MUSTANG 401(k) PLAN

Notes to Financial Statements December 29, 2014 and December 31, 2013

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Mustang 401(k) (the “Plan”) of Mustang Technology Group, LP provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan’s provisions.

General

The Plan was a defined-contribution plan covering all eligible employees of Mustang Technology Group, LP who were age twenty one or older. After eligibility requirements were met, employees were able to enroll in the Plan on the first day of each month following the date that eligibility requirements were satisfied. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 19, 2013, L-3 Communications Corporation (“L-3”) acquired Mustang Technology Group, LP, the former Plan Sponsor, and changed its name to L-3 Mustang Technology (the “Company”). L-3 served as the Plan Sponsor. Plan provisions remained unchanged after the date of acquisition.

Effective December 29, 2014, the Plan merged with and into the L-3 Communications Master Savings Plan (the “MSP”).

Contributions

Contributions were made by the Company on behalf of the participants who agreed to have deductions made from their eligible compensation. Participants were permitted to defer a percentage of their pay into an elective deferral account on a pre-tax or post-tax basis, subject to the limitations specified in the Internal Revenue Code (IRC). Contributions are limited by Federal Tax legislation; the limit for 2014 401(k) employee contributions was \$17,500 per participant under fifty years of age and \$23,000 for participants fifty years of age and over. Participants were able to rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer contributions were comprised of three components: a safe harbor employer-matching contribution, a qualified employer-matching contribution, and a discretionary contribution. The safe harbor employer-matching contribution matched 3% of the participant’s compensation. The qualified employer-matching contribution matched 100% of the participant’s elective deferrals between 1% and 3% of the participant’s compensation. Discretionary contributions were at the option of the Company. The safe harbor employer-matching contributions and the qualified employer-matching contributions were \$355,860 and \$389,313, respectively, for the period from January 1, 2014 to December 29, 2014. There were no discretionary contributions for the period from January 1, 2014 to December 29, 2014.

MUSTANG 401(k) PLAN

Notes to Financial Statements - continued December 29, 2014 and December 31, 2013

Participant Accounts

Each participant's account was credited with the participant's contribution and the Company's matching contributions, discretionary contributions, and Plan earnings (losses). The benefit to which a participant was entitled was based on the participant's vested account.

Vesting

Participants were immediately vested in their contributions, and actual earnings thereon. The portion of a participant's accrued benefit attributable to the Company's safe harbor employer-matching, qualified employer-matching and discretionary contributions were vested immediately.

Benefit Payments

Participants were entitled to the full value of their vested accounts upon occurrence of termination of employment due to death, disability, or normal retirement (age 65). On termination of service, for account balances less than \$1,000, a participant was only entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For account balances equal to or greater than \$1,000, a participant was entitled to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or partial payments.

Notes Receivable from Participants

The Plan provided for notes receivable ("loans") to active participants. Participants could not have more than one loan outstanding at any time and the maximum loan allowed to each participant was the lesser of (1) \$50,000 reduced by the highest outstanding balance of loans from the Plan during the prior 12 months or (2) 50% of the vested value of the participant's account in the Plan. The minimum loan amount was \$1,000. Loans had to be adequately secured and bore a reasonable interest rate, which for the current year, was the prime rate as quoted by the Federal Reserve. The maximum term of a loan was five years, or ten years if used to purchase a principal residence. The interest rate for all outstanding loans ranged from 5.00% to 9.50% as of December 31, 2013.

Participant loans were collateralized by the participant's vested account balance. Up to 50% of the vested value of the participant's account could be used as collateral for any loan. Loans included both the outstanding principal balance and accrued interest. Principal and interest was paid ratably through payroll deductions. Repayment of the entire balance was permitted at any time. Participants who terminated employment were required to repay the loan amount (plus interest) to the Plan. Participants who defaulted on their loans were required to repay the entire outstanding principal balance and accrued interest immediately.

MUSTANG 401(k) PLAN

Notes to Financial Statements - continued December 29, 2014 and December 31, 2013

Expenses

The Plan provided for the payment of administrative expenses including trustee, record keeping, consulting, and legal through deductions from participant accounts. Loan administration fees were charged to participants. Investment related expenses were included in net appreciation in fair value of investments. Audit and other expenses were paid by the Plan Sponsor.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan were prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments were reported at fair value. The Plan's administrator determined the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for a description of the valuation methodologies for the Plan. The Plan presented, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation in fair value of investments, which included realized gains and losses and the unrealized appreciation (depreciation) of those individual investments. Purchases and sales of investments were recorded on a trade-date basis. Interest income was recorded as earned and on the accrual basis. Dividends were reported on the ex-dividend date.

