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition. Investments in the GPI Savings Plans Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in its statement of changes in net assets available for benefits an allocation of the GPI Savings Plans Master Trust's net income (loss) which consists of realized gains or (losses), unrealized appreciation (depreciation) on investments and interest and dividend income.

Management fees and operating expenses charged to the GPI Savings Plans Master Trust for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Risks and Uncertainties. The GPI Savings Plans Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the levels of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of investment valuation.

Payment of Benefits. Benefits are recorded when paid.

C. INTEREST IN GPI SAVINGS PLANS MASTER TRUST (UNAUDITED INFORMATION)

The Plan's investments are in the GPI Savings Plans Master Trust, which was established for the investment of assets of the Plan and certain assets of another Company sponsored retirement plan. The plans participating in the GPI Savings Plans Master Trust collectively own, through the GPI Savings Plans Master Trust, the assets based upon investment percentages. Participant transaction activity is designated to specific plans. Accordingly, each plan's investment percentage in the GPI Savings Plans Master Trust changes regularly. Income earned by the GPI Savings Plans Master Trust is allocated to the various plans based upon the investment percentage on the day the income is earned. At December 31, 2014 and 2013, the Plan's interest in the net assets of the GPI Savings Plans Master Trust was approximately 32% and 31%, respectively. Investment income and administrative expenses relating to the GPI Savings Plans Master Trust are allocated to the individual plans based on 1) whether it is related to a specific plan (100 percent allocation to that plan), or 2) the Plan's proportionate share of the income or expense which is attributable to the Trust.

The Trustee of the Plan holds investment assets and executes transactions therein, and substantially all information pertaining to investments included in the financial statements has been certified by them. Therefore, in accordance with the request of the Company and as allowed under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, this information was not subjected to auditing procedures generally accepted in the United States of America by the Plan's independent public accountants.

D. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") – topic 820 Fair Value Measurements ("ASC 820") provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities inputs (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Graphic Packaging Stock Fund: The Graphic Packaging Stock Fund consists primarily of shares of the Company's common stock. The underlying common stock is valued at the last reported sales price at the end of the year or, if there were no sales that day, the last reported bid price. Effective January 1, 2004, no additional shares of Company stock may be purchased through the Plan.

Cash and cash equivalents: Valued at cost, which approximates fair value.

Common/collective trusts: Valued at the net asset value ("NAV") of shares held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the GPI Savings Plans Master Trust's investments at fair value as of December 31, 2014 and 2013. There were no level 3 investments as of December 31, 2014 and 2013.

Total	$557,430,427	$165,505,837	$722,936,264

(1) These funds seek an investment return that approximates, as closely as practicable, before expenses, the performance of a custom benchmark index over the long term. Each fund is managed to a specific target retirement year and the allocations to asset classes and funds change according to a predetermined path where the asset allocation becomes more conservative as it approaches its target retirement date.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100% vested in their accounts.

F. INCOME TAX STATUS

The Plan had obtained a determination letter dated December 9, 2011, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has since been amended and restated effective January 1, 2015 and a new determination letter has been applied for. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

G. PARTIES-IN-INTEREST TRANSACTIONS

Certain investments are managed by Fidelity, the trustee of the Plan, and as such, qualify as party-in-interest investments. The Plan holds shares of Graphic Packaging, Inc. common stock and recognized appreciation of $2,883,078 from its investment in the Company common stock. Additionally, the Plan holds party-in-interest investments in the form of notes receivable from participants. Fees paid by the Plan to Fidelity for the administration of the Plan amounted to $162,374 for the year ended December 31, 2014.

I. SUBSEQUENT EVENTS

During 2015, the Company determined that during a prior year payroll system conversion, certain types of compensation amounts were excluded when calculating employee deferrals and the related employer matching contributions. The Company is in the process of quantifying the lost deferrals and earnings thereon and intends to deposit the amounts upon final determination. The Company has retained legal counsel to assist in resolving this issue under the Voluntary Correction Program under the Internal Revenue Services' Employee Plans Compliance Resolution System.

Since management has not determined the amount of the correction a receivable has not been recorded as of December 31, 2014. Management, however, does not believe the amount to be material.

Management has evaluated subsequent events through September 15, 2015, which is the date the financial statements were available to be issued, and have determined that there are no subsequent events, other than disclosed above, that require disclosure under the *Subsequent Events* topic of the FASB ASC.
