## NOTE 1 DESCRIPTION OF PLAN

The following description of the Regal Marine 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

***General*** – The Plan is a defined contribution plan covering all eligible employees of Regal Marine Industries, Inc. (the Company) who are age eighteen or older and have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan. The Plan Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

***Amendment*** – Effective January 1, 2014, the Plan Sponsor amended the Plan to eliminate the provision for additional employer contributions amounting to $500 per participant for each participant that meets the minimum service requirements.

***Contributions*** – Each year, participants may contribute up to the maximum percentage allowable of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their account into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company may make annual discretionary matching and/or profit sharing contributions. The Company did not make any matching or profit sharing contributions in 2014. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

***Participant Accounts*** – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vesting*** – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant does not begin to vest until year two (20%) and increases ratably until fully vested in year six.

NOTE 1 DESCRIPTION OF PLAN – Continued

***Notes Receivable from Participants*** – Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. Interest, determined quarterly, is set at the prime rate plus 1.0%. Principal and interest is paid ratably through payroll deductions.

***Payment of Benefits*** – On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account or a portion of his or her vested account.

***Forfeited Accounts*** – At December 31, 2014 and 2013, forfeited nonvested accounts totaled $4,434 and $12,023, respectively. These accounts will be used to reduce future employer contributions or Plan expenses. During 2014, $13,350 of forfeitures was used to pay Plan expenses.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

***Basis of Accounting*** – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2013, the Plan invested in investment contracts through a collective trust. The 2013 Statement of Net Assets Available for Benefits presents the fair value of the collective trust, as well as the adjustment of the interest in the collective trust relating to fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

***Use of Estimates*** – The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

***Investment Valuation and Income Recognition*** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustees and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

***Notes Receivable from Participants*** – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

***Payment of Benefits*** – Benefits are recorded when paid.

***Expenses*** – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

***Subsequent Events*** – The Company has evaluated subsequent events through September 03, 2015, the date which the financial statements were available to be issued.

NOTE 3 CERTIFIED INVESTMENTS

## NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

*Common/collective trust:* Valued at the net asset value (NAV) of units of a financial institution collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

*Guaranteed investment contract:* Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Pooled separate accounts:* Valued based on the number of shares of the respective underlying securities multiplied by the closing NAV per share quoted by the securities issuers.

*Self-directed brokerage accounts:* Comprised of cash and cash equivalents, common stock, unit investment trusts and mutual funds valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

*Assets at Fair Value as of December 31, 2014*

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth a summary of changes in the fair value of the Plan's level 3 asset, the guaranteed investment contract, for the year ended December 31, 2014:

| | |

| Purchases | 2,724,187 |
| Sales | (117,380) |
| Balance, end of year | $ 3,140,555 |

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

**Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements** – The following table represents the Plan's level 3 financial instrument, the valuation techniques used to measure the fair value of the financial instrument, and the significant unobservable inputs and the ranges of values for those inputs.

The common/collective trust and pooled separate accounts (PSA's) are made up of sub-accounts that hold different types of investments that have a variety of investment objectives. The Plan's objective is to provide Plan participants with sufficient variety of investment options to enable participants to achieve their individual goals for retirement. Participants can direct their money into the accounts of their choice. There is no assurance that these objectives can be achieved.

## NOTE 6 GUARANTEED INVESTMENT CONTRACT

The guaranteed investment contract is a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company. It provides for a guaranteed return of principal plus compound interest earned over a defined term, less any applicable contract or plan-level recordkeeping charges, provided all contributions remain in the account until the end of the guarantee period. To achieve this, the accounts credit the participants with a calculated "composite crediting rate" for the duration of the guarantee term. Contributions and earnings to this account are held in the Principal General Account.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

## NOTE 6 GUARANTEED INVESTMENT CONTRACT – Continued

Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The investment contract was purchased in July 2013 and the Plan made additional purchases in 2014. The investment contract fair value at December 31, 2014 and 2013 was $3,140,555 and $510,522, respectively. The annual "composite crediting rate" is based on a formula agreed upon with the issuer, but it may not be less than two percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that no events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract for the year ended December 31, 2014 are as follows:

| | |
|---|---|
| Based on actual earnings | 1.27% |
| Based on interest rate credited to participants | 1.00% |

## NOTE 7 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Principal, the recordkeeper and trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Principal provides certain administrative services to the Plan pursuant to a Service and Expense Agreement (SEA) between the Company and Principal. Principal receives revenue from PSA, mutual fund and collective trust fund service providers for services Principal provides to the funds. This revenue is used to offset certain amounts owed to Principal for its administrative services to the Plan.

## NOTE 7 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS – Continued

If the revenue received by Principal from PSA, mutual fund or collective trust fund service providers exceeds the amount owed under the SEA, Principal may apply a fee credit to reduce the amount of future Plan administrative expenses. During 2014, there were no excess amounts. The Plan or Company may make a payment to Principal for administrative expenses not covered by revenue sharing.

## NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

## NOTE 9 TAX STATUS

Plan has adopted the Principal Financial Group Prototype Non-standardized Profit Sharing Plan. The prototype plan sponsor, Principal Financial Group, respectively, obtained a favorable determination letter dated March 31, 2014; however, such letter is only applicable to Principal Financial Group. The plan administrator has adopted all Plan provisions within the prototype document and, although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## NOTE 11 RECONCILIATION OF FINANCIAL STATEMENTS TO THE FORM 5500