No allowance for credit losses was recorded at December 31, 2013. Loans were measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a distribution was recorded.

Payment of Benefits

Benefits were recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") required the Plan administrator to make estimates and assumptions that affected certain reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provided for various investment options, which in turn invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could have materially affected participants' account

balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Recently Issued Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, which eliminates the requirement for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation by general type. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. ASU 2015-12 also removes the requirement to disaggregate investments of employee benefit plans by nature, characteristics and risks and will require that these investments be grouped only by general type. This update is effective for the interim and fiscal periods beginning after December 15, 2015.

In May 2015, the FASB issued ASU 2015-7, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-7 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for interim and fiscal periods beginning after December 15, 2016.

The adoption of these standards will not impact the Plan's statements of net assets available for benefits and statements of changes in net assets available for benefits, due to the Plan merging with and into the MSP on December 29, 2014.

Subsequent Events

The Plan administrator evaluated events after the Statement of Net Assets Available for Benefits date through September 14, 2015, the date the financial statements were available to be issued.

NOTE 3 - FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan's investments and loans were held by Fidelity Management Trust Company ("Fidelity"), the Plan's trustee. Financial information relating to these investments and loans, including investment value, interest and dividend income, and investment income, was included in the accompanying financial statements and notes based on information provided by the trustee.

The Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator obtained a certification from the trustee of the Plan that all of the information included in the financial statements and notes to financial statements related to investments, at fair value, loans, interest and dividend income and net appreciation in fair value of investments, were provided and certified as complete and accurate by the Plan's trustee for the period January 1, 2014 through December

29, 2014 and the year ended December 31, 2013. The incorporation of this financial information in the accompanying financial statements was based solely upon that certification and was not audited by the Plan's independent auditors.

The following investment information was included in the information certified by Fidelity, and was used by the Plan administrator in the preparation of the financial statements in compliance with ERISA:

- a. Total investments of \$14,217,590 and loans of \$270,062 as of December 31, 2013.

NOTE 5 – FAIR VALUE MEASUREMENTS

The Plan applied the accounting standards for fair value measurements to all of the Plan's investments that were measured and recorded at fair value. Fair value was defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants at the measurement date. The three levels of the fair value hierarchy defined by the standard are described below.

- Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets included mutual funds, which were investments in registered investment companies, whose fair values were derived from quoted net asset values (NAVs) available in active markets at the close of a trading day and its money market fund, an institutional mutual fund that computes a daily NAV.
- Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which were either directly or indirectly observable as of the reporting date. The Plan did not have any Level 2 investments.

Level 3: Pricing inputs that were generally unobservable and not corroborated by market data. The Plan did not have any Level 3 investments.

The asset or liabilities' fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques maximized the use of relevant observable inputs and minimized the use of unobservable inputs.

There were no changes in the methodologies used at December 31, 2013. There were no transfers between Levels 1, 2 or 3 during the period from January 1, 2014 to December 29, 2014.

NOTE 6 – RELATED PARTY TRANSACTION

Fidelity managed the Plan's investments as of December 31, 2013 and for the period from January 1, 2014 through December 29, 2014. Fidelity was the trustee as defined by the Plan and, therefore, these transactions qualified as related party transactions.

NOTE 7 – PLAN TERMINATION

Although it did not express any intent to do so, the Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

NOTE 8 – TAX STATUS

The Internal Revenue Service ("IRS") determined and informed the Company by a letter dated March 31, 2008, that the Plan was designed in accordance with applicable sections of the IRC, and thus was exempted from federal income taxes. The Plan's administrator and the Plan's

counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the IRC.

Based on U.S. GAAP requirements, management evaluated tax positions taken by the Plan and recognized a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator analyzed the tax positions by the Plan, and concluded that as of December 29, 2014, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan was subject to routine audits by taxing jurisdictions; however, there were currently no audits in progress. The Plan administrator believed it was no longer subject to income tax examinations for years prior to the year ended December 31, 2011.

The Plan recognized accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.
